

2022 BUYERS' GUIDE

If knowledge is power, then time is surely money. That's the idea behind the *Podiatry Management Annual Buyers' Guide*: to save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

PART I

This year's guide is divided into two parts. Part I lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special edition.

PART II

Part II, which starts on page 25, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and product name; thus, if you're looking for Amlactin under "Pharmaceuticals: Moisturizers," you can find this brand name even if you don't know that Sandoz is the manufacturer.

HOW TO USE THIS GUIDE

Another cross-referencing feature makes it easier for you to find related products. For example, if you're looking in the "Orthotics, Prefabricated" category, you will also find the cross-reference "See also: Insoles, Heel Supports, and Pads."

If you have an office manual, we recommend that you photocopy these pages and add them to your source lists. That way, the next time you run short of x-rays, for example, you can quickly locate a supplier. Incidentally, we encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support magazines such as this; and many, as well, contribute to podiatric student scholarships and research.

20/20 Imaging, a division of Konica Minolta, is the recognized leader in providing digital imaging solutions to podiatry healthcare providers for 20 years. 20/20's portfolio of DR panels and digital x-ray systems, along with our ultrasound solutions, use the latest technology to achieve the best image quality. Now offering the Universal DR 14x17 Cesium detector to complement our MOMENTUM-DR and Universal DR 10x12 Cesium detectors and REALISM™ image processing algorithm provide the best solutions available in the industry.

Our extremely efficient PXS710 high-frequency output x-ray unit with anatomical programming is designed to minimize dose and advance patient care. The x-ray unit, coupled with any of our DR detectors, provide outstanding image quality. 20/20 Imaging Opal-Pod software offers secure image viewing, storage, manipulation, and EHR integration. We also option a HIPAA-compliant cloud back-up and image data recovery solution.

Additionally, 20/20 Imaging offers

cutting edge ultrasound. Featuring exceptional image quality, Simple Needle Visualization to improve needle visibility, ease of use, and unmatched training with 5-year warranty, the HS2 and MX1 have become the #1 choice for ultrasound in podiatry.

Learn about our advanced digital technology and reimbursement incentives with our experienced specialists today!

Our mission: To positively change the lives, practices and communities of podiatric physicians through leadership education, practice management education and sharing knowledge.

The American Academy of Podiatric Practice Management (AAPPM) is podiatry's premier association dedicated exclusively to practice management education. Nearly 2,000 established practitioners, new practitioners, residents, podiatric assistants, executive office managers, staff members and students have learned that joining the Academy family can change their practice and change their lives.

For over 50 years, the American

Academy of Podiatric Practice Management has positively impacted the lives of practitioners and their staff by integrating improved patient care with proven practice management strategies. Whether you are an established practitioner, new practitioner, multi-physician practice, or a doctor looking to retire, the AAPPM is here for you.

We invite you to join the AAPPM and find out firsthand how the positive sharing attitude of our leadership and members, our unique practice management meetings, mentoring programs and many other educational resources can help you change your practice and change your life.

AMERICAN BOARD OF FOOT AND ANKLE SURGERY (ABFAS)

(415) 553-7800
www.abfas.org

Email: info@abfas.org

The American Board of Foot and Ankle Surgery (ABFAS) strives to protect and improve the health and welfare of the public by advancing the art and science of foot and ankle surgery. It is the only surgical certification board recognized by the Council of Podiatric Medical Education through the Specialty Board Recognition Committee.

ABFAS grants certification status to candidates who successfully meet the guidelines for demonstrating competency and proficiency in the art and science of foot and ankle surgery. Those certified surgeons, called ABFAS Diplomates, engage in a process of continuous learning to remain certified.

The American Board of Podiatric Medicine (ABPM) offers a comprehensive board qualification and certification process in podiatric medicine and orthopedics. Podiatric Medicine and Orthopedics is the medical specialty concerned with the comprehensive and continuous foot health care of patients. It integrates the biological, biomechanical, rehabilitative, clinical and behavioral sciences and encompasses first contact care, continuous care, long term care and general medicine. Board certification provides the assurance to both the public and health professionals that the highest level of achievement has been attained in the specialty area.

ABPM's mission is to protect the health and welfare of the public through an ongoing process of

evaluation and certification of the competence of podiatrists in the specialty of Podiatric Orthopedics and Primary Podiatric Medicine.

THE AMERICAN SOCIETY OF PODIATRIC MEDICAL ASSISTANTS (ASPMA)

(888) 88 ASPMA [27762]
www.ASPMA.org
Email: aspmma@aol.com

"Podiatric medical assisting is a small and rapidly-changing professional career. As a result, our role is not understood as well as it should be by other professionals, our peers, educators, and the general public," says Cheryl Bailey, PMAC, Director of Communications for the American Society of Podiatric Medical Assistants (ASPMA). "Obtaining membership in the ASPMA will establish an identity as a podiatric medical assistant, a professional whose support and participation will help the profession develop and gain recognition."

Podiatric assisting mostly involves on-the-job training—learning all aspects of podiatry. "Podiatry is one of the only fields where the medical assistant does a good amount of the patient care," adds Bailey. "This provides the assistant with knowledge and skill along with a study guide to take the exam and become a

PMAC [Podiatric Medical Assistant Certified]. This, of course, is dependent on the practice and physician."

The exams are offered online and in person at several conferences. You do need to become a member in order to take the exam, but, as Bailey says, "it's well worth it."

The ASPMA currently has over 1400 active members, with more being added weekly.

Since 1993, physicians have chosen top-rated products from AMERX Health Care to increase patient compliance, boost positive outcomes, and grow practice profits. Long known for the popular AMERIGEL® line of topical wound and skin care products featuring Oakin® (oak extract), AMERX Health Care has expanded their offerings throughout the years. A comprehensive suite of wound care products including HELIX3® Bioactive Collagen, AMERX® Wound Care Kits & Dressings, and the EXTREMIT-EASE® Compression Garment are available to help you and your patients address today's wound and skin care challenges. New programs are now in place to help you unlock your practice's true growth potential. Turn-Key DME® by AMERX Health Care provides the support needed to: streamline protocols, navigate Medicare DME requirements, properly bill for DME Wound Care supplies, and more efficiently dispense DME Wound Care supplies. Create your unique DME dispensing program by combining Doctor Direct (In-Office Dispensing) and Patient Direct (Direct-to-Patient Delivery) in the proportion that best fits the needs of YOUR practice. Contact your AMERX Account Manager at 800-448-9599 today to request your personal practice analysis and ask about the options available to enhance your practice growth.

BOTTOM LINE CONCEPTS

www.tryerc.com

Did your practice receive PPP? Either way, you still qualify for ERC! Bottom Line Savings helps practice owners receive money back from the Employee Retention Credit (ERC) federal grant. This ERC program differs greatly from the Paycheck Protection Program (PPC) and is much easier to apply for. Bottom Line will submit and collect a few important documents making this program turnkey for our owners. You don't need a sales reduction to qualify for ERC. Operational impacts to your practice will qualify you as well. Your practice could be getting up to \$8,000-\$26,000 per employee in ERC credits even if you received PPP loans. Our experts will help you maximize your refund.

ComfortFit Labs is entering its 22nd year of service to the podiatric community. We manufacture custom made foot orthoses as well as serving as an official distributor of all authentic Richie Brace products. ComfortFit also sells casting foam, pre-fabricated orthotics, night splints, Cam Walkers, Medicare approved Diabetic shoes and insoles as well as a Stabilizer Brace for fall prevention. We work with I pad and I phone scanning systems to cast for orthotics and braces. Dr. Barbara Campbell serves as our podiatric medical advisor to answer questions by email. We also have an online Doctor Log-in feature on our web site

Continued on page 8

that allows accounts to check on order status as well as order products and services on our web site. We at ComfortFit continually strive to make your orthotic lab experience better and easier every time.

DocuForms is the leading supplier of podiatric medical record documentation, superbill-routing slips, HIPAA privacy notices, patient financial forms, office policy brochures, stationary and business card products.

Recommended by podiatric medical reviewers for Medicare and private insurance companies as well as health care attorneys across the nation, thousands of podiatrists in group and solo practice use DocuForms every day to document their office, nursing home, home and hospital patient encounters.

These forms allow doctors to create highly detailed accurate medical records in a fraction of the time and cost of maintaining records by dictation, handwriting or even EMR methods.

Forms for all types of patient encounters can be viewed in detail and ordered 24/7 at the DocuForms website.

www.drymaxsports.com
www.avalsocks.com

When worn regularly against the skin, fibers containing Cupron Copper improve skin elasticity. Results from a clinical study published in *Skin Research and Technology*¹ found that wearing copper oxide-containing socks for at least 10 hours a day resulted in an increase in skin elasticity of 31.4% after 4 weeks. Increasing skin elasticity may be very beneficial for diabetics in helping prevent skin tears.

Complementing the use of Cupron Copper technology, AVAL's Diabetic Socks have super-wide / easy stretch legs that leave little, if any, marks on the skin. Dense, protective padding underfoot reduces pressure while not adversely affecting shoe fit. Also, the ultra-soft fibers, seamless toe closure and no fiber ends create an extremely comfortable sock.

Cupron Copper technology creates a more healthful environment for the entire foot and leg, truly protecting vulnerable diabetic skin.

1. Dykes P. Increase in skin surface elasticity in normal volunteer subjects following the use of copper oxide impregnated socks. *Skin Res Technol.* 2014;21(3):272-7. doi:10.1111/srt.12187

Earthwalk Orthotics has established

itself as an industry leader for orthotic quality serving podiatry since 1995. Earthwalk is a long-standing ABC accredited centralized fabrication facility and exclusively serves doctors across the US (products never sold retail).

Earthwalk differentiates itself by consistently providing physicians with exceptional product quality (doctors dispensing Earthwalk's orthotics average <1% error rate), real-time professional & personalized service from experienced technicians, industry-leading turnaround times (orders ship within 5-7 business days from order receipt), and highly innovative technologies.

With a deep understanding of biomechanics and experience addressing even the most challenging foot pathologies, the Earthwalk Team welcomes the opportunity to provide support to the doctors it serves.

gSource is committed to putting the finest instruments into the hands of podiatrists and their teams. Crafted from German surgical stainless steel, and recognized by their finely finished surface, gSource instruments are designed to perform with precise surgical function. They are also conceived to be affordable. It is this combination of quality and realistic pricing that distinguishes the gSource brand.

The gSource catalog contains nearly 3,500 instruments, with a wide variety of standard patterns for podiatric procedures. The instruments are readily available for same day shipment. All standard instruments are guaranteed for life against manufacturing defects of material and workmanship.

gSource has expanded their commitment by offering instrument sharpening and repair services. Highly skilled in-house repair technicians will expertly sharpen and repair your instruments to ensure quality performance during their lifetime.

Visit www.gSource.com to view the gSource catalog and more information on gSource instrument sharpening and repair services.

Kent State University College of Podiatric Medicine (KSUCPM) is one of the most internationally respected medical institutions in the world. From cutting-edge and advanced technologies, to innovative laboratories and classrooms, KSUCPM offers students a superior, modern, educational environment. The college, located in a vibrant suburb of Cleveland, Ohio, offers its students a teaching environment comprised of faculty and staff who are among the most distinguished, authored, and leading podiatrists and medical professionals in the entire country. Students who graduate from Kent State University's College of Podiatric Medicine find themselves at the forefront of the podiatry profession. Beyond the classroom and into their careers, KSUCPM is committed to giving back to the profession by hosting three continuing medical education conferences each year in world class destinations, of which all proceeds benefit student scholarships. www.kent.edu/cpm; podiatry@kent.edu or mstanic2@kent.edu

McClain Laboratories is a physician-owned-and-operated podiatric pathology and anatomic laboratory serving the USA from Smithtown, NY. Our full-service laboratory provides 24 to 48-hour turnaround on studies of all types of pathology including dermatopathology, nail

Continued on page 14

This Buyers' Guide is also available at
podiatry.com/Buyers_guide.cfm

fungus, wounds, ulcers, cancers, warts, digital mucous cysts, bunions, hammertoes, small nerve fibers, and gout.

McClain Laboratories uses proprietary methods to identify fungal infections, making false negatives a thing of the past.

McClain Laboratories specializes in histopathologic evaluation of tissue biopsies, with an expertise in skin, nail, and foot pathology. From specimen pickup to diagnosis, McClain clients are served by our friendly and professional staff dedicated to superior customer care.

McClain Laboratories' Medical Director, Dr. Steve A. McClain—a nationally recognized dermatopathologist and lecturer—supports the profession of podiatry by sponsoring educational programs and donations to the colleges of podiatry and local podiatry society chapters.

McClain Laboratories Features:

- Same-Day and STAT Courier Service
- FedEx Express Pickup
- 24 to 48 Hour Turnaround
- Reports with color images, diagnosis, and ICD-10 coding

McClain Laboratories Services:

- Dermatopathology of the foot and leg
- Dermatoscopic evaluation of specimens
- Fungal nail evaluation
- 2nd Opinions to R/O False Negatives
- One Step ENDTM nerve fiber density test (formalin only—no mixing)
- Foreign body identification
- Accurate detection and identification of microorganisms
- Analysis of delayed wound healing
- Direct immunofluorescence testing
- A wide array of immunohistochemistry techniques

MEDICOOL

20460 Gramercy Pl.
 Torrance, CA 90501
 (800) 433-2469
www.medicool.net

Medicool, a leading manufacturer of debriding drills to the podiatry community, offers solutions for every type of practice.

Medicool believes that the hazard of breathing airborne particles generated from the debridement of fungus toenails is something that should not be taken lightly. Many DPMs and their assistants have breathing issues as a result of years of debridement procedures. Many have now alleviated their breathing troubles by using a Medicool Vacuum Drill.

If you, your staff and your patients are being exposed to potential health issues related to airborne debris during debridement procedures, Medicool offers a solution.

The Pro Vac™ and The File Stream™ Debriding Drills with built-in vacuum offer powerful motors and a high suction power to collect all those harmful dust particles.

For those doctors looking for portability, the Pro Power 20K cordless rechargeable drill offers the versatility and freedom to move between patient rooms or to travel to nursing homes. It is a high-torque 30,000 rpm powerful machine and is indicated particularly for those with outpatient visits or multiple patient rooms.

Medicool also offers a large selection of carbide & diamond burrs in over 20 different styles.

RX24 Quadrastep system is an innovative and tailored approach to treating various foot types. The system uses a patented clinical algorithm that identifies and categorizes a patient's feet into one of 24 foot-types. A patient's foot-type will influence not only their gait but also the conditions and pathologies that afflict them throughout their lives.

The RX24 Quadrastep system takes the concept a step further and simplifies the 24 foot-type medical model into six sub-classifications known as quads that groups together four similar foot types. Each quad has its own very specific foot and gait characteristics. These foot types include severe pes cavus, mild pes planus, neutral, moderate pes planus, abductovarus forefoot and severe planovalgus feet. These six quad specific functional orthoses are biomechanically tailored to that of a true custom prescription. To provide superior patient education, a quad-specific information card is included with each

pair that features possible clinical symptoms, key foot attributes, gait characteristics and more.

The RX Quadrastep system is easy to learn and can be quickly applied in a clinical setting. It also eliminates the need for costly and messy foot impressions. The devices can be stocked in-house ready for immediate fitting.

Nolaro's newest innovation is littleSTEPS, pre-fabricated foot orthoses specifically designed for kids. They deliver prescription-based correction closely matching the criteria of traditional UCBL devices. littleSTEPS provide an affordable alternative to custom orthoses, enabling early intervention and treatment of many musculoskeletal conditions common to children.

Orpyx SI Sensory Insoles with remote patient monitoring (RPM) reduce the risk of DFU occurrence¹ by collecting and trending the data that matters, including: plantar pressure, patient adherence, step count, and temperature. The system is simple and easy for your patients to use:

- The custom-milled sensor-embedded insoles are inserted into the patient's shoes and automatically connect to a digital display that is pre-configured and ready to use.
- The patient receives real-time alerts allowing them to immediately relieve the area of elevated pressure that contributes to diabetic foot complications.
- Charging is simplified with a wireless, in-shoe battery charger.

The patient's data is remotely monitored through a HIPAA-compliant dashboard:

- Patients with data that have concerning trends are flagged so they can be quickly identified and addressed before a DFU develops.
- Monthly reports are autogenerated and can be documented in the patient record including physiological date, notes and time spent monitoring.

Continued on page 17

This Buyers' Guide is also available at
podiatrym.com/Buyers_guide.cfm

• If staff time is a concern, monitoring can be contracted to a third party while still allowing the health-care provider to submit claims through CPT® codes.

Orpyx SI Sensory Insoles allow at-risk patients to be monitored at home between visits and generate additional practice revenue.

Welcome to our world. A world where our approach is a simple one.

A world where challenges, high demand, quality, and consistency come first. An industry where service to our customers through responsiveness, high standards, and value really make a difference.

Ortho-Rite has gone the extra mile to create these standards, within our world, to make yours a better place. Your needs and satisfaction are what we are all about.

“No Questions Asked Guarantee”

Flat Rate Pricing—One price for all devices

First Class Customer Service—Certified orthotist on premises at all time, plus our technical team of advisors for your convenience.

Ortho-Rite's pledge is to stand behind every product we manufacture. We will do whatever it takes to make you and your patients happy. Our progressive and caring customer service is an inherent part of our nature.

Ortho-Rite offers a full range of products and services to fulfill all of your prescription needs. You can order off of our prescription form with a sport, dress, accommodative, or children's device, or create something new. Either way you and your patients will be successful with our full spectrum of custom orthotics.

When quality, price, turn around time, and customer service are your main concerns, call us... you won't be disappointed.

In 2008, an exciting new approach to lower extremity therapies began to take shape when storied Langer Biomechanics and Canada's premiere custom foot orthotic brand, The Orthotic Group (TOG), were united in a new venture called Orthotic Holdings, Inc., or OHI. Since then, six additional companies, all leaders in their space, were added to the OHI family of brands: Arizona AFO, SafeStep, Apex Foot Health Industries, PedAlign, MDI and Central Casting. Each of these companies built outstanding repu-

tations by following a simple but essential set of principles including excellence in manufacturing, leadership in innovation and medical education, as well as superior customer, clinical and practice management support. As sister companies under the OHI banner, leveraging and unifying each other's deep experience and expertise, these exceptional brands are more powerful than ever in achieving their shared top priority: delivering products and services that result in optimal patient outcomes.

P

pharmaceutical products distributed exclusively to the practice of podiatry and dermatology. We specialize in developing novel formulations/solutions uniquely suited for treating the various diseases seen by podiatrists and dermatologists. Pedicis Research is a science-oriented company. We believe the best approach in bringing new products to market is through clinical research demonstrating our products' efficacy.

Our Products:

CIDACIN™ Antifungal Solution—is a unique product that uses dimethyl sulfoxide (DMSO) and other excipients to bring tolnaftate to the site of infection.

VIRCIN™ Advanced Wart Treatment—has been developed to treat resistant warts. Vircin employs an immuno-modulator along with salicylic acid and an antiviral to provide a one-two-three punch to painlessly combat plantar warts.

NEW HEMPCIN™ A Unique Fast-Acting All-Natural Pain Relief Cream. Hempcin targeted pain relief contains full spectrum HEMP—including CBD, CBG, and other cannabinoids for strong pain relief and anti-inflammatory action at injured areas. This powerful formulation includes the cooling of menthol, the healing of arnica montana extract, and the movement and immune support of boswellia serrata.

PHYSICIAN CLAIM CORPORATION

4710 Southfield Green
La Crosse, WI 54601
(877) 385-0257
www.physicianclaim.com
Email: pcc@centurytel.net

Physician Claim Corp. (PCC) is a nationwide podiatry-specific billing company. This is their 28th year in business and their staff has over 150 years of podiatry billing experience.

"Our over-200 clients," reports Physician Claim, "have found that they can significantly reduce their staff once they hire us. On average our podiatrists only need 1 part time person in the back office. Patient eligibility and pre authorizations are their main duties."

It is key to note that by utilizing PCC, you only pay a per claim fee that is a variable cost, not a fixed cost like permanent staff. If you see fewer patients, you pay them less. "We also go after every dollar of your insurance accounts receivable," adds Physician Claim, "which can more than pay for our services. We take all of your patient phone calls, which again saves on your staff time."

Because of these benefits, their clients have a better chance of riding out a rough economy or an illness.

"Even if you are not able to see as many patients right now," reports Physician Claim, "we can work on any accounts receivable you may have that could help bring in some income."

PHYSICIAN LEADERS/JOURNAL OF MEDICAL PRACTICE MANAGEMENT

(800) 562-8088
www.physicianleaders.org
Today's physicians, office managers and healthcare administrators

face a new economic landscape. Fees and income limitations, escalating overhead and other financial matters have become monumental concerns.

And with the rise of competition, alternative delivery systems, the new malpractice crisis, and the federal government's intensifying efforts to curb costs, it's increasingly difficult to manage a successful practice.

With JMPM, you'll learn all of the topics a busy practice administrator or physician leader needs to know about.

QUICK TAPE® is the quick and easy alternative to the low dye taping method. Seconds to apply, wearable in the shower and creates a natural arch. No adhesive spray necessary. Patients can wear QUICK TAPE® for up to 7 days and has been the #1 treatment for plantar fasciitis if worn 24/7 for 6 to 8 weeks. QUICK TAPE® is also a safe and effective method for managing pain resulting from a wide range of lower extremity ailments, including heel pain, arch pain, arthritis, achilles tendonitis, bunion pain, shin splints, sprained ankles, lisfranc injuries and much more.

QUICK TAPE® is 1-piece, pre-cut and shaped for your convenience, saving physicians and assistants time and money. QUICK TAPE® is hypoallergenic, latex-free with additional clinically proven benefits such as:

- Biomechanically altering dynamic plantar loading
- Significantly greater arch height index

- Arch and biomechanical support
- Foot stabilization
- Patient Compliance

No scissors, pads, prep work or extra adhesives are needed. QUICK TAPE® is so quick that it offers much less face-to-face contact with patients. Use 29540 billing code.

FASTER—EASIER—STRONGER—BETTER! MADE IN THE USA!

www.RemyLaser.com

The Remy Class IV Laser is 510K, FDA-Cleared to treat inflammation, onychomycosis and warts/mosaic warts (without any need for local anesthetic). Combining power, portability, function and affordability, The Remy checks all the boxes for a DPM looking to implement high-end laser therapy in his/her practice. The Remy is a 30-watt, dual-wave laser weighing only four pounds. This makes transporting the laser to and from different treatment rooms or office locations quick and easy while offering viable power to treat a myriad foot/ankle conditions.

Recently, the Remy45 (45 watts; can customize up to 60 watts) was launched, providing a light-weight option (less than 10 lbs.) for an incredibly powerful laser. The Remy45 also boasts three wavelengths: 980 | 810 | 1064.

Both models have been upgraded

to include an Android interface making software updates immediate. Plus, a robotic/unattended accessory has been included as a new option.

Zuckerman Future Technologies is the provider of The Remy Class IV Laser, owned and operated by David Zuckerman, DPM. Dr. Zuckerman is a direct importer of technology which allows him to create a price point at an incredibly competitive rate. Physicians can contact Dr. David Zuckerman for more information at 856.229.2939 (call or text) and/or email davidzuckerman@dpm@gmail.com. To see complete specifications of The Remy and to view DPM testimonials, visit www.RemyLaser.com.

The Tetra Corporation has been the leader in tolnaftate technology for 30 years and in 2021 received

a patent for the first tolnaftate nanoemulsion—Formula 7°. Tetra developed and patented Soluble Tolnaftate in 1989. Today Tetra provides innovative and clinically-proven doctor-dispensed topical treatments, skin conditioners and dietary supplements with a guarantee that supports the practice of podiatric medicine. Tetra's brands include Formula 7°, Formula 3°, FungiFoam®, CleanSweep®, Kamea® 20, Kamea® G, and CoLig-10°.

Tetra recently introduced Alaplex®, a new novel approach for patient management of peripheral neuropathy. In the fall of 2022, Tetra will introduce Glycyllic® Wart Remover, an affordable and painless patient-applied home wart treatment.

When you call Tetra a real person answers to give the medical practitioner the best service possible with a "one-call resolution" policy.

Formula 7° Solution and Rap-

id MicroGel® are the only paraben-free Soluble Tolnaftate antifungal nanoemulsions fortified with cosmetic ingredients and bactericidal agents. The oil phase is comprised of jojoba oil with Soluble Tolnaftate and tea tree oil to fortify the microemulsion with antifungal, antiseptic, germicidal and anti-bacterial properties. The water phase contains N-acetyl-L-cysteine (NAC) and urea: urea to hydrate, soften, and open keratin for better drug penetration; NAC to increase the flux of tolnaftate through the keratin to the site of involvement and provide bactericidal properties.

Tetra is a proud supporter of podiatric medicine and is a frequent exhibitor at conferences nation-wide. Call Tetra today at 800-826-0479 and you will be impressed.

The Western Foot and Ankle Conference, aka The Western, an annual event put on by the California Podiatric Medical Association, has long been the ideal place for podiatric physicians and staff from all areas of expertise to earn their continuing education contact hours, including radiology and fluoroscopy credits, for their medical license renewals—with a side of tradition for annual attendees to meet with their colleagues and celebrate the profession in an uplifting setting.

Flashback to 2020, when the global COVID-19 pandemic made holding an in-person meeting impossible. After 25 years being hosted by The Disneyland® Hotel and Convention Center in Anaheim, California, The Western took its first steps into a virtual setting with a completely online meeting.

A year later, The Western upped their virtual meeting game by hosting the full three-and-a-half days of live sessions—plus a two-day program for medical assistants—online via a branded meeting app. The meeting was so successful that a high percentage of attendees requested to keep the virtual component available even if the regular venue opened again for the face-to-face event.

Now planning for the 2022 conference, The Western has taken yet another form: a hybrid meeting. To once again be hosted by The Disneyland® Hotel and Convention Center, doctors, assistants, and exhibitors will be welcomed back to meet in person, with limited capacity compared to pre-pandemic numbers.

To meet the needs of doctors of podiatric medicine wishing to watch the 3.5-day live stream from home, a virtual experience is available via the same high-tech platform. The

Continued on page 24

This Buyers' Guide is also available at
podiatry.com/Buyers_guide.cfm

X-Z

general sessions will be broadcast to virtual attendees via The Western meeting app, where they may also peruse virtual exhibits, play a game to win prizes, and interact with other attendees.

Location and convenience aren't the only reasons The Western is the go-to meeting for podiatric specialists. As always, the general sessions will showcase esteemed instructors who will present cutting-edge and relevant scientific and patient care lectures, including biomechanics and sports medicine topics unique to the conference. Doctors of podiatric medicine requiring radiology contact hours will be able to earn all they need to renew their licenses.

Podiatric Medical Assistants will have two onsite programs from which to choose. Administrative staff will be invited to learn front office pearls and best practices to keep their offices in top shape. Assistants will have

the option to register for a clinical program to practice and brush up on back-office skills. Both programs will convene for a billing and coding session and sexual harassment prevention training course required by California state law.

Attendees will be invited to participate in event games to spice up the long days of learning. Vendors will be able to meet the needs of every podiatric surgeon, practice, and team with their diverse products and services in the exhibit hall and Virtual Expo feature of the meeting app.

California Podiatric Medical Association and American Podiatric Medical Association members will receive reduced registration rates, and PICA policyholders can earn a 15% premium discount by attending the PICA risk management presentation.

Attendee and exhibitor registration is now open for The 2022

Western. For more visit www.TheWestern.org.
