

2018 Buyers' Guide

If knowledge is power, then time is surely money. That's the idea behind the *Podiatry Management Annual Buyers' Guide*. To save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

This year's guide is divided into two parts. **Part I** lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special online edition. Click anywhere on the shaded area for each advertiser and you'll go directly to their website.

Part II, which starts on page 28, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and prod-

uct name; thus, if you're looking for Naftin under 'Pharmaceuticals: Anti-Fungals,' you can find this brand name even if you don't know that Merz is the manufacturer. Click on the boldface companies and organizations and you'll go directly to their website.

Another cross-referencing feature makes it easier for you to find related products. For example, if you're looking in the 'Orthotics, Prefabricated' category, you will also find the cross-reference 'See also: Insoles, Heel Supports, and Pads.'

We encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support both our print and online publications; and many, as well, contribute to podiatric student scholarships and research.

20/20 IMAGING, A DIVISION OF KONICA MINOLTA HEALTHCARE AMERICAS, INC.

829 Virginia Rd, Ste. A
Crystal Lake, IL 60014
(866) 734-6234
www.2020imaging.net

Email: info@2020imaging.net

20/20 Imaging, a division of Konica Minolta, is a leading provider of digital imaging solutions for podiatry. 20/20's portfolio of DR panels and digital x-ray systems, along with our ultrasound solutions, use the latest technology for the best image quality. The new MOMENTUM-DR and iRAY 1012X Cesium panels provide the best 1-2 punch available.

Our extremely efficient high-frequency output x-ray unit with anatomical programming is designed to minimize dose and advance patient care. The x-ray unit, coupled with either DR detector, provides outstanding image quality.

20/20 Imaging Opal-Pod software offers secure image viewing, storage, manipulation, and EHR integration.

Additionally, 20/20 Imaging offers cutting edge ultrasound. Featuring exceptional image quality, the HSI and J5 have been extremely well received in the podiatry community.

Learn about our advanced digital technology and reimbursement incentives with our experienced specialists today!

(800) 433-4892
Fax: (509) 624-1128
www.aafas.org

Email: theacademy@aaafas.org

The mission of the Academy of Ambulatory Foot & Ankle Surgery (AAFAS) is the promotion and education of minimal invasive foot and ankle surgery. The Academy of Ambulatory Foot & Ankle Surgery is an international association of multi-disciplined surgeons, including podiatrists, orthopedic surgeons and allopathic physicians, who are dedicated to the correction of foot and ankle pathology using minimal invasive procedures. The mission is to improve public health through education, ambulation, rehabilitation and research. Membership includes physicians in North America, Central America, South America, Europe, Asia and Middle East.

THE ACADEMY OF PHYSICIANS IN WOUND HEALING (APWH)

2806 Reynolda Rd, Ste 194,
Winston Salem, NC 27106
(336) 923-5604
www.APWH.org

Email: info@APWH.org

The Academy of Physicians in Wound Healing is initiating a Physician Assistant-affiliated membership category, bringing the Academy into 21st century mainstream medicine. The APWH recognizes that the Physician Assistant (PA) is a direct extension of the physician. For this reason physicians will typically jointly attend conferences with their PA. As a physician-oriented society, it is important to accommodate this need because physicians have frequently requested an educational outlet and membership category for their physician extenders. The APWH will continue to be physi-

cian-focused. It is the only organization directing all of its resources to physician-specific advocacy and educational needs. Accordingly, the advisory board, committee chairs, etc. will remain physicians.

The APWH provides the very best Online Review and Refresher Course for wound care available; Fees: only \$200 for members (\$325 non-members). Register today!

2018 National APWH Conference, October 12-14, Philadelphia

Allied OSI Labs is a podiatrist-owned, industry leader in custom orthotics and AFOs. In addition to providing top-quality products, Allied OSI's Client Service team is unmatched in the industry.

Allied OSI offers the #1 recommended AFO—The Richie Brace®, as well as the NEW Richie Aero-Spring Bracing System®. Allied's commitment to client education helps to ensure positive patient outcomes and overall practice success.

Allied OSI also offers OTC solutions with the same quality standards of the custom line. SideKicks OTC orthotics are only available through medical professionals and cannot be purchased by patients in retail locations. The Footlights custom orthotic line is also available at an economic price of \$65, which includes many accommodations.

We make it a goal to streamline your practice dispensing program. Therefore, we also offer the FS6 Plantar Fascia Compression Sleeve with Compression Zone Technology® and the Foot Gym®.

Call our world-class team today to receive professional, expert advice and outstanding service that will reflect positively on your practice.

Our Mission: To positively change the lives, practices and communities of podiatric physicians through leadership education, practice management education and sharing knowledge.

The American Academy of Podiatric Practice Management (AAPP) is podiatry's premier association dedicated exclusively to practice management education. Nearly 2,000 established practitioners, new practitioners, residents, podiatric assistants, executive office managers, staff members and students have learned that joining the Academy family can change their practice and change their lives.

For over 50 years, the American Academy of Podiatric Practice Management has positively impacted the lives of practitioners and their staff by integrating improved patient care with proven practice management strategies. Whether you are an established practitioner, new practitioner, multi-physician practice, or a doctor looking to retire, the AAPP is here for you.

We invite you to join the AAPP and find out firsthand how the positive sharing attitude of our leadership and members, our unique practice management meetings, mentoring programs and many other educational resources can help you change your practice and change your life.

(248) 855-7740
Fax: (248) 855-7743
www.ables.org
Email: info@ables.me

Because board certification is widely accepted as the touchstone of physician quality, and is coveted by physicians for the professional esteem derived from this rigorous, intellectually invasive peer review process, it

must never be gratuitously granted.

ABLES has established a fair and reliable process by which the sum of one's academic knowledge and that special wisdom borne of experience may be evaluated to show that he merits certification by this board via either of its two methods. ABLES has also implemented an unmatched, mandatory, periodic, performance-based recertification process by which those who are certified by this board may demonstrate continued merit.

ABLES has set for itself the task of creating an interprofessional membership. ABLES already has MDs and DOs among its members. This will foster the exchange of information on scientific advances and evolving professional philosophies. It will facilitate the creation of a uniform standard of care for all professionals treating the lower extremity. It will help to obliterate senseless discrimination among academic degrees and organizational affiliations in the matter of professional privileging in hospitals and MCOs.

ANODYNE

5050 S. 2nd St.
Milwaukee, WI 53207
(844) 637-4637
www.anodyneshoes.com

At Anodyne, we've avoided the commercial vision of quick and easy comfort. Instead, we've returned to the fundamental roots

of footwear—meticulous design, quality craftsmanship, and rigorous attention to detail. From a product and service standpoint, we're the absolute best at what we do.

Our shoes are the lightest diabetic shoes in the industry, and feature all of the standard features of A5500 footwear (extra depth, protective toe box, stiff shank, strong heel counter). Additionally, all styles have soft microfiber linings that are treated with a proprietary antimicrobial spray before shipping.

We have a full service lab hand-crafting A5513 custom accommodative inserts, L5000 toe fillers, and any kind of shoe modification requested. Turnaround times on custom inserts and toe fillers is 24 to 48 hours. We've also created and released the first fully functional and portable iPad scanner app for accommodative inserts, eliminating the cost, ship-

ping time, and headaches associated with impression foam.

You deserve the best partner for your shoe program.

A member of OHI's growing family of companies focused on treating conditions and diseases of the lower extremities, Arizona AFO has been a premiere fabricator of custom-made ankle foot or-

thoses since 1994. Carrying on a tradition of innovation, excellence in manufacturing and exceptional customer care that began with company founder Ernesto Castro, Arizona AFO's steadfast focus on individual patient needs and patient outcomes continues headlong into the 21st century.

Arizona AFO launched an entirely new product category and moved its industry in a less invasive, non-surgical direction with its patented Arizona Brace®. Often copied but never equaled, the Arizona Brace® has been proven in clinical trials to effectively treat PTTD (Posterior Tibial Tendon Dysfunction). Arizona AFO is also the exclusive fabricator of the Moore Balance Brace™, the Optima Brace™ as well as a complete selection of other superior quality custom devices for treatment of even the most challenging cases.

All Arizona AFO products are designed, developed, manufactured and tested in the United States.

Now, dropfoot patients can enjoy safe, efficient walking with the Push ortho Ankle Foot Orthosis (AFO). With a flexible footplate that allows forefoot motion and adjustable ankle dorsiflexion assist, the Push AFO offers medial / lateral support, controlling inversion / eversion. It recreates natural gait, improves the ability to perform sit-to-stand transfer, and increases ankle stability on uneven surfaces. Wearers can walk up and down slopes more quickly and easily, and descend stairs reciprocally. The AFO can be applied and adjusted with one hand, worn with a variety of footwear, and serve as a night splint if desired.

The Push AFO is available from BraceLab, the exclusive distributor of Push® premium braces in the United States. Push braces, which include several ankle braces, are uniquely designed in consultation with medical experts to be anatomically correct and provide optimal support with minimal restriction of daily activities. Push braces are made in Europe with premium quality materials and workmanship for maximum comfort and durability. They are machine washable and have a 90-day warranty.

OHI's Central Casting service provides on-demand, in-office expertise in lower extremity therapies such as custom AFOs, therapeutic footwear and custom foot orthotics. Our clinicians, under the doctor's supervision, cast, dispense and fit the patient. Patients are seen in the office, not referred out, and so the revenue remains with the practice.

CERTIFIABLE, INC. (BOARDS-BY-THE-NUMBERS)

(513) 347-0004
www.certifiable.com
Boards by the Numbers is an

easy-to-use software program designed to help podiatrists prepare for the ABFAS foot certification exam. The software includes a comprehensive set of board-focused notes (over 300 pages); high resolution graphics (MRIs, X-rays, color images); practice exams (over 800 questions) and an overview of the new CBPS (computer-based patient simulation) software, including a "walk through" video.

The program is a cloud application and is accessible anytime anywhere, on multiple devices (Macs, PCs, iPads, iPhones, and other mobile devices). The program is sold as a one-year subscription and requires Internet connection, a mobile phone with texting ability for two part authentication and is browser-dependent.

COUNCILmet.org

The Council for Medical Education and Testing (CMET) moves to an on-line testing experience. Examinees will be scored on site and know how they performed before leaving the examination setting. The online format allows for multiple testing sites. The modern, computer-based format has become the dominant platform for certifying exams of all types. The CMET exam's reputation is that it is fair and balanced, providing questions pertaining to daily practice, not esoter-

ic "trivia". If you are interested in serving as a proctor for your region, email info@COUNCILmet.org or call (336) 923-5064. CMET has the unique distinction of being the first organization to create a physician-specific certification exam for wound care—visit Councilmet.org.

darcointernational.com
Darco International was found-

ed in 1985 by H. Darrel Darby, DPM. Dr. Darby was a graduate of OCPM and President of APMA in 1976. Over the course of its 33 years in business, Darco International has donated over 500K for podiatric scholarships. It was Dr. Darby's goal to manufacture high quality, comfortable post-operative shoes for his patients and patients of DPM's throughout the country. From those early efforts, Darco has grown to become a world leader in the manufacture and distribution of post-operative footwear and offloading products. Our square toe med surg shoe was the first of its kind when launched in 2004. Since then, several companies have duplicated the shoe and several of our other products, in an attempt to capitalize on our innovation and strong connection to the podiatric community. Darco will remain true to its roots in podiatry and we fully support with our attendance at conferences, past and present, the following organizations: APMA National, FPMA, NYPMA, NCPMA, The Midwest Podiatry Conference, The Western—CPMA, TPMA, Goldfarb Conference, ACFAS, and many other regional and wound care meetings. Darco appreciates your business and support. Visit our web site or contact us for more information. www.darcointernational.com

DIA-FOOT

3400 Fairlane Farms Rd., Ste. 7
Wellington, FL 33414
(877) 405-3668
www.dia-foot.com

Dia-Foot, simply put, offers the best selection of diabetic shoes for your patients. As a podiatry-owned company we understand the need for podiatrists to offer the highest quality and appropriate shoes to their diabetic patients. Dia-Foot has selected manufacturers that fit into our diabetic shoe program and every year we find new diabetic shoes to add to our catalog.

Dia-Foot distributes shoes from New Balance, Dr. Comfort, SAS, Brooks, Orthofeet, Hush Puppies, Aravon, Dunham, Nature Stride, Wolverine, Propet, Rockport and i Runner. It is important to offer patients a nice selection of diabetic shoes so they enjoy wearing them and at the same time get the benefit of the diabetic inserts.

Dia-Foot's in-house lab manufactures the A5513 diabetic inserts. These inserts are produced from a positive model of the foot and have recently been approved by PDAC under the redetermination project.

Dia-Foot manufactures the Pure Stride line of OTC Orthotics. We have introduced the all-new Men's Dress Orthotics and the Pure Stride RX Full Length Orthotics with memory foam. We will have samples of these new orthotics at the upcoming trade shows.

"We Want You!!"—an open letter to the podiatry profession from Dr. Jill and Jay at Dr. Jill's Foot Pads:

We would like to thank the more-than-12,000 podiatrists who have given us a chance over the last 16 years. And for those of you who have been thinking about us but not yet been purchasing your padding supplies from us we ask you to give us an opportunity to show you how good we are.

There has never been a better time to start working with us if you are not already. With reimbursements going down we can easily help you put additional dollars in your bank account by dispensing pads to your patients who buy pads anyway!

We will also SAVE you money on all of your padding supplies and keep your money where it belongs: with you!

We specialize in Felts, Foams, Moleskin, Gels, Cork, Rubber Cork, PPT, Poron, Pre-Fab Orthotics, Semi-Custom Orthotics and more. No company in the nation has a larger selection of padding supplies. With over 5000 different padding selections we are sure we have what you need and if we don't have it we can make it in the USA!

1) Easy ordering via Toll FREE Phone, Toll FREE Fax, E-Mail, On-Line Medical Professional Store, Live Chat or just give us a call and we would love to help! Ordering

has never been easier 24 hours per day. We can even set up a DROP SHIP program directly to your patients.

2) The largest selection of padding supplies. MADE IN THE USA

3) The lowest guaranteed prices.

4) The highest quality raw materials.

5) No minimums.

6) Free shipping on ONLY \$80.00 orders.

7) The knowledge to get you what you need when you need it!

DocuForms is the leading supplier of podiatric medical record documentation, superbill-routing slips, HIPAA privacy notices, patient financial forms, office policy brochures, stationary and business card products.

Recommended by podiatric medical reviewers for Medicare and private insurance companies as well as health care attorneys across the nation, thousands of podiatrists in group and solo practice use DocuForms every day to document their office, nursing home, home and hospital patient encounters.

These forms allow doctors to create highly detailed accurate medical records in a fraction of the time and cost of maintaining records by dictation, handwriting or even EMR methods.

Forms for all types of patient encounters can be viewed in detail and ordered 24/7 at the DocuForms website.

DocuForms is fully updated for ICD-10.

(800) 995-2001
Fax: (818) 704-6997
Email: info@dpm-aire.com
www.dpm-aire.com

DPM-Aire offers the New-Aire line of air purifiers direct to podiatrists. These air purifiers are designed to remove the most dangerous health-threatening sub-micron-size nail dust particles and bio-aerosols from the treatment room and podiatric office environment.

These air purifiers take over where point-source nail dust vacuums and dust masks fail. Published studies show that these vacuums still allow from 8 to 75% of nail dust to escape into the treatment room air for doctors, staff and patients to breathe.

These studies also show that podiatrists suffer significantly higher rates of respiratory diseases. The most recent studies have linked the smallest of these particles to sudden MI's. Podiatrists who care about themselves, their families and staff place New-Aire units in all treatment rooms.

Sammy Systems (also known as ICS Software, Ltd.) has been serving the podiatry community for over 30 years.

Sammy Systems software and services play an integral part of allowing podiatrists to successfully run their practices. Our robust and comprehensive product suite includes a full-featured practice management and electronic health record systems that makes it easy for podiatrists to schedule, manage, and bill patients easily. Furthermore, our software makes it easy for podiatrists to earn maximum MIPS bonuses. More than 800 of our providers received a 100 MIPS score for 2017 reporting. Sammy Systems allows podiatrists to focus on their patients and not worry about the administrative and regulatory burdens. Our reputation and customer retention is the result of our constant enhancements and the best customer support in the industry.

Sammy Systems' suite of services include www.Checkmedicare.com, www.CheckEligibilityNow.com (eligibility verification for 500+ insurance companies), www.MedXpressclaims.com (claims processor and network service vendor for Medicare and other carriers throughout the

www.io-lab.com

With one of the largest footwear selections, highest quality orthotics and value added solutions—IO Lab is the clear choice for today's practitioner

Each custom orthotic is made in the USA by hand and inspected during every stage of the manufacturing process. It's not just the IO Lab technologies that make a superior product, it's the commitment each team member puts into the final product—that's what sets IO Lab apart.

New IOL3DScanner app is now available on iTunes. The app was developed with a number of enhancements to improve turnaround

times and provide accurate true 3D data. Practitioners save 100% of the costs associated with time, casting supplies and shipping costs.

Our app's benefits:

- Portable
- No Mess
- Easy to use solution: scan the patients feet, complete order form and send.

A quality vendor relationship is only possible through unparalleled service. Think of IO Lab as an extension of your business... your outside orthotic specialists. This means that alongside our commitment to delivering a quality product, you're also getting the kind of service you'd expect from one of your own employees.

KLM Laboratories manufactures foot orthotics and ankle foot orthotics with an emphasis on quality and service. We fabricate custom orthotics and produce prefabricated products that are used in medical and retail locations worldwide. KLM is leading the way adopting the newest technological advances in orthotic manufacturing by applying the use of 3D Laser Im-

aging and routers. Our lab experts demonstrate exceptional skill in processing scanned images as well as traditional plaster casts utilized by foot care professionals. We continue to establish new standards in the foot orthotic industry by offering to place private labels on custom or over the counter devices. KLM demonstrates how applying innovation and creativity to orthotic technology can stimulate the foot orthotic industry. Join the experts at KLM and we could be the secret to your success.

A member of OHI's growing family of companies focused on treating conditions and diseases of the lower extremities, Langer Biomechanics has been a leading provider of lower extremity care solutions to healthcare professionals for more than forty years. Founded in 1969, Langer is the preeminent fabricator of superior-quality, custom foot orthotics. The company also distributes PPT, a proprietary, soft-tissue supplement for cushioning, durability and shock absorption; and other DME products.

Langer is renowned for its focus on product and techno-

Continued on page 16

logical innovation. The company's ScanCast 3D represents the leading edge in foot scanning technologies.

Langer's first priority is in partnering with its healthcare providers around the common goal of achieving optimal patient outcomes. The company's corporate philosophy is deeply rooted in perpetual innovation, industry-leading product quality as well as its highly-regarded and progressive educational support.

The company's enduring success and industry leadership is rooted in the recognition that the practitioner/laboratory relationship is a true partnership. Practitioners invite Langer to engage in the treatment of their patients. That uncommon trust and confidence is deeply valued by every Langer employee and the constant reinforcement of that relationship is the company's highest priority.

Marlinz Pharma provides physicians with a powerful new weapon to treat the symptoms of nail conditions, while simultaneously introducing anti-fungal agents to the site of fungal infections. The patent pending, topical OTC Tolcylen™ Antifungal/Nail Renewal Solution is the first product to successfully deliver a low molecular weight, low surface tension anti-fungal formulation that can also penetrate and rapidly improve the appearance of thickened, dehydrated and discolored nails.

Tolcylen™ is dispensed through physicians only and does not require a prescription. Marlinz Pharma partnered with leading researchers over a 3-year period to develop a drug combining the scientifically proven permeation characteristics of the topical Rx drug bases with the combination of urea, lactic acid and propylene glycol proven to rapidly normalize coloration, thickness and hydration of compromised nails. Join an expanding number of physicians who are now able to successfully treat a wide range of nail pathologies while also enhancing their practice.

www.mdbuyinggroup.com

MD Buying Group is a medical purchasing group started by physicians for physicians. It was founded by Joel Lerner, DPM in 2005, who understood the savings advantage of buying medical supplies as a group, resulting in great purchasing power. The MD Buying Group allows physicians to purchase all medical and

non-medical supplies at a price far less than any individual office is able to with ease and confidence. MD Buying Group's philosophy is "when we buy together, even the smallest of offices will be able to purchase necessary supplies at the same price as larger offices.... UNITED WE SAVE." The group has garnered partnerships with multiple companies, which allows members to buy any product needed for as much as 50% less than typical catalog pricing. Members can also enjoy additional savings on overstock items and weekly specials. There are no membership fees, so join the 3000+ doctor network for amazing savings.

The Midwest Podiatry Conference will be held April 19-22 at the Hyatt Regency in Chicago. The program will be featuring a variety of workshops, tracks, and panels to enhance your conference experience:

- Hands-on workshops to expand and sharpen your skills
- Select from 2 DPM tracks to build an agenda that fits your educational goals
- World-renowned speakers and stimulating topics
- Prepare for ABFAS certification with their Board Review Course
- Continuing education tracks for administrative and clinical assistants
- Panels that explore multi-disciplinary approaches to treatment
- Connect with 200 exhibitors to view the newest products, services, and innovations.

Brace yourself for the finest quality and affordable custom-molded brace using precise, proprietary state-of-the-art CAD technology—including prescribed modifications. Niagara Brace—a Tru-Mold Shoes company—offers three levels of frame support, four color options and your choice of closure method. Check out our new Sure Stabilizer Brace, which enhances mobility while preventing falling when standing up and during ambulation. Also available: a Niagara Brace built into a Tru-Mold shoe, and our popular Advanced CROW combining the features of a custom molded boot and CROW AFO. The Advanced CROW enhances healing and off-loading of pressure to problem areas of the foot.

Middlebury, CT 06762
(877) 792-4669
Fax: (203) 758-1011
www.whatsmyfoottype.com

RX24 Quadrastep system is an innovative and tailored approach to treating various foot types. The system uses a patented clinical al-

gorithm that identifies and categorizes a patient's feet into one of 24 foot-types. A patient's foot-type will influence not only their gait but the conditions and pathologies that afflict them throughout their lives.

The RX24 Quadrastep system takes the concept a step further and simplifies the 24 foot-type medical model into six sub classifications known as quads that groups together four similar foot types. Each quad has its own very specific foot and gait characteristics. These foot types include severe pes cavus, mild pes planus, neutral, moderate pes planus, abductovarus forefoot and severe planovalgus feet. These six quad specific functional orthoses are biomechanically tailored to that of a true custom prescription. To provide superior patient education, a quad-specific information card is included with each pair that features possible clinical symptoms, key foot attributes, gait characteristics and more.

The RX Quadrastep system is easy to learn and can be quickly applied in a clinical setting. It also eliminates the need for costly and messy foot impressions. The devices can be stocked in-house ready for immediate fitting.

Nolaro's newest innovation is littleSTEPS, pre-fabricated foot orthoses specifically designed for kids. They deliver prescription based correction closely matching the criteria of traditional UCBL devices. littleSTEPS provide an affordable alternative to custom orthoses, enabling early intervention and treatment of many musculoskeletal conditions common to children.

Ortho-Dynamics Custom Orthotics Lab has been in business (25+) years.

Ortho-Dynamics manufactures all the custom orthotics and braces we sell.

We use only the highest quality medical grade materials in the fabrications, which results in the highest quality level in our industry today.

Ortho-Dynamics offer flat rate prices, which includes all orthotic modifications.

Our custom sport orthotic includes (12) styles, and is engineered to address the biomechanics of a wide range of sport activities.

All of our custom orthotics are available in 2mm, 3mm, 4mm or 5mm shells to address a wide

range of patients weight and activity levels.

Ortho-Dynamics works closely with our clients to provide personalized custom service, technical support, and assistance in product selection.

We look forward to working with you.

The new, 64-page 2018 PediFix Medical Footcare catalog is packed with hundreds of unique treatment products that resolve dozens of different foot ailments.

The catalog includes 11 innovative new products to help practitioners treat patients effectively, efficiently and economically. PediFix makes these products available to dispense, prescribe through locally-owned retailers and via patient direct ordering, so no matter what your practice setting, doctors can get these items to their patients.

"As foot specialist since 1885, and for 4 family generations, we continue to develop exclusive products that fill the needs of patients," says Jon Case, CEO of the firm. "Our new items have been well received at recent conferences, and we're excited to share them with other practitioners in this new edition of our catalog."

To get your copy of the new catalog, and a free sample request card, call 1-800-424-5561, Fax: 1-800-431-7801, or email info@pedifix.com today.

PRESENT e-Learning Systems has been a leading podiatric company since 1995, providing a suite of education products which enhance the professional development of podiatrists. PRESENT Podiatric Residency Education Online, currently in its 15th year, has become the standard lecture curriculum at podiatric residency programs across the country. PRESENT Board Review Online is the most widely used online board review program in podiatry. PRESENT Podiatry was among the first companies to combine online CME education and social networking online in medicine. PRESENT Podiatry combines the highest quality online CME programming with Facebook-style social networking, to offer the podiatry community a full-featured perpetual online professional education community. From one website, <http://podiatry.com>, all PRESENT Podiatry services are now available to the profession in one integrated, simple-to-use service.

Quick Notes is a leader in Note Systems and EMR for Podiatry. We are proud to release our new Version 6.0 "Team Workflow" Edition.

PDQ Touch is designed to work anytime and anywhere. PDQ works on iPads or Samsung Galaxy tablets, as well as laptops, desktops or touchscreens. PDQ is fully customizable, so it can easily be tailored to your specific practice. Use PDQ in your office, at nursing homes, or even at home! Set up your favorite note profiles; use your previous visit to create today's note; and you can use voice dictation to edit your notes right away.

QNotes Office EMR links seamlessly with PDQ Touch. Notes are transcribed in seconds! Plus you can scan forms, reports and cards into the EMR. Add Smart Backup Kit with external drives and free offsite data storage, so your patient data is fully protected.

Now's the time to start doing your notes in a real, portable and fully compliant note system! If you are ready to switch from your current EHR or Cloud System to a better note taking solution, please give us a call. Visit us at www.qnotes.com or call 800-899-2468 for an internet demo.

QUICK TAPE BY SUPPORT THE FOOT

(253) 981-4849

Fax: (253) 322-5497

www.SupportTheFoot.com

Email: info@

SupportTheFoot.com

Tape Feet in Seconds! Get all the advantages of Low Dye without the disadvantages. Wearable in the shower, lasts up to 7 days, enhances patient compliance, fast application, hypoallergenic, latex-free, supports and stabilizes the arch, aligns the foot, no scissors or adhesive spray necessary, instant pain relief, billable with strapping code 29540.

Once you try Quick Tape™, you won't go back to the old way! Not only does it save a huge amount of your taping time, it saves time gathering all the supplies that you won't need anymore. There will no longer be adhesive spray all over your clothes and exam room. Quick Tape simulates and exceeds the traditional Low Dye taping. It can literally be applied in seconds!

The patient will be more compliant since they can wear Quick Tape for up to a week, depending on body type, and wear it through several showers--just pat dry. Your patients will love you for it!

The only 1-piece water-resistant foot support strap for multiple foot conditions.

The Rhett Foundation is a non-profit organization dedicated to the advancement of podiatric medical education with emphasis on podiatric dermatology. This self-funded Foundation is the brainchild of Bradley Bakotic, DPM, DO and Joseph "Jody" Hackel, MD, being cre-

ated as a means of giving back to the podiatric profession after more than a decade of inspiring support. With the help of its additional Contributing Founder G. Dock Dockery, DPM and Bryan Markinson, DPM (others to be added over the following year), the Rhett Foundation will provide educational grants for non-profit educational meetings, use its resources to improve education at the University level, fund research, author the first comprehensive textbook on podiatric dermatology, and launch a podiatric dermatology learning center to further the dermatological education of both residents and practicing clinicians, at little or no charge. We believe in loyalty, and we believe in giving back; it's as simple as that!

www.richiebrace.com

Celebrating its 21st year of success in the podiatric community, the Richie Brace® and its family of products continue to be the premium brand in lower extremity bracing. Often imitated but never duplicated, the original Richie Brace® is the preferred intervention for posterior tibial tendon dysfunction (PTTD) allowing full ankle range of motion with minimal disruption of shoe fit. Other Richie Brace® products provide effective treatment of dropfoot, tendinopathy and arthritic conditions. All of these products are delivered to the podiatric physician by a team of lab distributors who can provide unmatched clinical consultation and technical services for both AFO and custom foot orthotic therapy.

The new Richie AeroSpring

Brace Systems offers an attractive alternative to cumbersome walking boots, which are commonly prescribed for lower extremity injuries.

Chronic conditions such as severe plantar heel pain, Achilles tendinopathy and midfoot arthritis can now be managed with a dynamic carbon fiber ankle-foot orthosis combined with custom foot orthotic offloading. This lightweight system is PDAC approved and reportedly will assure better patient compliance and favorable treatment outcome.

The Richie Brace® is available from the following authorized distributors who can provide instructions for casting, coding, and reimbursement guidelines:

A member of OHI's growing family of companies focused on treating conditions and diseases of the lower extremities, SafeStep was co-founded in 2000 by Josh White, DPM, and provides diabetic foot-

wear and DME solutions to over 3,000 medical practices.

Dr. White, a member of the APMA's DME sub-committee and a Codingline Expert Panelist, personally shepherded the integration of podiatry into Medicare's DME system. In SafeStep's formative years, he assisted over 1000 practitioners in navigating the complex DME supplier application process. That core value of aiding podiatrists with Medicare's burdensome administrative requirements remains front and center today. SafeStep's "Worry Free DME" program utilizes a proprietary technology that ensures Medicare compliance while streamlining the billing and procurement process.

SafeStep offers over 500 shoe styles from manufacturers including Apex, Brooks, DryDock, Hush Puppies, New Balance and Orthofeet. An industry leader in reducing fall risk, SafeStep has

developed fall prevention protocols used by hundreds of podiatry practices nationwide and was integral in the introduction of the custom-made Moore Balance Brace (MBB). SafeStep is the exclusive distributor of Arizona AFO's full line of custom-fabricated AFOs and makes available a wide variety of DME distributed products.

ChartMaker Go is a comprehensive, integrated, and affordable cloud-based medical billing and scheduling system for physicians that includes the ability to capture charges and view schedules, including hospital rounds, on mobile devices such as tablets and smart phones.

The nucleus of the system includes medical billing modules to electronically submit insurance claims to Medicare, Medicaid, commercial insurance, and patients for inpatient, outpatient, and office-based charges as well as anesthesia billing. Automatic posting of the explanation of benefits, as well as eligibility check-

ing, are included. Integration of mobile devices, such as smart phones, allows physicians to view patient and appointment information when out of the office, and enter patient charges from their smart phone that automatically appears in the ChartMaker Go Medical Billing System for processing by the physician billing staff or billing service.

ChartMaker Go includes a comprehensive appointment scheduling system for office appointments and hospital rounds. Appointment and hospital round information can be viewed on the physician's mobile device by facility location and includes location and room number. Past charges captured within ChartMaker Go can be reviewed remotely on the mobile device and new charges can be entered for current encounters by simply selecting the patient and modifying the old charge or enter-

ing a new charge.

ChartMaker Go is a cloud-based application, so medical data can be accessed from anywhere with an Internet or cellular connection on a mobile tablet or smart phone. Data is maintained on secure servers, with backup of critical financial information, and automatic program updates from STI, saving medical staff hundreds of hours per year in wasted time.

ChartMaker Go starts at \$399/month per medical practice and \$59/month/provider for Electronic Data Interface (EDI) clearinghouse fees. For information call Joe Cerra at 800.487.9135, ext. 1188 or by email jcerra@sticomputer.com; or visit www.sticomputer.com. Straight Arrow Products, Inc., continues to provide quality therapeutic products to podiatrists and their patients at an affordable price.

The current line of products

Continued on page 26

includes Foot Miracle and Urea Care, both specially formulated to meet the needs of the podiatric patients and their doctors.

Foot Miracle has been a mainstay for the podiatrist for over 25 years and Straight Arrow reports that the success of Foot Miracle is due to the formulation, performance and overall value that it provides to the podiatrist, staff and most importantly the patient.

This success led to Urea Care, which is a 10% urea-based therapeutic cr me designed for patients with severe dry, cracked skin, providing the same results as seen with daily application of Foot Miracle.

Therapath Neuropathology is a specialized group of board certified neuropathologists that perform epidermal nerve fiber den-

sity testing for the podiatrists and their patients nationally.

Therapath focuses on five main test areas and services:

- Skin biopsy for epidermal nerve fiber density
- Skeletal muscle biopsy
- Peripheral nerve biopsy
- Neuro-storage disorders
- Brain and Spinal Cord Pathology

To diagnose small fiber neuropathy a 3mm skin biopsy will be evaluated for epidermal nerve fiber density. The samples are returned to Therapath, in either PLP or Zamboni fixative, via overnight service. There is no rinse step required. Testing results are available within 5-7 days.

Therapath is nationally contracted with Aetna, Blue Cross, Cigna, Humana, and United Healthcare to name several of the largest carriers. The company is a participating provider with Medicare, Medicaid, and several hundred smaller plans. Utilizing a network provider contract supports patients by assisting in reducing and managing applicable coinsurance or deductibles.

To order a sample kit and get started, please call (800) 681-4338 or email clientservices@therapath.com

The company continues to offer the Thera-Medic Shoe package—the most flexible, highest value shoe package for any foot-care condition. Also available, an AFO built into a Tru-Mold shoe, and the Advanced CROW

custom molded boot which enhances healing and off-loading of pressure to problem areas of the foot. Product catalog and technical information is available by calling 1-800-THE-MOLD.

Fax: (815) 455-4732
www.xcelxray.com

X-Cel X-Ray Corporation has expanded their line of easy-to-use podiatry x-ray machines. Models are available for film, CR and DR.

The newest easy-to-use feature is the patented Tilt-Head which eliminates the need to rotate the patient for the DP/AP view. This is cleverly accomplished by simply tilting the x-ray source.

No need to turn the patient or rotate the arm for AP views, and no need to readjust the collimator for lateral views (Model: FB-715 NT).

Wheelchair patients are accommodated easily without having to leave the wheelchair. This feature addresses the spirit of the ADA Tax Credit Form #8826, which must be approved by an accountant.

All x-ray units are made in Crystal Lake, Illinois with dedication to maintaining the X-Cel X-Ray performance standard, starting with the first units in 1950 for the Illinois College of Podiatric Medicine.
