

2020 BUYERS' GUIDE

If knowledge is power, then time is surely money. That's the idea behind the *Podiatry Management* Annual Buyers' Guide: to save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

PART I

This year's guide is divided into two parts. Part I lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special edition.

PART II

Part II, which starts on page 29, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and product name; thus, if you're looking for Amlactin under "Pharmaceuticals: Moisturizers," you can find this brand name even if you don't know that Sandoz is the manufacturer.

HOW TO USE THIS GUIDE

Another cross-referencing feature makes it easier for you to find related products. For example, if you're looking in the "Orthotics, Prefabricated" category, you will also find the cross-reference "See also: Insoles, Heel Supports, and Pads."

If you have an office manual, we recommend that you photocopy these pages and add them to your source lists. That way, the next time you run short of x-rays, for example, you can quickly locate a supplier. Incidentally, we encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support magazines such as this; and many, as well, contribute to podiatric student scholarships and research.

3D-THOTICS

1901 E. Linden Ave.,
Unit 23
Linden, NJ 07036
(908) 862-3121
www.3Dthotics.com
email: orthotics@outlook.com
3D-Thotics Orthotics Lab offers a full line of orthotics products and services for the nation's DPMs, from custom foot orthotics, AFO's, and braces to diabetic inserts and shoe lifts. Offering a 1-week turnaround, 3D will accept any type of casting—foam box impressions, plaster cast, fiber glass stockinette, or 3D scans—and provides free pick-up and delivery in NY and NJ, prepaid shipping labels nationwide, and a guarantee of 100% patient satisfaction. The lab also offers on-site podiatrist support.

Stated Lab director Tony Husacayna, CPed, "If a client needs input on a specific case we will definitely suggest the best option, or if someone on the doctor's staff needs training in how to cast, 3d scan, fit or fill out forms we are only too happy to help. Our mission is to make the orthotic right the first time and if any adjustments are needed we will make immediate corrections, no excuses."

Customizable functional pre-fabs are available at \$35.

www.2020imaging.net
Email: info@2020imaging.net
20/20 Imaging, a division of Konica Minolta, a leading provider of digital imaging solutions for podiatry for 20 years. 20/20's portfolio of DR panels and digital x-ray systems, along with our ultrasound solutions, use the latest technology for the best image quality. The new MOMENTUM-DR and iRAY 1012V Cesium panels provide the best 1-2 punch available.

Our extremely efficient high-frequency output x-ray unit with anatomical programming is designed to minimize dose and advance patient care. The x-ray unit, coupled with either DR detector, provides outstanding image quality.

20/20 Imaging Opal-Pod software offers secure image viewing, storage, manipulation, and EHR integration.

Additionally, 20/20 Imaging offers cutting edge ultrasound. Featuring exceptional image quality, ease of use, and unmatched training, the HS1 and MX1 have become the #1 choice for ultrasound in podiatry.

Learn about our advanced digital technology and reimbursement incentives with our experienced specialists today!

A STEP ABOVE HEALTH MANAGEMENT SYSTEMS

Rt. 72
Barnegat, NJ 08005
(877) 448-6233
www.astepabovehealth.com

A Step Above Health Management Systems is a podiatry-specialized medical billing company for out-source solutions. They offer comprehensive, personalized revenue cycle management solutions to maximize your practice's financial health, allowing you to focus on clinical care and managing your business. A Step Above provides medical billing management, including claims scrubbing, electronic and paper claim submission, payment posting, denial management, appeals, patient payment collections, and more. They also work the old accounts receivable that they inherit with a new client.

Nicole Arnold of A Step Above cites an example of their success as demonstrated by an Annapolis, Maryland client: "The client's former billing company was destroying the practice financially. Claims were not getting paid, there was no follow-up, and everyone pointed fingers at everyone else. Thousands of hard-earned dollars weren't being collected."

"Our company took over within a couple days of the initial phone call. Without any training on the client's practice management software, we learned the software quickly. We not only got the current claims paid, but we recovered close to \$200,000.00 of old accounts receivable. We take great pride in providing each client with the personal service and dedication they deserve. We fight for every dollar and don't give up. Let us partner with your practice. We can reduce your overhead costs, increase your revenue, and lower your accounts receivable. Most importantly, we will save you time!"

The AMIFAS educational mission is to advance the art and science of podiatric medicine by providing quality clinical learning experiences to members and non-members, and shall include a variety of instructional sessions aimed at significantly enhancing patient care, treatment protocols, and practice efficiency. The program may include interactive educational learning methods and principles utilizing lectures, panel discussions, point-counterpoint, case studies, question and answer, handouts, audio-visual materials (including media or narrations), hands-on workshops and roundtable discussions with moderators to achieve a well-rounded venue of postgraduate instruction. The academy is the oldest and most recognized source of minimally invasive surgical instruction in the world. Our 3-day lecture/cadaver seminars include hand-on instruction by the best and most experienced MIS surgeons in the world. Our next seminar will be held in New Orleans, October 11-13th. Please visit our web site (aafas.org) for further information about the seminar and the advantages of academy membership.

Our mission: To positively change the lives, practices and communities of podiatric physicians through

leadership education, practice management education and sharing knowledge.

The American Academy of Podiatric Practice Management (AAPPM) is podiatry's premier association dedicated exclusively to practice management education. Nearly 2,000 established practitioners, new practitioners, residents, podiatric assistants, executive office managers, staff members and students have learned that joining the Academy family can change their practice and change their lives.

For over 50 years, the American Academy of Podiatric Practice Management has positively impacted the lives of practitioners and their staff by integrating improved patient care with proven practice management strategies. Whether you are an established practitioner, new practitioner, multi-physician practice, or a doctor looking to retire, the AAPPM is here for you.

We invite you to join the AAPPM and find out firsthand how the positive sharing attitude of our leadership and members, our unique practice management meetings, mentoring programs and many other educational resources can help you change your practice and change your life.

Evanston, IL 60204
(248) 855-7740
Fax: (248) 855-7743
www.ables.org
Email: info@ables.me

Because board certification is widely accepted as the touchstone of physician quality, and is coveted by physicians for the professional esteem derived from this rigorous, intellectually invasive peer review process, it must never be gratuitously granted.

ABLES has established a fair and reliable process by which the sum of one's academic knowledge and that special wisdom borne of experience may be evaluated to show that he merits certification by this board via either of its two methods. ABLES has also implemented an unmatched, mandatory, periodic, performance-based recertification process by which those who are

Continued on page 4

certified by this board may demonstrate continued merit.

ABLES has set for itself the task of creating an interprofessional membership. ABLES already has MDs and DOs among its members. This will foster the exchange of information on scientific advances and evolving professional philosophies. It will facilitate the creation of a uniform standard of care for all professionals treating the lower extremity. It will help to obliterate senseless discrimination among academic degrees and organizational affiliations in the matter of professional privileging in hospitals and MCOs.

The American Board of Podiatric

Medicine (ABPM) offers a comprehensive board qualification and certification process in podiatric medicine and orthopedics. Podiatric Medicine and Orthopedics is the medical specialty concerned with the comprehensive and continuous foot health care of patients. It integrates the biological, biomechanical, rehabilitative, clinical and behavioral sciences and encompasses first contact care, continuous care, long term care and general medicine. Board certification provides the assurance to both the public and health professionals that the highest level of achievement has been attained in the specialty area.

ABPM's mission is to protect the health and welfare of the public through an ongoing process of evaluation and certification of the competence of podiatrists in the specialty of Podiatric Orthopedics and Primary Podiatric Medicine.

Email: johnortho@aol.com

Founded in 1939, Bergmann Orthotic Lab is dedicated to manufacturing successful outcomes for your orthotic patients. To accomplish this, we use the most advanced manufacturing techniques, combined with the highest quality orthotic materials and the latest biomechanics concepts. Our guiding concept is to maintain the unique biomechanics, size, shape, and contour of each foot. Dr. John Bergmann, who is an orthotic consult for many orthotic labs, professional sports teams,

and the automated orthotic consultant for Podiatry Management, is always available for orthotic consult. If you are looking for a new direction in your orthotic partnership please give us a call. You can contact Dr. Bergmann via Email: Johnortho@aol.com or call 800-323-8267.

Orthotics types-functional, full contact, and accommodative

Shell Materials-leather, plastazote, Eva, polypropylene, polyethylene, and graphite (very flexible, semi flexible, and rigid)

Casting Equipment-Bergmann Optical Scanner-first optical scanner to replace in office plaster casting for orthotics. The only neutral position scanner that takes the sides as well as the bottom of the foot in neutral suspension, semi-weight bearing and full weight bearing.

PADnet is podiatry's gold standard for vascular screening. More than just a device, PADnet is a PAD testing system with comprehensive customer service, including training, technical support, reimbursement guidance and clinical advice. In addition, the device is integrated with a cloud-based collaborative care platform that connects your practice with vascular specialists, backs up your diagnostics to the cloud, and enables HL7 connectivity with EMRs, including TRAKnet.
Ideal for any podiatrist that sees Medicare patients and diabetics,

this system has been verified to be reimbursable for CPT codes 93922, 93923, and 93924. In addition to improving the health of your bottom line, PADnet also improves patient outcomes with a test can that can be performed by a medical assistant and interpreted remotely by a specialist or directly in your office.

Given the lack of diagnosis or misdiagnosis of PAD represents a leading cause of medical malpractice for podiatrists, performing a PADnet test prior to performing surgery on a patient is one of the best ways to reduce your risk profile while optimizing your practice operations.

In addition to being reimbursable with appropriate primary indications, screening patients for PAD can assist with the proper documentation of Section 2f of the required conditions to dispense diabetic footwear.

Visit us at Biomedix.com/cdfe to discover more about how we can assist you in implementing your comprehensive diabetic foot exam protocols.

"We Want You!"—an open letter to the podiatry profession from Dr. Jill and Jay at Dr. Jill's Foot Pads:

We would like to thank the more-than-12,000 podiatrists who have given us a chance over the last 18 years. And for those of you who have been thinking about us but not yet been purchasing your padding supplies from us we ask you to give us an opportunity to show you how good we are.

There has never been a better time to start working with us if you are not already. With reimbursements going down we can easily help you put additional dollars in your bank account by dispensing pads to your patients who buy pads anyway!

We will also SAVE you money on all of your padding supplies and keep your money where it belongs: with you!

We specialize in Felts, Foams, Moleskin, Gels, Cork, Rubber Cork, PPT, Poron, Pre-Fab Orthotics, Semi-Custom Orthotics and more. No company in the nation has a larger selection of padding supplies. With over 5000 different padding selections we are sure we have what you need and if we don't have it we can make it in the USA!

1) Easy ordering via Toll FREE Phone, Toll FREE Fax, E-Mail, On-Line Medical Professional Store, Live Chat or just give us a call and we would love to help! Ordering has never been easier 24 hours per day. We can even set up a DROP SHIP program directly to your patients.

2) The largest selection of padding supplies. MADE IN THE USA

3) The lowest guaranteed prices.

4) The highest quality raw materials.

5) No minimums.

6) Free shipping on ONLY \$80.00 orders.

7) The knowledge to get you what you need when you need it!

www.dpm-aire.com
DPM-Aire offers the New-Aire line

of air purifiers direct to podiatrists. These air purifiers are designed to remove the most dangerous health-threatening sub-micron-size nail dust particles and bio-aerosols from the treatment room and podiatric office environment.

These air purifiers take over where point-source nail dust vacuums and dust masks fail. Published studies show that these vacuums still allow from 8 to 75% of nail dust to escape into the treatment room air for doctors, staff and patients to breathe. These studies also show that podiatrists suffer significantly higher rates of respiratory diseases. The most recent studies have linked the smallest of these particles to sudden MI's. Podiatrists who care about themselves, their families and staff place New-Aire units in all treatment rooms.

DRYMAX TECHNOLOGIES

PO Box 2300
Paso Robles, CA 93447

(844) 239-2555

www.drymaxsports.com

It's well known that cotton socks absorb sweat and hold it against the skin, creating an ideal environment for fungal growth. What is less understood: polyester, nylon and acrylic wicking fiber socks are only somewhat better than cotton, as even with their use, fungal infection & recurrence rates remain high.

The same holds true for the toenails. Since toenails do not perspire, they should be dry, but it's the wicking fibers that transport sweat from the skin to the toenails, keeping the toenails wet, creating the damp environment needed for nail fungi to flourish.

drymax socks, however, utilize two different fiber technologies interwoven to form inner & outer layers. Moisture doesn't stick to the inner layer of drymax fibers, because they're Super Hydrophobic. drymax fibers mechanically lift sweat off the skin like a squeegee, transferring it to the moisture-attracting outer layer.

Independent lab tests confirm drymax socks remain up to 25 times drier than wicking fiber socks. That's why many of the world's top ultra-runners wear drymax socks in competition to stay blister-free.

ENERGIA MEDICAL (div of HealthLight)

920 E. State Pkwy, Unit B
Schaumburg, IL 60173
(833-429-4040)
www.energiamedical.com

HealthLight has been manufacturing photo-modulated (pulsed, light emitting diode) devices (also known as low-level light therapy (LLLT) devices) for over 15 years and is considered a leader in the field. The infrared and visible red LEDs are the heart of the HealthLight Therapy systems, providing gentle but powerful non-coherent light.

These devices are FDA-listed to provide pain relief and circulation improvement. Light therapy is becoming a more common treatment due to the dramatic, positive results so many patients and professionals are seeing.

HealthLight sells an Express Line and a Clinical Therapy Line for healthcare professionals. Our Express therapy products provide clinical performance cleared for over the counter and consumer use. Our Clinical therapy products allow for up to 6 pads to be plugged in simultaneously and allows the provider to pick among 10 different programs.

Our LED light therapy medical devices are FDA listed and safe to use. They are manufactured at a U.S. facility that is ISO certified—ISO is an international set of standards used to regulate the production of products like ours.

Sammy Systems (also known as ICS Software, Ltd.) has been serving the podiatry community for almost 35 years.

Their software and services allow podiatrists to successfully run their practices. The robust and comprehensive product suite includes a full-featured practice management and electronic health record system that makes it easy for podiatrists to schedule, manage and bill patients easily.

SammyEHR has built in MIPS tracking and support to allow doctors to follow their normal care while the software takes care of all the MIPS administrative work. Sammy Systems allows podiatrists to focus on their patients and not worry about the regulatory burdens. Their reputation and customer retention are the result of their constant enhancements and the best customer support in the industry.

Sammy cloud allows customers to use the SammyEHR in a cloud environment improving the security while allowing access from any browser. The cloud solutions reduce customers hardware needs and improves monitoring and service to their customers.

Sammy Systems' suite of services include www.Checkmedicare.com, www.CheckEligibilityNow.com (eligibility verification for 500+ insurance companies), www.MedXpressclaims.com (claims processor and network service vendor for Medicare and other carriers throughout the country).

Exciting news: IOL3D Scanner app paired with the Structure Sensor scanner and your iPad have the ability to scan patients for the Arizona Brace. With one of the largest footwear selections, highest quality orthotics and value added solutions—IO Lab is the clear choice for today's practitioner.

Each custom orthotic is handmade in the USA and inspected during every stage of the manufacturing process. It's not just the IO Lab technologies that make a superior product; it's the commitment each team member puts into the final product. That's what sets Inte-

Continued on page 15

This Buyers' Guide is also available at
www.podiatrym.com/Buyers_guide.cfm

grated Orthotic Lab apart.

The IOL3DScanner app is now available on iTunes. The app was developed with a number of enhancements to improve turnaround times and provide accurate, true 3D data. Practitioners save 100% of the costs associated with time, casting supplies and shipping costs.

Our app's benefits:

- Portable
- No Mess
- Easy-to-use solution: scan the patients feet, complete order form and send.

A quality vendor relationship is only possible through unparalleled service. Think of IO Lab as an extension of your business. We are your outside orthotic specialists. This means that alongside our commitment to delivering a quality product, you're also getting the kind of service you'd expect from one of your own employees.

KLM Laboratories manufactures foot orthotics and ankle foot orthotics with an emphasis on quality and service. We fabricate custom orthotics and produce prefabricated products that are used in medical and retail locations worldwide. KLM is leading the way adopting the newest technological advances in orthotic manufacturing by applying the use of 3D Laser Imaging and routers. Our lab experts demonstrate exceptional skill in processing scanned images as well as traditional plaster casts utilized by foot care professionals. We continue to establish new standards in the foot orthotic industry by offering to place private labels on custom or over the counter devices. KLM demonstrates how applying innovation and creativity to orthotic technology can stimulate the foot orthotic industry. Join the experts at KLM and we could be the secret to your success.

A member of OHI's growing family of companies focused on treating conditions and diseases of the lower extremities, Langer Biomechanics has been a leading provider of lower extremity care solutions to healthcare professionals for more than forty years. Founded in 1969, Langer is the preeminent fabricator of superior-quality, custom foot orthotics. The company also distributes PPT, a proprietary, soft-tissue supplement for cushioning, durability and shock absorption; and other DME products.

Langer is renowned for its focus on product and technological innovation. The company's ScanCast 3D represents the leading edge in foot scanning technologies. Langer's first priority is in partnering with its healthcare providers around the common goal of achieving optimal patient outcomes. The company's corporate philosophy is deeply rooted in perpetual innovation, industry-leading product quality as well as its highly-regarded and progressive educational support.

The company's enduring success and industry leadership is rooted in the recognition that the practi-

tioner/laboratory relationship is a true partnership. Practitioners invite Langer to engage in the treatment of their patients. That uncommon trust and confidence is deeply valued by every Langer employee and the constant reinforcement of that relationship is the company's highest priority.

MCCLAIN LAB

(631)-361-4000
www.mcclainlab.com
"We Find Fungus"

McClain Laboratories is a physician-owned-and-operated podiatric pathology and anatomic laboratory serving the USA from Smithtown, NY. Our full-service laboratory provides 24 to 48-hour turnaround on studies of all types of pathology including dermatopathology, nail fungus, wounds, ulcers, cancers, warts, digital mucous cysts, bunions, hammertoes, small nerve fibers, and gout.

McClain Laboratories uses proprietary methods to identify fungal infections, making false negatives a thing of the past.

McClain Laboratories specializes in histopathologic evaluation of tissue biopsies, with an expertise in skin, nail, and foot pathology. From specimen pickup to diagnosis, McClain clients are served by our friendly and professional staff dedicated to superior customer care.

McClain Laboratories' Medical Director, Dr. Steve A. McClain—a nationally recognized dermatopathologist and lecturer—supports the profession of podiatry by sponsoring educational programs and donations to the colleges of podiatry and local podiatry society chapters.

McClain Laboratories Features

- Same-Day and STAT Courier Service
- FedEx Express Pickup
- 24 to 48 Hour Turnaround
- Reports with color images, diagnosis, and ICD-10 coding

McClain Laboratories Services

- Dermatopathology of the foot and leg
- Dermatoscopic evaluation of specimens
- Fungal nail evaluation
- 2nd Opinions to R/O False Negatives
- One Step ENDTM nerve fiber density test (formalin only—no mixing)
- Foreign body identification
- Accurate detection and identification of microorganisms
- Analysis of delayed wound healing

- Direct immunofluorescence testing
- A wide array of immunohistochemistry techniques

MD BUYING GROUP

(888) 863-5303
https://mdbuyinggroup.com

Founded in 2005, MD Buying Group is a medical purchasing group begun by physicians to increase the buying power for all physicians. Founder Joel Lerner, DPM, understood that the savings advantage of buying medical supplies as a group resulted in great purchasing power. MD Buying Group allows physicians to purchase all medical and non-medical supplies at a price far less than any single office is able, in an easy-to-use and secure online shopping experience. Since 2005 MD Buying Group has grown to over 4000 members and has introduced their own brand to bring costs even lower for their members. The group has exclusive partnerships with multiple companies, including HealthyStep orthotics, allowing members to buy any product for as much as 50% less than typical catalog pricing. Members also enjoy additional savings on overstock items, weekly specials and daily deals. There are no membership fees, so join over 4000 doctors for amazing savings.

MEDICOOL

20460 Gramercy Pl.
Torrance, CA 90501
(800) 433-2469
www.Medicool.net

Medicool, a leading manufacturer of debriding drills to the podiatry community, offers solutions for every type of practice.

Medicool believes that the hazard of breathing airborne particles generated from the debridement of fungus toenails is something that should not be taken lightly. Many DPMs and their assistants have breathing issues as a result of years of debridement procedures. Many have now alleviated their breathing troubles by using a Medicool Vacuum Drill.

If you, your staff and your patients are being exposed to potential health issues related to airborne debris during debridement procedures, Medicool offers a solution.

The Pro Vac™ and The File Stream™ Debriding Drills with built-in vacuum offer powerful motors and a high suction power to collect all those harmful dust particles.

For those doctors looking for portability, the Pro Power 20K cordless rechargeable drill offers the versatility and freedom to move between patient rooms or to travel to nursing homes. It is a high-torque 30,000 rpm powerful machine and is indicated particularly for those with outpatient visits or multiple patient rooms.

Medicool also offers a large selection of carbide & diamond burrs in over 20 different styles.

MISSISSIPPI PODIATRIC MEDICAL ASSOCIATION

www.mspma.net

The Mississippi Podiatric Medical Association announces its 2020 Diabetes Symposium April 3-5 at the IP Casino Resort Spa in the beautiful City of Biloxi on the Gulf Coast of Mississippi.

The Mississippi Podiatric Medical Association conducts one of the finest annual podiatric meetings in the South. This symposium is no different and will feature renowned keynote speaker, David G. Armstrong, DPM, MD, PhD. Recognized as a world leader in diabetic foot care, Dr. Armstrong is the Professor of Surgery at the University of Southern California and was elected into the Podiatry Management Hall of Fame. Other speakers include Adam Isaac, DPM, Jeffrey D. Lehrman, DPM, FASPS, MAPWCA, CPC, William Harris, IV, DPM of Car-

Continued on page 19

olina Podiatry Group, and many more on both the national and local levels. The symposium will offer a maximum of 20 continuing medical education hours (2.5 pharmacology hours) including topics such as diabetic wound care, routine care, peripheral vascular disease, ABI diagnostics, and so much more.

NATURE FIT/TRI-HAWK

150 Highland Rd
Massena, NY 13662
(800) 874-4295

Nature-Fit orthotics mimic the ideal profile of the foot (unlike custom orthotics) both at rest and in motion. Our proprietary, injection-molded, polymer design allows our orthotics to change shape the way the foot changes shape, allowing the arch to move downward appropriately (unlike rigid insoles) while preventing flattening (unlike soft insoles).

A naturally optimal fit for your patients...and you! Benefits to the patient include: a thin design allows them to fit in existing shoes, strong material prevents throwing away an orthotic that does not last or does not work, and Nature-Fits are odor-free, anti-slip, easy-to-clean and durable. Benefits to YOU include; No need to create custom orthotics, two types with seven sizes each to fit your patient base, allows you to offer your patients the most effective orthotic solution available.

www.nolaro24.com

RX24 Quadrastep system is an innovative and tailored approach to treating various foot types. The system uses a patented clinical algorithm that identifies and categorizes a patient's feet into one of 24

foot-types. A patient's foot-type will influence not only their gait but also the conditions and pathologies that afflict them throughout their lives.

The RX24 Quadrastep system takes the concept a step further and simplifies the 24 foot-type medical model into six sub-classifications known as quads that groups together four similar foot types. Each quad has its own very specific foot and gait characteristics. These foot types include severe pes cavus, mild pes planus, neutral, moderate pes planus, abductor varus forefoot and severe planovalgus feet. These six quad specific functional orthoses are biomechanically tailored to that of a true custom prescription. To provide superior patient education, a quad-specific information card is included with each pair that features possible clinical symptoms, key foot attributes, gait characteristics and more.

The RX Quadrastep system is easy to learn and can be quickly applied in a clinical setting. It also eliminates the need for costly and messy foot impressions. The devices can be stocked in-house ready for immediate fitting.

Nolaro's newest innovation is littleSTEPS, pre-fabricated foot orthoses specifically designed for kids. They deliver prescription-based correction closely matching the criteria of traditional UCBL devices. littleSTEPS provide an affordable alternative to custom orthoses, enabling early intervention and treatment of many musculoskeletal conditions common to children.

Ortho-Dynamics Custom Orthotics Lab has been in business (25+) years.

Ortho-Dynamics manufactures all the custom orthotics and braces we sell.

We use only the highest quality medical grade materials in the fabrications, which results in the highest quality level in our industry today.

Ortho-Dynamics offer flat rate prices, which includes all orthotic modifications.

Our custom sport orthotic includes (12) styles, and is engineered to address the biomechanics of a wide range of sport activities.

All of our custom orthotics are available in 2mm, 3mm, 4mm or 5mm shells to address a wide range of patients weight and activity levels.

Ortho-Dynamics works closely with our clients to provide personalized custom service, technical support, and assistance in product selection.

We look forward to working with you.

Pedifix is a 5th generation family business since 1885, respected for supporting the profession, and its unique, top-quality assortment of 256 proven medical foot treatment products doctors and patients both love.

New products include SoreSpot® Silicone Tape, Hammer ToeCrutch®, B2Splint™, Customizables™—the first footcare devices you personalize for each patient, Spring Plates for turf-toe, hallux limitus, rigidus, more, FungaSoap® CBD Relief Formula, Moleskin Toe Separators, AdjustaLoop Gel Toe Crest, heavy-duty, colored Toe Caps, KinezeFeet™ Elastic Tape, others.

44 industry-leading Visco-Gel® ortho-digital devices, 26 dermatology solutions, post-op splints, compression therapies, Preforms® orthotics, PediPlast®, ShoeZap® help treat dozens of conditions and patients successfully.

Dispense, Prescribe, Patient Direct Order—whatever your practice

setting, it's easy for patients to get PediFix products you recommend. For convenience and best outcomes, dispense favorites from your practice. Choose traditional medical, 'bulk' multi-packs, or newer, OTC packaging and in-office displays that boost practice profits.

For next-best compliance, refer patients to our nationwide network of locally owned independent pharmacies (not chain stores) for purchase immediately after appointments. Or, enable patient direct-ordering via printed Brochures, 1-800-PEDIFIX, updated www.pedifix.com (not Amazon—way too many counterfeits). Use all 3 methods depending on the product needed.

For a 2020 PediFix catalog (24 new products!), Free Sample BRC, Patient Brochures, stocking distributors, retailers near you or more information, P) 1-800-424-5561, F) 1-800-431-7801, E) info@pedifix.com.

Pilgrim Shoes are distinguished by their comfortable fit, the result of using German engineered lasts with anatomically shaped contoured bottom and heel cup for better accommodation of foot deformities. In order to provide more elasticity in the forefoot area Pilgrim Shoes has implemented genuine stretchable leather inserts in some styles; the leather's breathability helps to maintain a healthy in-shoe climate.

Pilgrim Shoes offers a huge variety of fashionable and functional styles (100-plus), some of which are available up to size 15 Men's and 12 Ladies, and up to www and 6E. The Areni One line by Pilgrim is made

via environmentally friendly manufacturing methods in Baltimore by American craftsmen. All styles are PDAC-reviewed as A5500. Attractive sample shoe displays are available, and doctors may phone in orders or submit online or by FAX. Same day shipping, free returns, and very competitive pricing.

New from Pilgrim Shoes is their line of custom-made diabetic insoles—the DPM can now use Pilgrim's 3D scanner attached to his/her iPad to scan the patient's feet. Pilgrim will create the insole via fast turnaround.

PRESENT e-Learning Systems has been a leading podiatric company since 1995, providing a suite of education products which enhance the professional development of podiatrists. PRESENT Podiatric Residency Education Online, currently in its 17th year, has become the standard lecture curriculum at podiatric residency programs across the country. PRESENT is podiatry's largest provider of online CME programming, offering over 300 current CME lectures in all topics of interest to podiatrists. PRESENT Board Review Online offers Good, Better and Best packages to meet the needs of all podiatrists prepared for board exams. PRESENT Podiatry was among the first companies to combine online CME education and social networking online in medicine. From one website, <http://podiatry.com>, all PRESENT Podiatry services are now available to the profession in one integrated, simple-to-use service.

QUICK TAPE by Support the Foot

(253) 981-4849
Fax: (253) 322-5497
www.SupportTheFoot.com
Email: info@SupportTheFoot.com

The USA made QUICK TAPE® foot support strap is a 1-piece, pre-shaped, peel and stick foot tape made of hypoallergenic, latex-free, medical grade skin adhesive and special non-stretch fabric. Developed specifically to help those suffering from plantar fasciitis, QUICK TAPE support straps are also a safe and effective method for managing pain resulting from a wide range of lower extremity ailments, including heel pain, arch pain, arthritis, achilles tendonitis, bunion pain, neuroma

pain, shin splints, sprained ankles, lisfranc injuries and much more.

In comparative studies, **QUICK TAPE® was shown to relieve foot pain as well as Low Dye taping, with patients preferring the ease, comfort, and convenience of QUICK TAPE® over Low Dye.** Additional clinically proven benefits include:

- Biomechanically altering dynamic plantar loading
- Significantly greater arch height index
- Arch and biomechanical support
- Foot stabilization

Taping both feet takes less than two minutes total with the pre-cut, one-piece straps—no scissors, pads, prep work or extra adhesives are needed, saving both patients and physicians time and money. Patients can wear the QUICK TAPE foot strap **in the shower**, overnight, and during workouts for **up to 7 days.**

Utilized in podiatry clinics around the world, our physician clients say

their only regret was not incorporating QUICK TAPE into their practice sooner.

Reign Medical's innovative Clench® system is designed to provide fixation for fusions and osteotomies in

Continued on page 24

the foot. It utilizes a unique, built-in ratcheting hub that allows the surgeon to generate, incrementally increase, and retain mechanical compression. The Ratcheting Compression Plate integrates a plate span, cannulated and threaded legs, and a ratcheting hub into a stand-alone implant. Clench® is a fully disposable sterile fixation system for orthopedic and podiatric surgeons used with hand and foot bone fragments, osteotomy fixation and joint arthrodesis. The use of Nitinol, a shape memory alloy, allows Clench® to provide continuous and active bi-cortical compression throughout the healing process.

The Clench® system is packaged sterile with fully disposable instrumentation, reducing facility costs and time associated with pre and post-operative set management. Reign's portfolio of staple sizes range from 7x5mm to 20x20mm to accommodate a wide range of needs and procedures.

Fax (562) 596-3157
www.richiebrace.com

Celebrating its 24th year of success in the podiatric community, the Richie Brace® and its family of products continue to be the premium brand in lower extremity bracing. Often imitated but never duplicated, the original Richie Brace® is the preferred intervention for posterior tibi-

al tendon dysfunction (PTTD) allowing full ankle range of motion with minimal disruption of shoe fit. Other Richie Brace® products provide effective treatment of dropfoot, tendinopathy and arthritic conditions. All of these products are delivered to the podiatric physician by a team of lab distributors who can provide unmatched clinical consultation and technical services for both AFO and custom foot orthotic therapy.

The new Richie AeroSpring Brace Systems offers an attractive alternative to cumbersome walking boots, which are commonly prescribed for lower extremity injuries.

The Richie Brace® is the first podiatric AFO which can be fabricated from a digital scan using an iPad Structure Scanner. Turnaround time is now cut in half compared to traditional casting techniques.

The Richie Brace® is available from the following authorized distributors who can provide instructions for scanning, casting, coding, and reimbursement guidelines:

SMART ABI

(877) 275-8760
www.smartABI.com

The Smart-ABI is the fastest, most reliable early detection device on the market. We take systolic and diastolic pressure of both arms, both legs, and both arteries simultaneously.

Smart ABI uses pulse volume recordings (PVR) to rapidly assess ankle brachial index (ABI) using volume plethysmography. We created a system that is reproducible, and correlates 98% to Doppler. It's so easy to use an MA can do the test at intake.

Its intended purpose is as a rapid screening device for everyone at risk for peripheral arterial disease (PAD).

It comes with a patient-friendly report to help change patient behavior for long-term medical management (value-based care) of the disease.

We recently added the ability to test toe pressure and we graphically display actual blood flow for both arteries and the toes.

www.thetetracorp.com

The Tetra Corporation has been and remains the leader in tolnaftate technology for 30 years. Tetra developed and patented Soluble Tolnaftate in 1989. Today Tetra provides innovative and clinically proven doctor dispensed topical treatments, skin conditioners and dietary supplements with a guarantee that supports the practice of podiatric medicine. Tetra's brands include Formula 7[®], Formula 3[®], FungiFoam[®], CleanSweep[®], Kamea[®] 20, Kamea C[®], and CoLig-10[™]. When you call Tetra a real person answers to give the medical practitioner the best service possible with a "one call resolution" policy.

Formula 7[®], our most recent innovation, is the only paraben-free Soluble Tolnaftate antifungal microemulsion fortified with cosmetic ingredients and bactericidal agents. The oil phase is comprised of jojoba oil with Soluble Tolnaftate and tea

tree oil to fortify the microemulsion with antifungal, antiseptic, germicidal and anti-bacterial properties. The water phase contains N-acetyl-L-cysteine (NAC) and urea: urea to hydrate, soften, and open keratin for better drug penetration; NAC to increase the flux of tolnaftate through the keratin to the site of involvement and provide bactericidal properties.

Tetra is a proud supporter of podiatric medicine and is a frequent exhibitor at conferences nation-wide. Call Tetra today at 800-826-0479 and you will be impressed.

TOPICAL BIOMEDICS (Topricin)

(800) 959-1007
www.topricin.com

Topical pain relief creams often present a difficult conundrum for podiatrists and other healthcare professionals. First, many of these products contain irritants such as menthol and camphor. While these ingredients can momentarily block pain receptors, creating the illusion of relief, none of them provide any authentic type of healing. So the question becomes: do I recommend a product that provides temporary relief, or are there better options?

"Topricin," says Topical Biomedics CEO Stephen J. Spiegel, "is the better option." Topical BioMedics, the makers of Topricin, has been innovating natural pain relief products for 25 years, helping patients to actually improve, if not eliminate, their symptoms. Their products—including patented Topricin Foot Pain Relief Cream—are unique in the market. Using a combination of botanical and biologic active ingredients, Topricin works differently to help reduce the underlying cause of pain—inflammation. According to Spiegel, "the product's unique mechanism of action is now thought to include ion-channel effects, cellular signaling, and vascular tone. Think of Topricin as safe, natural medicine unlike any other product on the market today." Added Andy Kadison, Topricin's CMO, "patients have experienced improvement for symptoms associated with neuropathy, plantar fasciitis, bunions, tendonitis, and gout—along with everyday wear and tear."

As Stanley B. from Miami writes, "I use Topricin for my neuropathy. Nothing offers me relief like this product." Topricin is odor-free, hypoallergenic and proven safe, with millions of customers served. To order free samples and learn how Topricin can fit into your daily practice, please call Karina Foster at (800) 959-1007 ext. 1116, or send an email to karina@topicalbiomedics.com. Information can also be found at their website, Topricin.com.

Email: samples@wisecpc.com
Frankincense & Myrrh Neuropathy delivers fast temporary topical pain relief from burning, shooting, prickling, tingling pain and numbness caused by neuropathy, guaranteed.

In fact, it has helped so many that Wise Consumer Products guarantees pain relief or they'll issue a refund, no questions asked.

Frankincense & Myrrh Neuropathy is a non-prescription, no-side-effects option for neuropathy pain relief. Without the side effects that accompany many pain relief solutions, patients return to a more active lifestyle.

The rubbing oil formula provides optimal transdermal delivery, allowing quick penetration to calm throbbing nerve endings and ease pain. It's a safe, non-drowsy plant extract formula that blends homeopathic ingredients in a base of sunflower oil and 10 essential oils.

Find Frankincense & Myrrh Neuropathy in the diabetic care aisle at Walgreens, CVS, Walmart, Meijer, Sprouts and online at Amazon.com. Visit frankincensemorrh.com to download a \$3.00 off product coupon and to learn more about Wise Consumer Products.

Get a Free box of product samples to give your patients. Email samples@wisecpc.com and we'll mail you a free box of samples. Be sure to include name and shipping address in your email.
