

## Pedicis: Bringing Unique Pharmaceutical Products to Podiatry

By Larry Stoll  
Chief Marketing Officer  
Pedicis Research LLC  
lstoll@pedicis.com

Pedicis Research ([www.pedicis.com](http://www.pedicis.com)) is a new company that focuses on bringing unique pharmaceutical products to the practice of podiatry and dermatology. We specialize in formulation development and solutions that are novel and uniquely suited for treating the various diseases seen by podiatrists. Our products are developed in conjunction with practicing physicians and have clinical data that support their safety and effectiveness. We are science-oriented and believe the best approach is to prove clinically that our products work.

Our products are distributed exclusively through podiatrists and dermatologists and come with a money-back guarantee.

**CIDACIN is a unique antifungal solution that uses DMSO and other excipients to deliver tolnaftate to the site of infection.**

### **CIDACIN<sup>™</sup> Antifungal Solution**

CIDACIN is a unique anti-fungal solution that uses DMSO and other excipients to deliver tolnaftate to the site of infection. DMSO has extensive literature supporting its use as an excellent delivery vehicle for transportation of drugs through biological matrices such as skin and nails. Recently voted by Podiatry Today as a Top 10 Innovation.

**Efficacy:** 85% effective at eradicating fungal species.

**PEDICIN significantly increased blood flow in diabetic feet.**

**What makes VIRCIN unique is that it is the only wart remover product that utilizes an anti-viral and an immuno-modulator and it has been shown to work on resistant warts.**

### **VIRCIN<sup>®</sup> Advanced Wart Treatment**

VIRCIN is a wart medication that employs an immuno-modulator along with salicylic acid and an anti-viral to provide a one-two-three punch in combating plantar warts. What makes VIRCIN unique is that it is the only product that contains both an antiviral and an immuno-modulator. The antiviral kills the HPV virus and the immuno-modulator triggers an immune response to clear the virus and prevent recurrence.

**Efficacy:** In a clinical study VIRCIN cleared plantar warts in 88% of patients.

### **PEDICIN<sup>™</sup> Diabetic Foot Cream**

PEDICIN is a foot cream specially designed for diabetics. PEDICIN delivers L-Arginine, an amino acid, to diabetic feet through a specially designed cream.

**Efficacy:** Clinical studies have shown that PEDICIN significantly increases blood flow and also increases the temperature of the foot up to 8 degrees Fahrenheit. This effect dramatically improves foot health and helps to reduce neuropathy and other ailments associated with diabetic foot disease.

**Coming soon:** REGENERIN, a novel wound healing agent that employs allantoin, zinc and granulating agents to heal wounds quickly and effectively.
