

Talar Medical and Nolaro24 Present THE Podiatric Master Class 2018

By Ira Kraus, DPM

Talar Medical and Nolaro24, LLC are proud to offer a revolutionary, one-of-a-kind seminar on Dec 7-8, 2018 at the Hyatt Regency Dallas FW International airport: a master class covering the treatment and implementation of multiple aspects of a podiatric-based practice. A convenient two-day course located in a major airport hub hotel, master lectures include: bio-mechanics, orthotics, pediatrics, wound care, surgery,

It is Talar Medical's vision to provide the scaffolding to elevate our industry to new heights.

heel pain, OTC implementation, trauma, sports medicine, and more! We have aligned top speakers from around the country to teach everything from science and treatment protocols to practice management. All aspects of podiatric medicine will be covered. Unencumbered by CME regulations, we will be educating you on how to use the actual products. It will be unlike anything you have ever attended. Participants will leave knowing exactly what to do and how to do it ALL!

The Talar Medical network encompasses the best and brightest podiatric practitioners in the nation, and this is an opportunity to get together and share knowledge. It is Talar Medical's vision to provide the scaffolding to elevate our industry to new heights. Education is the cornerstone of our mission and while most seminars teach you only didactics, we will teach you treatment protocols, best buying practices, cutting edge science and technology and how to implement them so that you can effectively grow your practice. While our focus will be on education, several of our Talar vendors have offered to be on hand, so that you can touch, see and feel their products and learn how to use them and implement them into practice, on-site.

Nolaro24 shares the Talar vision of elevating the podiatric profession through hands-on education and has hosted several other master classes centered on providing

practitioners the real-world education they need to succeed.

If you are a practitioner and want to learn the how-to's of practice, this is the perfect seminar for you. You will leave energized and ready to succeed!

The content of this seminar will include both lectures and hands-on workshops that will cover the A-to-Z's of running a successful practice, including,

but not limited to:

- How to properly document, educate, and bill for services rendered
- Implementing proven practice management techniques to market and expand your cash-based office programs such as orthotics and DME
- How to successfully apply actual products to treatment protocols
- Mastering protocols in wound care, surgery, heel pain, OTC products, trauma, sports medicine, equinus, and risk management
- How to properly examine and treat most conditions we see via conservative and surgical treatments

- Mastering orthotics and biomechanics using foot typing with hands-on training

- Mastering treatment protocols for the pediatric patient

This seminar is both inexpensive and accessible for practitioners and staff and offers 13+ hours of content.

The Hyatt Regency Dallas Fort Worth International Airport is right at the airport so no shuttles or taxis—just get off the plane and walk right
