

# 2021 BUYERS' GUIDE

If knowledge is power, then time is surely money. That's the idea behind the *Podiatry Management* Annual Buyers' Guide: to save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

## PART I

This year's guide is divided into two parts. Part I lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special edition.

## PART II

Part II, which starts on page 27, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and product name; thus, if you're looking for Amlactin under "Pharmaceuticals: Moisturizers," you can find this brand name even if you don't know that Sandoz is the manufacturer.

## HOW TO USE THIS GUIDE

Another cross-referencing feature makes it easier for you to find related products. For example, if you're looking in the "Orthotics, Prefabricated" category, you will also find the cross-reference "See also: Insoles, Heel Supports, and Pads."

If you have an office manual, we recommend that you photocopy these pages and add them to your source lists. That way, the next time you run short of x-rays, for example, you can quickly locate a supplier. Incidentally, we encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support magazines such as this; and many, as well, contribute to podiatric student scholarships and research.

www.2020imaging.net  
Email: info@2020imaging.net

20/20 Imaging, a division of Konica Minolta, is the recognized leader in providing digital imaging solutions to podiatry healthcare providers for 20 years. 20/20's portfolio of DR panels and digital x-ray systems, along with our ultrasound solutions, use the latest technology to achieve the best image quality. Our MOMENTUM-DR and Universal DR 10x12 Cesium detectors and REALISM™ image processing algorithm provide the best 1-2 punch available in the industry.

Our extremely efficient PXS710 high-frequency output x-ray unit with anatomical programming is designed to minimize dose and advance patient care. The x-ray unit, coupled with either DR detector, provides outstanding image quality.

20/20 Imaging Opal-Pod software offers secure image viewing, storage, manipulation, and EHR integration.

Additionally, 20/20 Imaging offers cutting edge ultrasound. Fea-

turing exceptional image quality, Simple Needle Visualization to improve needle visibility, ease of use, and unmatched training with 5-year warranty, the HS2 and MX1 have become the #1 choice for ultrasound in podiatry.

Learn about our advanced digital technology and reimbursement incentives with our experienced specialists today!

www.OptOutBook.com

Here is your opportunity to grab a **FREE copy of the book, "OPT-OUT: How To Take Back Financial Control of Your Practice Without The Hassles of Insurance Companies"**, written by TJ Ahn, DPM. Dr Ahn currently runs his hybrid-concierge podiatry practice in Chicagoland, and also offers consulting to other podiatrists on how to get more patients, increase revenues and multiply their profits.

He speaks regularly at live events and conferences, and has hosted International MIFAS Cadaver Lab Workshops in Chicago for 3 years in a row. Dr. Ahn has helped many podiatrists learn and implement minimally invasive foot surgery, marketing, and

ethical persuasion to build successful hybrid-concierge model practices.

This book, "OPT-OUT" documents his journey to "opt-out" of insurance networks in favor of a more profitable and more sustainable model for success in the modern era of private practice. All you need to do is cover the shipping cost, and you will receive a FREE book plus bonus masterclasses (valued at over \$500).

## ALTERNATIVE Rx CBD (ARX)

www.alternativerxcbd.com  
email: drsteve@arxhealthllc.com

**Alternative Rx CBD** products are customized formulations that provide the power of hemp. Their time-tested herbal formulation, extracted via traditional methods, has been chosen for healing and natural analgesic properties to create a well-rounded product that is greater than the sum of its parts.

Alternative Rx CBD ingredients have been thoroughly vetted and selected specifically for use by a master herbologist and a physician. These products use phytocannabinoids, which are derived out of the hemp flower and stalk from hemp plants grown only in the USA.

Alternative Rx CBD topical Joint and Muscle CBD Creams and Roll-On gel also include 12 other all-natural homeopathic elements. These proprietary products have been shown to be efficacious and safe, and a natural alternative to potentially harmful prescription and OTC drugs. The firm takes pride in their customers actually improving their quality of life safely.

All products are tested by third party labs to ensure quality and potency. Good Manufacturing Practices (GMP) compliant.

Our mission: To positively change the lives, practices and communities of podiatric physicians through leadership education, practice management education and sharing knowledge.

The American Academy of Podiatric Practice Management (AAPPM) is podiatry's premier association ded-

icated exclusively to practice management education. Nearly 2,000 established practitioners, new practitioners, residents, podiatric assistants, executive office managers, staff members and students have learned that joining the Academy family can change their practice and change their lives.

For over 50 years, the American Academy of Podiatric Practice Management has positively impacted the lives of practitioners and their staff by integrating improved patient care with proven practice management strategies. Whether you are an established practitioner, new practitioner, multi-physician practice, or a doctor looking to retire, the AAPPM is here for you.

We invite you to join the AAPPM and find out firsthand how the positive sharing attitude of our leadership and members, our unique practice management meetings, mentoring programs and many other educational resources can help you change your practice and change your life.

The American Board of Podiatric Medicine (ABPM) offers a comprehensive board qualification and certification process in podiatric medicine and orthopedics. Podiatric Medicine and Orthopedics is the medical specialty concerned with

the comprehensive and continuous foot health care of patients. It integrates the biological, biomechanical, rehabilitative, clinical and behavioral sciences and encompasses first contact care, continuous care, long term care and general medicine. Board certification provides the assurance to both the public and health professionals that the highest level of achievement has been attained in the specialty area.

ABPM's mission is to protect the health and welfare of the public through an ongoing process of evaluation and certification of the competence of podiatrists in the specialty of Podiatric Orthopedics and Primary Podiatric Medicine.

## THE AMERICAN SOCIETY OF PODIATRIC MEDICAL ASSISTANTS (ASPMA)

(888) 88 ASPMA (27762)  
www.ASPMA.org  
Email: aspmas@aol.com

"Podiatric medical assisting is a small and rapidly-changing professional career. As a result, our role is not understood as well as it should be by other professionals, our peers, educators, and the general public," says Cheryl Bailey, PMAC, Director of Communications for the **American Society of Podiatric Medical Assistants (ASPMA)**. "Obtaining membership in the ASPMA will establish an identity as a podiatric medical assistant, a professional whose support and participation will help the profession develop and gain recognition."

Podiatric assisting mostly involves on-the-job training—learning all aspects of podiatry. "Podiatry is one of the only fields where the medical assistant does a good amount of the patient care," adds Bailey. "This provides the assistant with knowledge and skill along with a study guide to take the exam and become a

PMAC (Podiatric Medical Assistant Certified). This, of course, is dependent on the practice and physician."

The exams are offered online and in person at several conferences. You do need to become a member in order to take the exam, but, as Bailey says, "it's well worth it."

The ASPMA currently has over 1400 active members, with more being added weekly.

Since 1993, physicians have chosen top-rated products from AMERX Health Care to increase patient compliance, boost positive outcomes, and grow practice profits. Long known for the popular AMERIGEL® line of topical wound and skin care products featuring Oakin® (oak extract), AMERX Health Care has expanded their offerings throughout the years. A comprehensive suite of wound care products including HELIX® Bioactive Collagen, AMERX® Wound Care Kits & Dressings, and the EXTREMIT-EASE® Compression Garment are available to help you and your patients address today's wound and skin care challenges. New programs are now in place to help you unlock your practice's true growth potential. Turn-Key DME® by AMERX Health Care provides the support needed to: streamline protocols, navigate Medicare DME requirements, properly bill for DME Wound Care supplies, and more efficiently dispense DME Wound Care supplies. Create your unique DME dispensing program by combining Doctor Direct (In-Office Dispensing) and Patient Direct (Direct-to-Patient Delivery) in the proportion that best fits the needs of YOUR practice. Contact your AMERX Account Manager at 800-448-9599 today to request your personal practice analysis and ask about the options available to enhance your practice growth.

Join your colleagues in using PADnet or PADnet Xpress, the #1 PAD testing technology in podiatry. And with attractive pricing, proven reimbursement, and exciting updates, there's never been a better time to get into the most secure system on the market.

The latest generation PADnets are:

- Speed—Customizable configurations support 2-minute screenings as well as comprehensive testing
- Security—PADnet is HITRUST compliant, offering you the highest level of protection against ransomware and BlueTooth vulnerabilities
- Access—Cloud-based access to all your records, wherever you are and whenever you need them
- Mobility—Our 4th Gen PADnet and PADnet Xpress are incredibly mobile, supporting field-based as well as clinic-based testing options
- Interoperability—PADnet is the only device that can operate in a Windows, Android, iOS, MacOS, and Linux environment. If your pc, tablet, or smart phone has a browser and wifi, it can work with PADnet. PADnet is also supports HL7 interfaces with EMR systems

• Free Vascular Interface—Interpret studies on your own or have Biomedix provide a safe, secure connection to vascular specialists for free!

With over 5K devices sold and 1M+ studies performed, PADnet is the most reliable technology in the market. Take advantage of terrific pricing options being offered today and don't forget to ask about our latest TRAKnet HL7 interface and expanded testing capabilities that include: venous reflux, diabetic peripheral neuropathy, and fall risk.

CuraMedix is the leading US distributor of STORZ medical radial pressure wave, focused shock wave and EMTT devices. The suite of radial devices combines Extracorporeal Pulse Activation Technology (EPAT), innovation and performance with unmatched clinical and economic value for treating acute and musculoskeletal pain. The FDA-approved Focused Shock Wave (FSW) device is the next generation of Extracorporeal Shock Wave Therapy (ESWT) using focused Cylindrical Source technology for the treatment of pain associated with chronic proximal plantar fasciitis. Benefits of this evidence-based, non-surgical treatment include no scarring, no risk of

infection, no anesthesia required, no downtime and faster, easier healing.

## DRYMAX TECHNOLOGIES

PO Box 2300  
Paso Robles, CA 93447  
(844) 239-2555  
www.drymaxsports.com  
www.avalsocks.com

When worn regularly against the skin, fibers containing Cupron Copper improve skin elasticity. Results from a clinical study published in *Skin Research and Technology*<sup>1</sup> found that wearing copper oxide-containing socks for at least 10 hours a day resulted in an increase in skin elasticity of 31.4% after 4 weeks. Increasing skin elasticity may be very beneficial for diabetics in helping prevent skin tears.

Complementing the use of Cupron Copper technology, AVAL's Diabetic Socks have super-wide / easy stretch legs that leave little, if any, marks on the skin. Dense, protective padding underfoot reduces pressure while not adversely affecting shoe fit. Also, the ultra-soft fibers, seamless toe closure and no fiber ends create an extremely comfortable sock.

Cupron Copper technology creates a more healthful environment for the entire foot and leg, truly protecting vulnerable diabetic skin.

<sup>1</sup> Dykes P. Increase in skin surface elasticity in normal volunteer subjects following the use of copper oxide impregnated socks. *Skin Res Technol*. 2014;21(3):272-7. doi:10.1111/srt.12187

**HARTMANN**, a global leader in providing wound care solutions for over 200 years, is pleased to announce the availability of **Zetuvit® Plus Silicone** and **Zetuvit® Plus Silicone Border** superabsorbent polymer (SAP) dressings to the US market. The Zetuvit® Plus Silicone family is the latest addition to HARTMANN's comprehensive advanced wound care portfolio used in the Wound, On the Wound, and Around the Wound.

"HARTMANN Group has combined silicone technology with a unique design of loose cellulose and su-

perabsorbent polymer that helps address one of the most significant challenges to wound healing: effective exudate management," states Jon Procopia, Managing Director of HARTMANN USA. "Clinicians and patients should expect more with the dressings they choose to prevent exudate related complications. The Zetuvit® Plus Silicone family delivers a versatile, clinically effective, and patient friendly alternative that manages the unpredictable and helps patients regain confidence."

*To learn more about the Zetuvit® Plus Silicone family and other HARTMANN wound care solutions you may contact a dedicated Account Manager by visiting [www.hartmann.info/en-us/contact](http://www.hartmann.info/en-us/contact) or by calling 1.800.243.2294. Account Managers are available for consultation, education, and training of staff either in person or virtually.*

## KLM LABORATORIES

(800) 556-3668  
Fax: (800) 556-3338  
www.kmlabs.com

KLM Laboratories manufactures foot orthotics and ankle foot orthotics with an emphasis on quality and service. We fabricate custom orthotics and produce prefabricated products that are used in medical and retail locations worldwide. KLM is leading the way adopting the newest technological advances in orthotic manufacturing by applying the use of 3D Laser Imaging and routers. Our lab experts demonstrate exceptional skill in processing scanned images as well as traditional plaster casts utilized by foot care professionals. We continue to establish new standards in the foot orthotic industry by offering to place private labels on custom or over the counter devices. KLM demonstrates how applying innovation and creativity to orthotic technology can stimulate the foot orthotic industry. Join the experts at KLM and we could be the secret to your success.

## MD BUYING GROUP

(888) 863-5303  
https://mdbuyinggroup.com  
Founded in 2005, MD Buying Group is a medical purchasing group begun by physicians to increase the buying power for all physicians. Founder Joel Lerner, DPM, understood that the savings advantage of buying medical supplies as a group resulted in great purchasing power. MD Buying Group allows physicians to purchase all medical and non-medical supplies at a price far less than any single office is able, in an easy-to-use and secure online shopping experience. Since 2005 MD Buying Group has grown to over 5800 members and has introduced their own brand to bring costs even lower for their members. The group has exclusive partnerships with multiple companies, including HealthyStep orthotics, allowing members to buy any product for as much as 50% less than typical catalog pricing. Members also enjoy additional savings on overstock items, weekly specials and daily deals. There are no membership fees, so join over 5800 doctors for amazing savings.

## MEDICOOL

20460 Gramercy Pl.  
Torrance, CA 90501  
(800) 433-2469  
www.medicool.net

Medicool, a leading manufacturer of debriding drills to the podiatry community, offers solutions for every type of practice.

Medicool believes that the hazard of breathing airborne particles generated from the debridement of fungus toenails is something that should not be taken lightly. Many DPMs and their assistants have breathing issues as a result of years of debridement procedures. Many have now alleviated their breathing troubles by using a Medicool Vacuum Drill.

If you, your staff and your patients are being exposed to potential health issues related to airborne debris during debridement procedures, Medicool offers a solution.

The Pro Vac™ and The File Stream™ Debriding Drills with built-in vacuum offer powerful motors and a high suction power to collect all those harmful dust particles.

For those doctors looking for portability, the Pro Power 20K cordless rechargeable drill offers the versatility and freedom to move between patient rooms or to travel to nursing homes. It is a high-torque 30,000 rpm powerful

machine and is indicated particularly for those with outpatient visits or multiple patient rooms.

Medicool also offers a large selection of carbide & diamond burrs in over 20 different styles.

## MIDWEST PODIATRY CONFERENCE

745 McClintock,  
Ste. 340  
Burr Ridge, IL 60527  
(312) 427-5810  
www.midwestpodconf.org

After overwhelmingly positive feedback from 2020 attendee surveys, the Midwest Podiatry Conference

(MPC) will now take place virtually Thursday, June 17th through Sunday, June 20th. The theme for this year's conference is "DPM: Discover. Perform. Master."

A virtual conference offers plenty of advantages to MPC attendees and exhibitors, one being cost-savings by eliminating the costs associated with travel (hotels, parking, and meals) and opens up the content to a larger audience. Podiatrists, assistants, and other key practice members are invited to join the Midwest to discover innovations in podiatric medicine, network with industry professionals, and learn about new, exciting offerings in our virtual Exhibit Hall.

The MPC team plans to build on the success from last year's event for an even bigger and better conference in 2021. While last year's conference was received positively, suggestions for improvement were taken into consideration as we continue our shift to another fully virtual event. The conference will offer an improved platform for an optimal experience, speakers from around the world, and more CME than any other virtual conference, with live and on-demand options.

The 2021 program is being carefully and thoughtfully planned out so attendees are presented with diverse topics that cover the most important cases, concerns, and innovations the industry currently faces. Content this year is sure to exceed expectations; highlights from this year's upcoming program include:

- Updates in Diabetic Technology
- Athletic Shoe gear
- Procedural Sedation Techniques
- Childhood Obesity
- Injury Prevention in the Athlete
- Social Media Methodology
- CBD And its Place in Podiatric Medicine

In order to be considered to present at MPC, speakers are required to have had their work published. Conference content is led by Scientific Co-Chair Kathryn LaViolette, DPM (under the guidance of previous Scientific Chair John Grady, DPM).

We look forward to virtually gathering podiatrists, assistants, and other key practice members and

are excited to welcome back virtual attendees from the Midwest, while continuing to expand MPC's reach across the nation. Our virtual conference will allow us the opportunity to share our content with other regions and expand networking opportunities among our attendees.

Discounts are available for those who register in advance (before May 28th).

To register and for more details on this year's conference as it becomes available, please visit our website: <http://midwestpodconf.org>. For additional updates, follow MPC on Twitter ([twitter.com/midwestpodconf](https://twitter.com/midwestpodconf)) and LinkedIn ([linkedin.com/company/midwestpodconf](https://linkedin.com/company/midwestpodconf)).

Companies interested in exhibiting should contact Kelly Coates at [meetings@midwestpodconf.org](mailto:meetings@midwestpodconf.org).

www.nolaro24.com

RX24 Quadrastep system is an innovative and tailored approach to treating various foot types. The system uses a patented clinical algorithm that identifies and categorizes a patient's feet into one of 24 foot-types. A patient's foot-type will influence not only their gait but also the conditions and pathologies that afflict them throughout their lives.

The RX24 Quadrastep system takes the concept a step further and simplifies the 24 foot-type medical model into six sub-classifications known as quads that groups together four similar foot types. Each quad has its own very specific foot and gait characteristics. These foot types include severe pes cavus, mild pes planus, neutral, moderate pes planus, abductovarus forefoot and

severe planovalgus feet. These six quad specific functional orthoses are biomechanically tailored to that of a true custom prescription. To provide superior patient education, a quad-specific information card is included with each pair that features possible clinical symptoms, key foot attributes, gait characteristics and more.

The RX Quadrastep system is easy to learn and can be quickly applied in a clinical setting. It also eliminates the need for costly and messy foot impressions. The devices can be stocked in-house ready for immediate fitting.

Nolaro's newest innovation is littleSTEPs, pre-fabricated foot orthoses specifically designed for kids. They deliver prescription-based correction closely matching the criteria of traditional UCBL devices. littleSTEPs provide an affordable alternative to custom orthoses, enabling early intervention and treatment of many musculoskeletal conditions common to children.

**Orpyx SI Sensory Insoles** with remote patient monitoring (RPM) reduce the risk of DFU occurrence<sup>1</sup> by collecting and trending the data that matters, including: plantar pressure, patient adherence, step count, and temperature.

The system is simple and easy for your patients to use:

- The custom-milled sensor-embedded insoles are inserted into the patient's shoes and automatically connect to a digital display that is pre-configured and ready to use.

- The patient receives real-time alerts allowing them to immediately

relieve the area of elevated pressure that contributes to diabetic foot complications.

- Charging is simplified with a wireless, in-shoe battery charger.

The patient's data is remotely monitored through a HIPAA-compliant dashboard:

- Patients with data that have concerning trends are flagged so they can be quickly identified and addressed before a DFU develops.

- Monthly reports are autogenerated and can be documented in the patient record including physiological data, notes and time spent monitoring.

- If staff time is a concern, monitoring can be contracted to a third party while still allowing the healthcare provider to submit claims through CPT® codes.

Orpyx SI Sensory Insoles allow at-risk patients to be monitored at home between visits and generate additional practice revenue.

## ORTHOTIC HOLDINGS, INC. (OHI)

(800) 645-5520

[www.OHI.net](http://www.OHI.net)

In 2008, an exciting new approach to lower extremity therapies began to take shape when storied Langer Biomechanics and Canada's premiere custom foot orthotic brand, The Orthotic Group (TOG), were united in a new venture called Orthotic Holdings, Inc., or OHI. Since then, six additional companies, all leaders in their space, were added to the OHI family of brands: Arizona AFO, SafeStep, Apex Foot Health Industries, PedAlign, MDI and Central Casting. Each of these companies built outstanding reputations by following a simple but essential set of principles including excellence in manufacturing, leadership in innovation and medical education, as well as superior customer, clinical and practice management support. As sister companies under the OHI banner, leveraging and unifying each other's deep experience and expertise, these exceptional brands are more powerful than ever in achieving

their shared top priority: delivering products and services that result in optimal patient outcomes.

ucts exclusively through podiatrists and dermatologists in the US and in selective global markets.

Our Products:

- **VIRCIN™** Advanced Wart Treatment—has been developed to be the home therapy that augments in office practices such as laser and debridement therapy. VIRCIN works especially well on resistant and mosaic warts where average therapies often fail. VIRCIN employs an immuno-modulator, an anti-viral and salicylic acid to provide a one-two-three punch to painlessly combat plantar warts.

- **CIDACIN™** Antifungal Solution—is a unique product that uses dimethyl sulfoxide (DMSO) and other penetration enhancers to bring two anti-fungals: Tolnaftate and povidone iodine to the site of infection.

- **HEMPCIN™**—All-Natural Pain Relief Cream. HEMPCIN is a unique topical cream that contains CBD derived from full spectrum HEMP, providing strong pain relief and anti-inflammatory activity. This powerful formulation also includes natural botanicals such as: the cooling of menthol, the healing of Arnica montana extract, and the anti-inflammatory support of Boswellia serrata.

## **Physician Claim Corp. (PCC)**

is a nationwide podiatry-specific billing company. This is their 27th year in business and their staff has over 150 years of podiatry billing experience.

"Our over-200 clients," reports Physician Claim, "have found that they can significantly reduce their staff once they hire us. On average our podiatrists only need 1 part time person in the back office. Patient eligibility and pre authorizations are their main duties."

It is key to note that by utilizing PCC, you only pay a per claim fee that is a variable cost, not a fixed cost like permanent staff. If you see fewer patients, you pay them less. "We also go after every dollar of your insurance accounts receivable," adds Physician Claim, "which can more than pay for our services. We take all of your patient phone calls, which again saves on your staff time."

Because of these benefits, their clients have a better chance of riding out a rough economy or an illness.

"Even if you are not able to see as many patients right now," reports Physician Claim, "we can work on any accounts receivable you may have that could help bring in some income."

Podiatech's Premium Station is delivering top quality orthotics dispensed same day to satisfied customers, allowing maximum profits and control of the process to practices large and small. The Premium Station can be a profit center in its own space or can sit with a lot of attraction in a waiting room. This compact package delivers on performance, speed, and comfort. The Premium station has an oven, two high-definition vacuum molding pillows, a podoscope as a step and adjustable seat all elevated at a comfortable work height for the fitter, all packed into a sleek 39 X 38-inch footprint. The premium station's ability to easily create 20 pairs of orthotics a day for im-

mediate dispensing keeps the patient happy, and the practice is able to avoid obstacles seen with their current lab solutions. With many orthotic styles and models to choose from this machine will deliver in patient satisfaction and profitability for the practice. Orthotic costs to the practices are as low as \$37 a pair! Podiatech offers enough free product to offset your initial investment, insuring an immediate ROI. Reach out to Nolan for a quote and to discuss how they can tailor a solution for your practice.

QUICK TAPE® is the quick and easy alternative to the low dye taping method. Seconds to apply, wearable in the shower and creates a natural arch. No adhesive spray necessary. Patients can wear QUICK TAPE® for up to 7 days and has been the #1 treatment for plantar fasciitis if worn 24/7 for 6 to 8 weeks. QUICK TAPE® is also a safe and effective method for managing pain resulting from a wide range of lower extremity ailments, including heel pain, arch pain, arthritis, achilles tendonitis, bunion pain, shin splints, sprained ankles, lisfranc injuries and much more.

QUICK TAPE® is 1-piece, pre-cut and shaped for your convenience, saving physicians and assistants time and money. QUICK TAPE® is hypoallergenic, latex-free with additional clinically proven benefits such as:

- Biomechanically altering dynamic plantar loading
- Significantly greater arch height index
- Arch and biomechanical support
- Foot stabilization
- Patient Compliance

No scissors, pads, prep work or extra adhesives are needed. QUICK TAPE® is so quick that it offers much less face-to-face contact with patients. Use 29540 billing code.

Long Beach, CA 90815

www.richiebrace.com

email: info@richiebrace.com

Celebrating its 25th year of success in the podiatric community, the Richie Brace® and its family of products continue to be the premium brand in lower extremity bracing. Often imitated but never duplicated, the original Richie Brace® is the preferred intervention for posterior tibial tendon dysfunction (PTTD) allowing full ankle range of motion with minimal disruption of shoe fit. Other Richie Brace® products provide effective treatment of dropfoot, tendonopathy and arthritic conditions. All of these products are delivered to the podiatric physician by a team of lab distributors who can provide unmatched clinical consultation and technical services for both AFO and custom foot orthotic therapy.

The new Richie AeroSpring Brace Systems offers an attractive alternative to cumbersome walking boots, which are commonly prescribed for lower extremity injuries.

The Richie Brace® is the first podiatric AFO which can be fabricated from a digital scan using an iPad Structure Scanner. Turnaround time is now cut in half compared to traditional casting techniques.

The Richie Brace® is available from the following authorized distributors who can provide instructions for scanning, casting, coding, and reimbursement guidelines:

SOS Healthcare Management Solutions is no stranger to podiatry! A full service practice management training and consulting firm, "SOS" focuses on proven success strategies to:

- Improve operations management and organizational design
- Increase revenue; streamline and implement tested systems
- Develop coordinated office protocols, policies and procedures
- Train staff, manage staff, retain staff
- Strengthen workforce via specialized management techniques

With 38 years of professional and practical experience, "SOS" is committed to making yours a winning team and a winning practice.

"SOS" supports podiatric practices with three different practice management resources:

- 1) On-site practice consultations, analysis and solutions
- 2) Essential practice management products, including forms and manuals
- 3) One day Staff/Office Training Optimization Workshops

Make your practice work for you!

SUTUREGARD® Medical, Inc. develops novel skin wound closure devices. The HEMIGARD® ARS device allows higher tension to be used prior to tearing skin and improves wound edge perfusion compared with a standard retention suture. Use of the HEMIGARD® device has been shown to reduce post-operative wound dehiscence and to save operative time. The HEMIGARD® device is easy to use in the OR for closure of surgical defects and in outpatient clinics to

manage post-operative complications resulting from other closure modalities.

T-V

and dietary supplements with a guarantee that supports the practice of podiatric medicine. Tetra's brands include Formula 7®, Formula 3®, FungiFoam®, CleanSweep®, Kamea® 20, Kamea®G, and CoLig-10™. When you call Tetra a real person answers to give the medical practitioner the best service possible with a "one-call resolution" policy.

Formula 7® Solution and Rapid MicroGel® are the only paraben-free Soluble Tolnaftate antifungal nanoemulsions fortified with cosmetic ingredients and bactericidal agents. The oil phase is comprised of jojoba oil with Soluble Tolnaftate and tea tree oil to fortify the microemulsion with antifungal, antiseptic, germicidal and anti-bacterial properties. The water phase contains N-acetyl-L-cysteine (NAC) and urea: urea to hydrate, soften, and open keratin for better drug penetration; NAC to increase the flux of tolnaftate through the keratin to the site of involvement and provide bactericidal properties.

Tetra is a proud supporter of podiatric medicine and is a frequent exhibitor at conferences nation-wide. Call Tetra today at 800-826-0479 and you will be impressed.

## TOPICAL BIOMEDICS (Topricin)

(800) 959-1007  
www.topricin.com

Topical pain relief creams often present a difficult conundrum for podiatrists and other healthcare professionals. First, many of these products contain irritants such as menthol and camphor. While these ingredients can momentarily block pain receptors, creating the illusion of relief, none of them provide any authentic type of healing. So the question becomes: do I recommend a product that provides temporary relief, or are there better options?

"Topricin," says Topical Biomedics CEO Stephen J. Spiegel, "is the better option." Topical BioMedics, the makers of Topricin, has been innovating natural pain relief products for 25 years, helping patients to actually improve, if not eliminate, their symptoms. Their products—including patented Topricin Foot Pain Relief Cream—are unique in the market. Using a combination of botanical and biologic active ingredients, Topricin works differently to help reduce the underlying cause of pain—inflammation. According to Spiegel, "the product's unique mechanism of action is now thought to include ion-channel effects, cellular signaling, and vascular tone. Think of Topricin as safe, natural medicine unlike any other

product on the market today." Added Andy Kadison, Topricin's CMO, "patients have experienced improvement for symptoms associated with neuropathy, plantar fasciitis, bunions, tendonitis, and gout—along with everyday wear and tear."

As Stanley B. from Miami writes, "I use Topricin for my neuropathy. Nothing offers me relief like this product." Topricin is odor-free, hypoallergenic and proven safe, with millions of customers served. To order free samples and learn how Topricin can fit into your daily practice, please call or visit their website.

The Western Foot and Ankle Conference, aka The Western, an annual event put on by the California Podiatric Medical Association, has long been the ideal place for podiatric physicians and staff from all areas of expertise to earn their continuing education contact hours, including radiology and fluoroscopy credits, for their medical license renewals—with a side of tradition for annual attendees to meet with their colleagues and celebrate the profession in an uplifting setting. In 2020, after 25 years being hosted by the Disneyland® Hotel and Convention Center in Anaheim, California, The Western took its first steps into a virtual setting with a completely online meeting. The global COVID-19 pandemic and State and local authorities made holding an in-person meeting impossible, as the gates to the Happiest Place on Earth were closed for the first time, leaving the Convention Center and Hotel un-

staffed. With large group gatherings being outlawed, but doctors of podiatric medicine across the state and nation still needing their continuing education units, the easy answer to the problem was to offer the same quality education on a virtual platform.

Fast forward to the planning stages of the 2021 conference, to be held June 24-27, when the venue is likely to remain closed well into the year. Not leaving time to plan an in-person meeting, and at the risk of having remaining inadequacies at the venue, not to mention unknowns surrounding the vaccines currently being worked on, the California Podiatric Medical Association Board of Directors and the Western Foot and Ankle Conference Planning Committee decided to once again offer a virtual conference for attendees to be able to safely earn their units without worry, no matter which of California's COVID-19 tiers is reached by June.

For the 2021 online meeting, The Western has teamed up with a highly rated, quality tested platform which will make it easy for attendees and exhibitors to engage each other. The event will kick off June 19th with preview dates for attendees and exhibitors to get more changes for engagement, as well as take a look around to familiarize themselves with the new platform. The 3 ½-days of the live-streamed general sessions will showcase esteemed instructors who will present cutting-edge and relevant scientific and patient care lectures, including biomechanics and sports medicine. Doctors of podiatric medicine requiring radiology contact hours will be able to earn all they need to renew their licenses. Podiatric medical assistants will be invited to learn front and back office pearls and best practices. Attendees will be invited to participate in an event game to win prizes by climbing the leaderboard and attend virtual social events after sessions. Vendors will be able to meet the needs of every podiatric surgeon, practice, and team with their diverse products and services in the virtual expo.

California Podiatric Medical Association and American Podiatric Medi-

cal Association members will still receive reduced registration rates, and PICA policyholders can earn a 15% premium discount by attending the PICA risk management presentation.

The Western hopes to be back at home at the Disneyland® Hotel in 2022.

## ZUCKERMAN FUTURE TECHNOLOGIES

(856) 229-2939  
www.zuckermanft.com  
www.RemyLaser.com

**The Remy Class IV Laser** meets all the criteria podiatrists are looking for when choosing a laser. The Remy uniquely combines all of the following "laser hot buttons":

- Multiple functions which are FDA-cleared
  - Pain/Inflammation
  - Toenail Fungus
  - Mosaic Warts
  - Excision and Coagulation
  - Micro-Drilling
- Mobility: Four Pounds
- Dual and Quad Wavelength
- Range of Power: 0.1w–30w
- Warranty: Five Years
- Marketing Tool Kit Included
- Affordable for Quick ROI

Podiatric technology pioneer and CEO of Zuckerman Future Technologies (ZFT), David Zuckerman, DPM brought The Remy Laser to the marketplace in 2018. Since then, he has continued to communicate the importance of the three requirements of any laser investment:

- 1) *The laser must produce desirable patient outcomes.*
- 2) *The laser technology must produce revenue and profit to the practice quickly.*
- 3) *The laser treatment must be affordable to the patient.*

The Remy meets each of these requirements and achieves the patient "wow factor."

ZFT reports that The Remy is particularly impressive in achieving practically immediate pain relief results. Patients reportedly walk in to an office with pain (i.e., plantar fasciitis or tendonitis) and leave the office with no pain.

The Remy is also so competitively priced that physicians will see an unusually fast return on investment compared to some other Class IV lasers. David Zuckerman has created a business model which eliminates any "middle man" from the sales process and is a direct distributor of the technology.

Because the physician's price point is so reasonable, it creates a domino effect that allows for patient cost-effectiveness.
