

2023 BUYERS' GUIDE

If knowledge is power, then time is surely money. That's the idea behind the *Podiatry Management* Annual Buyers' Guide: to save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

PART I

This year's guide is divided into two parts. Part I lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special edition.

PART II

Part II, which starts on page 61, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and product name; thus, if you're looking for Amlactin under "Pharmaceuticals: Moisturizers," you can find this brand name even if you don't know that Sandoz is the manufacturer.

HOW TO USE THIS GUIDE

Another cross-referencing feature makes it easier for you to find related products. For example, if you're looking in the "Orthotics, Prefabricated" category, you will also find the cross-reference "See also: Insoles, Heel Supports, and Pads."

If you have an office manual, we recommend that you photocopy these pages and add them to your source lists. That way, the next time you run short of x-rays, for example, you can quickly locate a supplier. Incidentally, we encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support magazines such as this; and many, as well, contribute to podiatric student scholarships and research.

20/20 Imaging, a division of Konica Minolta, is a recognized leader in providing digital imaging solutions to podiatry healthcare providers for over 20 years. 20/20's portfolio of DR panels and digital x-ray systems, along with their ultrasound solutions, use the latest technology to achieve the best image quality. Now offering the Universal DR 14x17 Cesium detector to complement our MOMENTUM-DR and Universal DR 10x12 Cesium detectors and REALISM™ image processing algorithm, provide the best solutions available in the industry.

Their extremely efficient PXS710 high-frequency output x-ray unit with anatomical programming is designed to minimize dose and advance patient care. The x-ray unit, coupled with any of their DR detectors, provide outstanding image quality.

20/20 Imaging Opal-Pod software offers secure image viewing, storage, manipulation, and EHR integration. They also option a HIPAA-compliant cloud back-up and image data recovery solution.

Featuring exceptional image quality, Simple Needle Visualization to improve needle visibility, ease of use, and unmatched training with 5-year warranty, the HS2 and MX1P have become the #1 choice for ultrasound in podiatry.

Our mission: To positively change the lives, practices and communities of podiatric physicians through leadership education, practice management education and sharing knowledge.

The American Academy of Podiatric Practice Management (AAPPm) is podiatry's premier association dedicated exclusively to practice management education. Nearly 2,000 established practitioners, new practitioners, residents, podiatric assistants, executive office managers, staff members and students have learned that joining the Academy family can change their practice and change their lives.

For over 50 years, the American Academy of Podiatric Practice Management has positively impacted the lives of practitioners and their staff by integrating improved patient care with proven practice management strategies. Whether you are an established practitioner, new practitioner, multi-physician practice, or a

Often Imitated
Never Duplicated

Urea is known for its hydration and keratolytic properties. Gormel Creme--with 20% Urea and a blend of rich emollients--moisturizes, exfoliates, and softens the skin. Gormel prevents and controls the painful cracked skin that can form on heels, and restores the skin to a healthy, radiant look.

Often imitated, never duplicated, Gormel Creme is the standard by which other Urea creams are measured.

The American Board of Foot and Ankle Surgery (ABFAS) strives to protect and improve the health and welfare of the public by advancing the art and science of foot and ankle surgery. To accomplish this goal, ABFAS grants certification status to candidates who successfully meet the guidelines for demonstrating

competency and proficiency in the art and science of foot and ankle surgery. Those certified surgeons, called ABFAS Diplomates, engage in a process of continuous learning to remain certified.

ABFAS is the only foot and ankle surgical certification board recognized by the Council of Podiatric Medical Education through the Specialty Board Recognition Committee.

Email: admin@abpm.org

The American Board of Podiatric Medicine (ABPM) offers a comprehensive Board Certification process in podiatric medicine and orthopedics. The Board arranges and conducts a comprehensive examination process heading to Board Certification and issues Diplomate certificates to successful candidates duly licensed to practice podiatric medicine. The Board endeavors to serve hospitals and the health care industry in general by preparing documentation of podiatric physicians who it has qualified or certified and provides primary source verification of their status in the accreditation process. The Certificate of the American Board of Podiatric Med-

icine is a unique achievement, a step well beyond the mandatory education of the podiatrist or state requirements for licensure. ABPM is the only board recognized by the Specialty Board Recognition Committee (SBRC), under the authority of the American Podiatric Medical Association, to certify in podiatric orthopedics and primary podiatric medicine.

THE AMERICAN SOCIETY OF PODIATRIC MEDICAL ASSISTANTS (ASPMA)

(888) 88 ASPMA (27762)
www.ASPMA.org
Email: aspmalex@aol.com

"Podiatric medical assisting is a small and rapidly-changing professional career. As a result, our role is not understood as well as it should be by other professionals, our peers, educators, and the general public," says Cheryl Bailey, PMAC, Director of Communications for and President of the American Society of Podiatric Medical Assistants (ASPMA). "Obtaining membership in the ASPMA will establish an identity as a podiatric medical assistant, a professional whose support and participation will help the profession develop and gain recognition."

Podiatric assisting mostly involves on-the-job training—learning all aspects of podiatry. "Podiatry is one of the only fields where the medical assistant does a good amount of the patient care," adds Bailey. "This provides the assistant with knowledge and skill along with a study guide to take the exam and become a PMAC (Podiatric Medical Assistant Certified). This, of course, is dependent on the practice and physician."

The exams are offered online and in person at several conferences. You do need to become a member in order to take the exam, but, as Bailey says, "it's well worth it."

The ASPMA currently has over 1400 active members, with more being added weekly.

Diabetic Skin Care Cream

Our Diabetic Skin Care Cream is specifically developed for diabetic xerosis and eliminates dry, scaling, and cracking skin. Our formula is infused with eggshell membrane, oat flour, and urea.

2023 BUYERS' GUIDE

WHO'S WHO

BINTZ COMPANY

905 W. Liberty Dr.
Wheaton, IL 60187
(800) 235-8458
Fax: (630) 653-5077

www.bintzco.com
Email: bintz@bintzco.com

The Bintz Company is excited to offer our German made Comfo Zone orthotic. It is constructed with an open-cell polyurethane foam with strategically placed foam cut-out zones for the heel, cuboid, metatarsal and hallux comfort. It also incorporates these important features:

- Polypropylene three-quarter length shell

- Metatarsal pad
- Great hind foot control
- Supportive medial arch

Comfo Zones are unbranded and renamable. There is no suggested retail price and patients won't find them on Amazon. We even have quantity discounts that begin when you buy ten pairs (10

pairs/10% discount, 20+ pairs/20% discount).

Unisex sizing covers W4-12 and M3-16 with a doctor's cost of \$33.90 per pair.

The Comfo Zone is just one of the quality products The Bintz Company has to offer. We also distribute Birkenstock, PowerStep, Pedag, Vasyli Medical and more!

The Verne Bintz Company has been a family business for over forty-five years. We have award-winning customer service and as Verne likes to say, "We do business the old-fashioned way." Your phone calls will be answered by a person, and we try to ship your order the same day you call. Each of our customers become a part of the Bintz family.

ComfortFit Labs is entering its 22nd year of service to the podiatric community. We manufacture custom made foot orthoses as well as serving as an official distributor of all authentic Richie Brace products. ComfortFit also sells casting foam, pre-fabricated orthotics, night splints, Cam Walkers, Medicare approved Diabetic shoes and insoles as well as a Stabilizer Brace for fall prevention. We work with iPad and iPhone scanning systems to cast for orthotics and braces. Dr. Barbara Campbell serves as our podiatric medical advisor to answer questions by email. We also have an online Doctor Log-in feature on our web site that allows accounts to check

on order status as well as order products and services. We at ComfortFit continually strive to make your orthotic lab experience better and easier every time.

MLS® Laser Therapy, from Cutting Edge Laser Technologies, is an FDA-cleared innovative modality for the treatment of pain and inflammation associated with podiatric conditions such as Achilles tendonitis, plantar fasciitis, neuropathies, sprains and strains, and arthritis. Utilizing a patented combination of simultaneously produced wavelengths, MLS® Laser Therapy elicits both an intense anti-inflammatory and rapid analgesic response. Treatments are fast, safe, and painless, with no negative side effects.

VIRCIN is for Victory over Warts

VIRCIN® is a unique, pain-free wart medicine formulated with an antiviral, an immunomodulator, and a keratolytic agent to kill the virus that causes warts and prevent recurrence. In a clinical study, 91% of warts cleared, most in just 2 to 6 weeks. Prior to treatment many of these patients had persistent warts for over 1 year.¹

Do you have a resistant wart patient that needs treating?

SCIENTIFICALLY PROVEN TO MAKE EVERY MOMENT MATTER

Your patients' feet are your number one priority. That's why our SUPPORTSTP Insoles provide enhanced stability, premium shock absorption, and unequaled comfort. Featuring our patented Dynamic Arch Technology (DAT), they engage the muscles of the foot and work in natural synergy with it — reducing stress on joints, ligaments, and tendons. Highly customized, they come in high, medium, and low arch profiles. Help your patient live life to the fullest with SUPPORTSTP Insoles.

Dia-Foot is a diabetic shoe company offering shoes from fourteen manufacturers including New Balance, Dr. Comfort, Brooks, SAS, Orthofeet, Propet, and others. Dia-Foot manufactures both prefab and custom diabetic inserts. We accept either a foam box or a digital scan to manufacture the A5514 diabetic inserts. Dia-Foot offers a Medicare Compliance program to assist podiatrists in obtaining the documentation from the patient's PCP.

In addition, Dia-Foot manufactures the Pure Stride line of professional foot care products including Pure Stride orthotics, therapeutic flip flops and gel foot pads. We just introduced the new Pure Stride Golf orthotics and Bold orthotics. Look for the new Pure Stride Ultra orthotics and Pickleball orthotics to come out later this year. Please call 877-405-3668 or visit www.dia-foot.com for additional information.

"We Want You!!"—Dr. Jill and Jay at Dr. Jill's Foot Pads:

We would like to thank the more-than-12,000 podiatrists who have made us their full time 1-Stop Foot Pad Supplier over the last 21 years. And for those of you who have been thinking about us but have not yet been purchasing your padding supplies from us we ask you to give us an opportunity to show you how good we are.

There has never been a better time to start working with us if you are not already. With reimbursements going down we can easily help you put additional dollars in your bank account by dispensing pads to your patients who buy pads anyway!

We will also SAVE you money on all of your BULK padding supplies and pads for your treatment rooms & drawers and keep your money

where it belongs: with you!

We specialize in Felts, Foams, Moleskin, Gels, Cork, Rubber Cork, PPT, Poron, Pre-Fab Orthotics, Pre-Cut Pads and Rolls and more. No company in the nation has a larger selection of padding supplies. With over 5000 different padding selections we are sure we have what you need and if we don't have it we can make it in the USA!

1) Easy ordering via Toll FREE Phone, Toll FREE Fax, E-Mail, On-Line Medical Professional Store, Live Chat or just give us a call and we would love to help! Ordering has never been easier 24 hours per day. We can even set up a DROP SHIP program directly to your patients.

2) The largest selection of padding supplies. MADE IN THE USA

3) The lowest guaranteed prices.

4) The highest quality raw materials.

5) No minimums.

6) Free shipping on ONLY \$100.00 orders.

7) The knowledge to get you what you need when you need it!

8) 99% of orders ship same day!

Patients are looking for drug-free pain relief.

Elevate Patient Care with MLS® Laser Therapy.

MLS Laser Therapy stimulates the body's natural healing processes to effectively reduce pain and inflammation associated with a wide range of acute and chronic conditions.

The Robotic M6 MLS Therapy Laser's automatic emission system allows for unattended treatment sessions to improve practice productivity by eliminating the need for a dedicated technician.

“ We have introduced this into our practice for everyday seen conditions such as tendonitis and bursitis and for difficult issues like regional pain syndromes. Without a doubt MLS Laser Therapy has transformed our approach in treatment.”

Marc A. Borovoy, DPM

Earthwalk Orthotics has established itself as an industry leader for orthotic quality serving podiatry since 1995. Earthwalk is a long-standing ABC accredited centralized fabrication facility and exclusively serves doctors across the US (products never sold retail).

The lab differentiates itself by consistently providing physicians with exceptional product quality (doctors dispensing Earthwalk's orthotics average < 1% error rate), real-time professional & personalized service from experienced technicians, speedy turnaround times (orders typically ship within 5-7 business days from order receipt), and highly innovative technologies.

With a deep understanding of biomechanics and experience addressing even the most challenging foot pathologies, the Earthwalk Team welcomes the opportunity to provide support to the doctors it serves.

Now for Everyday Footwear!

New Success Stories Treating Plantar Pathologies & DFUs

With PressureOFF™
Customizable Offloading Insoles

**First and only with the
proven, removable pegs
design you know, Improved
for Ordinary Shoes**

By reducing pressure, friction
and pain, PressureOFF™ Insoles
help prevent, relieve and promote
healing of common plantar
pathologies and diabetic wounds.

New material combinations and
patented designs make these more
effective and durable than those
limited to post-op shoes. And a
comfortable fit in your patient's
favorite footwear means they'll be
offloading without inconvenience.

Add to your success stories. Choose
a FREE sample, save on a Starter
Pack, or get more information.

Offload —

2023 BUYERS' GUIDE

WHO'S WHO

GILDEN TREE

9203 J St.
Omaha, NE 68127
(888) 445-3368
www.GTPodiatry.com

GILL PODIATRY SUPPLY AND EQUIPMENT COMPANY

22400 Ascoa Ct.
Strongsville, OH 44149
(800) 321-1348
Fax: (800) 432-9445
www.gillpodiatry.com

Gill Podiatry Supply Company is proudly celebrating ninety years of exclusively serving the podiatry profession. In those ninety years Gill Podiatry has represented many different manufacturers carrying thousands of brand name, generic, and even private-labeled products. They have also aided in bringing new products to market, like Pedi-Freeze.

Gill Podiatry is the exclusive distributor for Pedi-Freeze Spray, the most economical and cost-effective cryosurgical method on the market. Throughout the product's life span it has saved DPMs well over 1 million dollars. The 4 oz. canister is convenient, portable and easy to use. Pedi-Freeze Spray will freeze to -65°F/-54°C, which is very comparable to other canister based systems. This allows for a fast, safe and effective way for treating lesions of the skin including warts, skin tags, granulomas and fibromas. To isolate the lesion and protect the surrounding healthy skin from frostbite, always use the companion product Pedi-Shield protective paste. Pedi-Freeze Spray can also be used in conjunction with any cones or buds. This CFC-free, non-flammable, non-hazardous refrigerant gas should only be administered by qualified medical professionals.

Gill Podiatry announces the latest innovation and advancement in autoclaves, the Enbio S.

The Enbio S autoclave is the world's fastest B-class, air-removal (pre-vacuum) autoclave available. With a seven-minute processing time for unwrapped instruments and fifteen minutes for pouches, it is ideal for the podiatry office. It is truly a tabletop

sterilizer. At only 22" deep, 9.8" wide and 6.3" high, it easily fits on any treatment room or lab countertop. This may be the replacement for cold sterile trays that everyone has been looking for.

This Swiss-made autoclave has an incredibly intuitive touch screen and you can record your sterilization cycle data on a USB memory stick. Your patients and staff will hardly notice its ultra-quiet operation. It comes with a one year "door-to-door" warranty. In the unlikely event of a failure, Enbio will ship you a replacement device.

Soluble Tolnaftate – a technology developed and patented by The Tetra Corporation and used first in Formula 3®.

Formula 7® is the only paraben-free soluble tolnaftate antifungal microemulsion fortified with cosmetic ingredients and bactericidal agents.

Formula 7® is formulated with cosmetic ingredients that rehydrate and restore the natural physical properties and appearance of the skin and nail with each use. The cosmetic ingredients are C12-15 Akyl Benzoate, Jojoba Seed Oil, Glycerin, PEG-20 Hydrogenated Lanolin, Urea, Vitamin E Acetate, and Caprylyl Glycol.

Actual Results (Doctor Provided Photos)

Doctor Video

Formula 7® Rapid MicroGel® is the only paraben-free Soluble Tolnaftate antifungal microemulsion gel fortified with cosmetic ingredients and bactericidal agents.

Formula 7® Rapid MicroGel® is formulated to address the cause of macerated tissue rapidly and without the stinging effect of alcohol-based gels. Formula 7® Rapid MicroGel® is formulated with both antifungal and bactericidal drugs and fortified with anti-fungal and bactericidal ingredients, penetration enhancers, and cosmetic conditioners and astringents. The Soluble Tolnaftate¹ in Formula 7® Rapid MicroGel® is indicated for 11 organisms. To appreciate the full range of organisms that are sensitive to the formulation please visit www.TheTetraCorp.com.

CONCERNED? about the CMS changes in reimbursement for skin subs* in the management of chronic wounds?

WORRIED? what this may do to your practice financially?

SHOCKED? that you may be subjected to denials and clawbacks?

BUT WAIT...

There is a better way
to treat your wound** patients!

OUR SOLUTION

- An **FDA-accredited IRB** (Institutional Review Board)
- Your **patient data** and a focus on **patient outcomes** is key
- The ability to **continue to use the skin subs** to heal wounds
- A **proven program** that has been successful for years (*NOT reactive to the latest reimbursement stresses*)
- Comprehensive **customer service**
- An opportunity to **get published**, if desired
- **POSITIVE FINANCIALS** for your practice, *all while adhering to CMS reporting requirements*

When each product is finished, we put them through testing and evaluations by our highly qualified healthcare professionals, so we are certain our customers are getting the best products in the industry. Not only do they work, but you will notice an immediate difference when you use them.

With over 20 years in the industry, Medi-Dyne manufactures and markets over sixty patented products for strengthening, stretching, and protecting the body, as well as for preventing more serious medical issues. Our products provide relief for every area of the body including minor and major issues with the back, legs, and arms. In addition, Medi-Dyne products are perfect for diagnosed indications such as Sever's Disease, Achilles Tendonitis, plantar fasciitis and more.

MIDWEST PODIATRY CONFERENCE

745 McClintock, Ste. 340
Burr Ridge, IL 60527
(312) 427-5810

www.midwestpodconf.org

The Midwest Podiatry Conference would like to thank our 2023 attendees, speakers, and team members that helped make this year's event a success! This conference would not be possible without you, as well as the support and valuable partnership of our sponsors. We hope you enjoyed this year's conference & we look forward to seeing you again next year.

Save the date for MPC 2024 which will be held April 11th–April 14th in Chicago, IL.

The Midwest Podiatry Conference is a confederation of fourteen state podiatric medical associations. MPC's mission is to promote the art and science of podiatric medicine and the betterment of public health through an annual program of continuing education and other professionally oriented instruction for member podiatric physicians. For more information, visit <http://midwestpodconf.org>.

National Supplier of Diabetic Shoes serving the podiatry community, coast to coast

Dia-Foot is a national, leading supplier of diabetic shoes and is serving a growing number of podiatry providers throughout the US. Dia-Foot opened last year in Las Vegas to better serve West coast providers. Dr. Robert Gaynor, owner and president of Dia-Foot stated that the Nevada location is helping provide West Coast customers with shorter ship times, decreased shipping costs and extended customer service lines. Dia-Foot's products and services are available to all podiatric providers in the US; their catalog offers PDAC-approved shoes from 14 manufacturers including New Balance, Brooks, Dr. Comfort, Orthofeet, Gravity Defyer, Propet, SAS and more. Dia-foot manufactures their own PDAC-approved diabetic inserts and the popular Pure Stride professional footcare products. 2023 Catalogs will ship out shortly and will be available to any podiatric provider who is looking to start, restart or grow their diabetic shoe program in their office. Dia-Foot is an accredited organization with the American Board for Certification in Orthotics and Prosthetics. For more information, please visit www.dia-foot.com.

Medicare News

Diabetic Shoe Reimbursement Increased

CMS reimbursement for diabetic shoes and inserts increased by a 8.7% in 2023, the largest increase to date! Medicare now allows \$477.56 for 1 pair of diabetic shoes and 3 pairs of custom inserts and \$376.08 for 1 pair of diabetic shoes and 3 pairs of prefabricated inserts.

The Diabetic Shoe Program is an annual covered benefit for Medicare diabetic patients and can add significant revenue to podiatry practices.

Dia-Foot offers support to podiatry customers providing DME assistance, practice solutions, sample forms and templates, educational aids and training. Call us today at (877)405-3668

NOLARO24

80 Turnpike Dr., Unit B
Middlebury, CT 06762
(877) 792-4669
Fax: (203) 758-1011
www.nolaro24.com

RX24 Quadrastep system is an innovative and tailored approach to treating various foot types. The system uses a patented clinical algorithm that identifies and categorizes a patient's feet into one of 24 foot-types. A patient's foot-type will influence not only their gait but also the conditions and pathologies that afflict them throughout their lives.

The RX24 Quadrastep system takes the concept a step further and simplifies the 24 foot-type medical model into six sub-classifications known as quads that groups together four similar foot types. Each quad has its own very specific foot and gait characteristics. These foot types include severe pes cavus, mild pes planus, neutral, moderate pes planus, abductovarus forefoot and severe planovalgus feet. These six quad specific functional orthoses are biomechanically tailored to that of a true custom prescription. To provide superior patient education, a quad-specific information card is included with each pair that features possible clinical symptoms, key foot attributes, gait characteristics and more.

The RX Quadrastep system is easy to learn and can be quickly applied in a clinical setting. It also eliminates the need for costly and messy foot impressions. The devices can be stocked in-house ready for immediate fitting.

Nolaro's newest innovation is littleSTEPS, pre-fabricated foot orthoses specifically designed for kids. They deliver prescription-based correction closely matching the criteria of traditional UCBL devices. littleSTEPS provide an affordable alternative to custom orthoses, enabling early intervention and treatment of many musculoskeletal conditions common to children.

IWGDF Offloading Guidelines recommend a non-removable knee-high walker as effective as the gold standard TCC. OPED Medical's VACOCast features:

- Unique VAC012 bead technology provides offloading and shear stress protection
- Skin-friendly velour liner, with an additional liner included to keep the walker clean and sanitary
- Safe and optional lock (removable or non-removable option)
- Removable toe protector, which prevents debris from getting in
- Removable sole
- Calf extension—adaptable for extra-large calf circumference

A study was performed to analyze the results of the VACOCast boot in the treatment of DFUs in a real-world setting. A retrospective review of records of patients with DFUs treated with a VACOCast from 2011 to 2017 was performed. Eighty-three episodes of ulcerations in 42 subjects were identified, of which 48 (57.8%) healed in a median duration of 17.5 (95% confidence in-

terval = 15-33) weeks with the use of the VACOCast and 35 (42.2%) discontinued its use. Those patients treated with the VACOCast boot had a median duration of healing of 17.5 weeks.

Orpyx is a leading digital therapeutics company that is committed to extending healthspan for people living with diabetes through personalized remote care. The Orpyx SI® Sensory Insole system with remote patient monitoring helps reduce the risk of foot complications by monitoring plantar pressure, adherence, step count, and temperature data for your at-risk patients with peripheral neuropathy. Here are some highlights:

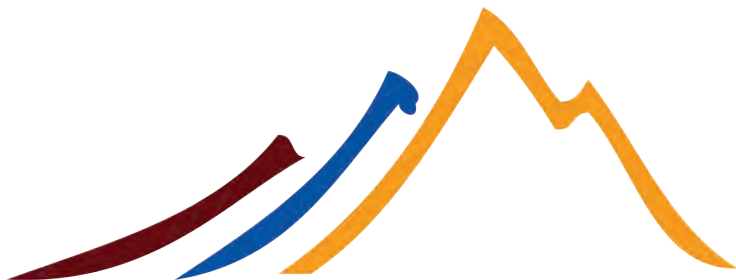

- Backed by a randomized controlled trial showing an 86% reduction in DFU recurrence when worn 4.5+ hours per day (Abbott et al)
- Direct feedback is sent to the patient when plantar pressure levels may cause tissue damage enabling immediate behavior modification
- Orpyx's North America-based nurses provide a turn-key service to manage the data monitoring and day-to-day patient interactions reducing staff time
- Comprehensive patient data is accessible on demand through a HIPAA-secure provider dashboard
- Documentation sent monthly to support CPT claims submissions
- Available in both custom insoles and pre-fabricated insoles to accommodate a wide range of plantar conditions

www.OHI.net

In 2008, an exciting new approach to lower extremity therapies began to take shape when storied Langer Biomechanics and Canada's premiere custom foot orthotic brand, The Orthotic Group (TOG), were united in a new venture called Orthotic Holdings, Inc., or OHI. Since then, six additional companies, all leaders in their space, were added to the OHI family of brands: Arizona AFO, SafeStep, Apex Foot Health Industries, PedAlign, MDI and Central Casting. Each of these companies built outstanding reputations by following a simple but essential set of principles

including excellence in manufacturing, leadership in innovation and medical education, as well as superior customer, clinical and practice management support. As sister companies under the OHI banner, leveraging and unifying each other's deep experience and expertise, these exceptional brands are more powerful than ever in achieving their shared top priority: delivering products and services that result in optimal patient outcomes.

PEDICIS RESEARCH

(800) 748-6539
www.pedicis.com

Pedicis Research brings unique pharmaceutical products distributed exclusively to the practice of podiatry and dermatology. We specialize in developing novel formulations/solutions uniquely suited for treating the various diseases seen by podiatrists and dermatologists. Pedicis Research is a science-oriented company. We believe the best approach in bringing new products to market is through

clinical research demonstrating our products' efficacy.

Our Products:

CIDACIN™ Antifungal Solution—is a unique product that uses dimethyl sulfoxide (DMSO) and other excipients to bring tolnafate to the site of infection.

VIRCIN™ Advanced Wart Treatment—has been developed to treat resistant warts. Vircin employs an immuno-modulator along with salicylic acid and an antiviral to provide a one-two-three punch to painlessly combat plantar warts.

NEW HEMPCIN™—a unique fast-acting all-natural pain relief cream. Hempin targeted pain relief contains full spectrum HEMP—including CBD, CBG, and other cannabinoids for strong pain relief and anti-inflammatory action at injured areas. This powerful formulation includes the cooling of menthol, the healing of arnica montana extract, and the movement and immune support of boswellia serrata.

PHYSICIAN CLAIM CORPORATION

4710 Southfield Green
La Crosse, WI 54601
(877) 385-0257

www.physicianclaim.com

Email: pcc@centurytel.net

Physician Claim Corp. (PCC) is a nationwide podiatry-specific billing company. This is their 29th year in business and their staff has over 150 years of podiatry billing experience.

"Our over-200 clients," reports Physician Claim, "have found that they can significantly reduce their staff once they hire us. On average our podiatrists only need 1 part-time person in the back office. Patient eligibility and pre-authorizations are their main duties."

It is key to note that by utilizing PCC, you only pay a per-claim fee that is a variable cost, not a fixed cost like permanent staff. If you see fewer patients, you pay them less. "We also go after every dollar of your insurance accounts receivable," adds Physician Claim, "which can more than pay for our services. We take all of your patient phone calls, which again saves on your staff time."

Because of these benefits, their clients have a better chance of riding out a rough economy or an illness.

"Even if you are not able to see as many patients right now," reports Physician Claim, "we can work on any accounts receivable you may have that could help bring in some income."

PHYSICIAN LEADERS/JOURNAL OF MEDICAL PRACTICE MANAGEMENT

(800) 562-8088

www.physicianleaders.org

Today's physicians, office managers and healthcare administrators face a new economic landscape. Fees and income limitations, escalating overhead and other financial matters have become monumental concerns.

And with the rise of competition, alternative delivery systems, the new malpractice crisis, and the federal government's intensifying efforts to curb costs, it's increasingly difficult to manage a successful practice.

With JMPM, you'll learn all of the topics a busy practice administrator or physician leader needs to know about.

Woodlawn, MD 21207
(888) 493-2859
Fax: (410) 277-9988
www.pilgrimshoes.com

Pilgrim Shoes, a well-known supplier of diabetic footwear brands "Hoopoe" and "Areni One" over the last quarter-century, has declared its readiness for the post-pandemic era despite logistics challenges and lockdowns in China.

The firm has increased its offerings of diabetic footwear and invested in some new styles as well as beefing up its current inventory.

Pilgrim Shoes is now offering custom-made orthotics; they've invested in new technology, equipment and materials to provide podiatry practices with a one-stop shopping solution for PDAC-reviewed diabetic shoes and custom-made diabetic orthotics. And in addition to their familiar lines of comfort shoes and sandals Pilgrim is adding new styles of winter boots and some slip-resistant footwear.

Says Pilgrim, "The COVID disaster gave us an opportunity to review what we do as a company and what we can offer to practitioners to make their lives easier. I want to say to podiatrists: your supply chain at Pilgrim Shoes is ready as never before."

Pilgrim Shoes' brands of diabetic and orthopedic footwear are distinguished by their comfortable fit, the result of using German engineered lasts with anatomically shaped contoured bottom and heel cup for better accommodation of foot deformities. Pilgrim offers a huge variety of fashionable and functional styles in Hoopoe and Areni One brands, some of which are available up to size 15 Men's and 12 Ladies, and up to WWW(6E) width. All styles are PDAC-reviewed as A5500 for diabetic patients. Attractive sample

shoe displays are available, and doctors may phone in orders or submit online or by FAX. Same day shipping, free returns, and very competitive pricing, always in stock guarantee.

ProLab Orthotics was founded by podiatrists for podiatrists. Orthotic therapy education has been a cornerstone of ProLab's philosophy and success for over thirty years. Our Medical Consultants, Dr. Larry Huppin and Dr. Dianne Mitchell-Pray, are available to our clients to discuss challenging cases. Our Biomechanics Director, Dr. Kevin Kirby, writes a monthly Biomechanics & Orthotic Therapy Newsletter highlighting many important topics and reinforcing concepts taught in podiatry school.

ProLab manufactures truly custom foot orthotics at our facility in Napa, California. We strive for the best possible outcomes for your patients. In addition to our quality custom products, we also offer a full line of prefabricated foot orthotics. The P3 Adult prefabs are semirigid orthoses with a full-depth heel cup, forefoot valgus correction and medial heel skive. They are available with or without a rearfoot post based on your patient's needs. ProLab's Kid-

The Remy Class IV Laser is 510K, FDA-Cleared to treat a myriad of foot/ankle conditions. The technology is changing the way DPMs treat their patients for pain/inflammation, plantar fasciitis, Achilles tendonitis, post-operative healing, neuropathy, wounds, as well as fungal toenail. Additionally The Remy treats plantar warts, mosaic warts and IPKs without the need for a local anesthetic.

The Remy is a 30-watt, dual-wave laser weighing only four pounds. This makes transporting the laser to and from different treatment rooms or office locations quick and easy while offering viable power to treat myriad foot/ankle conditions.

When you choose the Remy you receive unparalleled training and ongoing service from a DPM who knows and understands your needs—Dr. David Zuckerman. Dr. Zuckerman knows that your investment must result in desired patient outcomes, affordability to the patient, and it must result in ROI quickly for the practitioner. Combining power, portability, function and affordability, The Remy checks all the boxes for a DPM looking to implement high-end laser therapy in his/her practice.

Physicians can contact Dr. Zuckerman at 856.229.2939 (call or text) and/or email davidzuckerman@dpm@gmail.com. To see complete specifications of The Remy and to view DPM testimonials, visit www.RemyLaser.com.

PRESENT PODIATRY ONLINE DELIVERS AGAIN

The screenshot shows the PRESENT Podiatry website interface. At the top, there's a navigation bar with links for HOME, NEWS, RESIDENCY, LECTURE HALL, and MORE. A search bar is also present. On the right, a user profile for 'Alan Sherman' is shown with a dropdown menu. The menu items include: My Profile, My Account, My Lectures, Education Completion Report: My Certificates, **Self-Report CME/CE** (highlighted with a red box and a red arrow pointing to it), Purchase History, Control Panel, and Sign Out. Overlaid on the center of the screenshot is the text 'Your One Complete CME Record' in large, bold, red letters.

NOW - Maintain Your COMPLETE CME Record Simply and Efficiently at PRESENT Podiatry

We have added a **New Feature** to your account at PRESENT Podiatry that allows you to not only keep the CME that you earn from PRESENT Conferences, Webinars, and On-Demand Lectures in the PRESENT Online Lecture Hall, in a simple and efficient way, but you can now enter in **any CME** that you earn from **any other CME source** into your account.

Your **complete CME** record can now be stored at PRESENT Podiatry. We call this **Self-Report CME**.

A horizontal banner with a light blue background. On the left, there's a QR code. To its right, the text 'Scan Here to See Your Complete CME Record' is written in a bold, blue, sans-serif font. Further right is a red circular button with a white right-pointing arrow. On the far right of the banner is another QR code.

It's clinically proven that podiatrist-prescribed foot orthotics decrease foot pain and improve function. What if they could be provided with more efficiency, accuracy, and patient buy-in?

SOLO was the first laboratory to offer affordable foot scanning technology to the podiatry community and now is proud to offer an adjunct to their custom orthotics solutions with Digitsole® Pro, which captures objective data of the patient's biomechanical movements while the patient is IN MOTION.

Using patented AI-powered algorithms and sensors, this innovative technology allows practitioners to assess movement objectively, not subjectively or while using the older, static method. It is an affordable tool for walking and running gait analyses compared to high-cost laboratory-based equipment. The results of the dynamic assessments are used to support the orthotic build and streamline clinical decisions.

In less than 3 minutes, this easy-to-use and easy-to-implement app and sensor technology provides:

- Visual confirmation of the assessment.
- A report to show patients their unique need for orthotics.
- Precise and supplemental data for insurers and referrers.

Order custom orthotics digitally or traditionally and experience quality orthotics from SOLO. The lab also offers a full line of Richie braces.

SOLO has been making patients' lives better since 1983. They pride themselves on their 98% satisfaction rate and their experienced Customer Care team.

Fax (517) 663-8380
www.thetetracorp.com

The Tetra Corporation has been the leader in tolnaftate technology for 30 years and in 2021 received a patent for the first tolnaftate nanoemulsion—Formula 7[®]. Tetra developed and patented Soluble Tolnaftate in 1989. Today Tetra provides innovative and clinically-proven doctor-dispensed topical treatments, skin conditioners and dietary supplements with a guar-

antee that supports the practice of podiatric medicine. Tetra's brands include Formula 7[®], Formula 3[®], FungiFoam[®], CleanSweep[®], Kamea[®] 20, Kamea[®] G, and CoLig-10[™].

Tetra recently introduced Alaplex[®], a new novel approach for patient management of peripheral neuropathy. In the fall of 2022, Tetra introduced Glycylc[®] Wart Remover, an affordable and painless and non-scarring patient-applied home wart treatment. GlyCylc[®]'s anti-viral formula kills the HPV and the immunomodulator prevents recurrence.

When you call Tetra a real person answers to give the medical practitioner the best service possible with a "one-call resolution" policy.

Formula 7[®] Solution and Rapid MicroGel[®] are the only paraben-free Soluble Tolnaftate antifungal nanoemulsions fortified with cosmetic ingredients and bactericidal agents. The oil phase is comprised of jojoba oil with Soluble Tolnaftate and tea tree oil to fortify the microemulsion with antifungal, antiseptic, germicidal and anti-bacterial properties. The water phase contains N-acetyl-L-cysteine (NAC) and urea: urea to hydrate, soften, and open keratin for better drug penetration; NAC to increase the flux of tolnaftate through the keratin to the site of involvement and provide bactericidal properties.

Tetra is a proud supporter of podiatric medicine and is a frequent exhibitor at conferences nation-wide. Call Tetra today at 800-826-0479 and you will be impressed.

Kevin Kirby, DPM

A Closer Look at ProLab Orthotics

ProLab was founded in 1989 by Dr. Paul Scherer, a renowned podiatrist and educator. Focusing on the medical literature, Dr. Scherer integrated evidence-based research into the design, materials, and fabrication of custom orthoses. This evidence-based approach continues today as we produce the most effective orthoses for optimal outcomes.

Supporting the podiatric community is an integral part of ProLab's mission. Our website is an excellent source of free education for students and clinicians. ProLab Medical Consultants, Dr. Larry Huppin and Dr. Dianne Mitchell-Pray, created an excellent online series of video lectures on all aspects of orthotic therapy. Additionally, our Biomechanics Director, Dr. Kevin Kirby, writes a monthly Biomechanics & Orthotic Therapy newsletter.

Give us a call, visit our website, or send us an email to learn more about ProLab Orthotics and become a client.

2023 BUYERS' GUIDE

WHO'S WHO

V-Z

perienced lab experts who will partner with you at installation and operationally over the long haul to ensure your success. Our legendary service and unique financial options are what sets us apart from competitors!

Why send these samples to an outside lab? Keep the reimbursements for yourselves with some help from The Core Group!

New from Vanguard: Wound Solutions, a turn-key program designed specially to assist podiatrists with resolving wounds and securing reimbursement.

This is not a product per se; it is a complete program that considers "if it has to do with a wound, we've included it!" Everything from wound evaluation, development of comprehensive treatment plans, skin sub selection, DME selection, insurance verification, product orders, and optional billing is included in the program.

The program features the advanced app WoundScope, which allows for automated wound measurements (no more rulers!). Leveraging artificial intelligence advances, DPMs can save up to 30 minutes or more when performing both the initial and on-going wound assessments.

The documentation provided in this program is very detailed and progress notes are easily updated until wound closure.

The program is specifically designed to include and exceed the requirements from CMS that allow for reimbursement.

Revenue sources in this program come from both the skin subs and wound DME.

This is a CASH FLOW POSITIVE program—reimbursements are received prior to the invoices becoming due.

It is a PROVEN program and references are available.

The 2023 Western Foot and Ankle Conference will keep its 2022 format and once again be a hybrid meeting hosted by The Disneyland® Hotel and Convention Center in Anaheim, California with a virtual option for Doctors of Podiatric Medicine (DPMs) to remotely attend via the meeting app. The continuing education conference for podiatric physicians and medical profession-

als will commence Thursday, June 22 and end Sunday, June 25, 2023. An onsite exhibit hall will be open for attendees to peruse Thursday, June 22 through Saturday, June 24.

The Western Foot and Ankle Conference, aka The Western, an annual event put on by the California Podiatric Medical Association, has long been an ideal place for podiatric physicians and staff from all areas of expertise to earn their continuing education contact hours, including radiology and fluoroscopy credits, for their medical license renewals—with a side of tradition for annual attendees to meet with their colleagues and celebrate the profession in an uplifting setting.

After much success with the first hybrid meeting in June 2022, The Western opted to continue the hybrid meeting format for 2023. To meet the needs of doctors of podiatric medicine still wishing to watch the 3.5-day live stream from home, a virtual experience will be available via the same high-tech platform. The general sessions will be broadcast to virtual attendees via The Western meeting app, where they may play a game to win prizes and interact with other attendees.

Location and convenience aren't the only reasons The Western is the go-to meeting for podiatric specialists. As always, the general sessions will showcase esteemed instructors who will present cutting-edge and relevant scientific and patient care lectures, including biomechanics and sports medicine topics unique to the conference. Doctors of podiatric medicine requiring radiology contact hours will be able to earn all they need to renew their licenses.

2022 brings a brand-new program for Podiatric Medical Assistants, combining administrative and clinical training for all office team members Friday and Saturday of the event. Friday will offer administrative best practices and billing & coding hot topics; then on Saturday, assistants will be able to practice and brush up on back-office clinical skills. Included is a sexual harassment and discrimination prevention training course required by California state law.

Attendees will be invited to participate in event games to spice up the long days of learning. Vendors will be able to meet the needs of

every podiatric surgeon, practice, and team with their diverse products and services in the exhibit hall and Virtual Expo feature of the meeting app.

California Podiatric Medical Association and American Podiatric Medical Association members will receive reduced registration rates, and PICA policyholders can earn a 15% premium discount by attending the PICA risk management presentation.

podimetrics

Help stop diabetic foot complications in the living room.

Not the operating room.

Podimetrics works like an extension of your practice, a personalized touchpoint right in the home of your at-risk patients. We help prevent diabetic foot complications before they start—with clinically proven technologies and customizable human-to-human support. Our SmartMat™ uses remote temperature monitoring to detect early signs of inflammation.

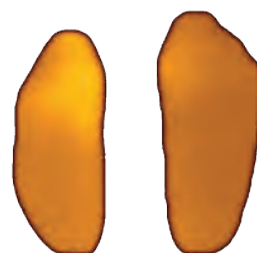

Our FDA-cleared SmartMat™

- Patients scan for 20 seconds a day
- Shown to detect signs of inflammation on average 5 weeks before an ulcer would present clinically¹
- When signs are detected, Podimetrics Support connects with provider and patient to start remediation steps

With Podimetrics, you can empower your patients to protect their mobility in a new, easy and effective way.

Visit Podimetrics.com to learn more today.

Help your patients put their best foot forward.

Approximately 15% of diabetic patients have a diabetic foot ulcer or open wound.¹ Diabetic foot ulcers can be a marker for more serious underlying conditions, and if they don't heal, can lead to amputation or worse. With the total number of people in the US with diabetes expected to rise from 11 million in 2000 to almost 20 million in 2025,² the demand for diabetic wound care is only going to increase. How will you meet this rising demand? **The Midmark® 647 Podiatry Chair is designed with features that can help improve your clinical workflow without sacrificing quality of care.**

Learn more at: midmark.com/footcare

Salicylic Acid... In a Penetrating Glycolic Acid Vehicle

With Glycolic and Salicylic Acid plus:

Anti-viral kills the HPV and immunomodulator prevents recurrence

- Avoid the pain
- Avoid the expense
- Avoid the scarring

GlyCylic® WART REMOVER

GlyCylic®'s vehicle (glycolic acid) works to break the bonds between the outer layers of the wart, including dead skin cells, and open pathways for the Salicylic Acid to achieve deep penetration.

GlyCylic® - is the first wart remover formulated with salicylic acid (a beta-hydroxy acid), glycolic acid (an alpha-hydroxyl acid), and immunomodulatory, virucidal, anti-scarring, and antiseptic ingredients that condition the emerging skin and promote healing while minimizing swelling, irritation, inflammation, and scarring.

ABPM
American Board of Podiatric Medicine
Certifying Today's Podiatrist

Why Certify?

- ✓ One-Step Certification - One, 2-part exam, get certified within a year of finishing residency!
- ✓ Hospital Privileging - More and more hospitals require certification to practice.
- ✓ Insurance Paneling - Many insurance companies require board certification, don't be left out!
- ✓ Enhanced Practice - Certification gives you an edge to help get you to the top of your field.
- ✓ Increased Income - Access to more patients and higher reimbursements with certification.
- ✓ Physician Competence - Assure the public that you are a highly competent provider.

Application Deadline is August 15, 2023
www.podiatryboard.org | (310) 375-0700

All the Pads and Padding Supplies your Practice Needs to Keep your Patients Active and on their Feet!!!

The advertisement for Dr. Jill's Foot Pads features a collage of various foot padding products and images of people using them. The products are displayed in individual boxes with labels: Premier Gel 100% Pure Silicone, Purple Gel Self-Sticking, Re-Usable, EcoGel, Carbon Stabilizer Plates (with a note 'Sold TWO per pack NOT 1'), Felts, Foams, Moleskin, and Rolls. A 'MADE IN THE USA' seal is also present. The background includes images of a man and a woman applying pads to their feet, and a woman holding a roll of Moleskin. The Dr. Jill's logo is prominently displayed in the bottom left corner.

PHYSICIAN CLAIM corporation

The Podiatry Billing Specialists

PCC
29th
ANNIVERSARY
1994-2023

PCC Specializes in Podiatry

- PCC specializes in podiatry, so clients see fewer denials and lower accounts receivable
- PCC has a proven system that results in faster pay and higher profitability
- PCC staff performs extensive insurance follow-up that can make or break a practice

Our staff has over 175 years total of podiatry-only billing experience

PCC Allows You to Focus on Your Practice

- No start-up costs
- No long-term contracts
- PCC's per-claim fee and A/R follow-up are far more economical than either billing in-house or using other billing agencies
- Our clients have found that they can significantly reduce their staff once they hire us

Over 29 years in business

Are Your Assistants Certified? The ASPMA Exam Options!

Joining the ASPMA (The American Society of Podiatric Medical Assistants) can boost your career and confidence. Podiatric medical assisting is a small and rapidly changing professional career. As a result, our role is sometimes not understood as well as it should be by other professionals, our peers, educators, and the general public. Obtaining membership in the ASPMA will establish your identity as a **podiatric medical assistant**. Podiatric assisting is mostly on-the-job training, learning all aspects of Podiatry, one of the only fields in which the medical assistant does a lot of patient care.

The ASPMA can provide you with the knowledge and skills you need along with a study guide to take the exam(s) to become...

1. PMAC (Podiatric Medical Assistant-Certified)
2. PRAC (Podiatric Radiology Assistant-Certified)
3. PMAC & PRAC—Are you certified? (requires two separate exams)

Our examinations are offered online and in-person at several conferences. We offer three different exams. Visit www.aspma.org/certification.

1. NEW Administration Exam
2. Clinical Exam without Radiology
3. Radiology Exam

Visit www.aspma.org for more information about the ASPMA and Certification.

A credential you can trust.

The surgical Board Certification you choose matters.

- **Trusted by patients.** ABFAS is the only Foot and Ankle Surgery Certification Board recognized by the Council on Podiatric Medical Education (CPME). Our rigorous, two-step process involves Case Review to ensure thorough clinical experience and surgical skill.
- **Valued by partners.** ABFAS Board Certification is required for surgical privileges at many hospitals and for some insurance companies and larger medical groups, as candidates must demonstrate strong competency and proficiency in foot and ankle surgery.
- **Respected by physicians.** More than 10,000 highly skilled podiatrists have earned ABFAS Board Certification, with more joining their ranks each year. Between 65 and 95 percent of candidates from each residency year pass ABFAS examinations, comparable to other medical specialty boards.

ABFAS Fall 2023 Exam Dates and Deadlines

PART I FOOT SURGERY DIDACTIC
PART I RRA SURGERY DIDACTIC

FOOT SURGERY NEW CBPS
RRA SURGERY NEW CBPS

Only candidates who have a residency completion year after 2020 are eligible to register for the fall exams.

Registration Open: **June 1 – October 3, 2023**

Foot Surgery Exams Date: **October 18, 2023**

RRA Surgery Exams Date: **October 24, 2023**

Don't accept a lower standard.
