

2024 BUYERS' GUIDE

If knowledge is power, then time is surely money. That's the idea behind the *Podiatry Management* Annual Buyers' Guide: to save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

In this interactive Buyers' Guide, you can click on the supporting advertisers' company and product listings to reach their websites.

PART I: WHO'S WHO

This year's guide is divided into two parts. Part I lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special edition.

PART II: PRODUCTS & SERVICES

Part II, which starts on page 23, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and product name; thus, if you're looking for Amlactin under "Pharmaceuticals: Moisturizers," you can find this brand name even if you don't know that Sandoz is the manufacturer.

HOW TO USE THIS GUIDE

Another cross-referencing feature makes it easier for you to find related products. For example, if you're looking in the "Orthotics, Prefabricated" category, you will also find the cross-reference "See also: Insoles, Heel Supports, and Pads."

If you have an office manual, we recommend that you photocopy these pages and add them to your source lists. That way, the next time you run short of x-rays, for example, you can quickly locate a supplier. Incidentally, we encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support magazines such as this; and many, as well, contribute to podiatric student scholarships and research.

20/20 Imaging, a division of Konica Minolta, is a recognized leader in providing digital imaging solutions to podiatry healthcare providers for over 20 years. 20/20's portfolio of DR panels and digital x-ray systems, along with their ultrasound solutions, use the latest technology to achieve the best image quality. We offer both wireless and tethered DR Cesium detectors in three sizes including 10x12, a true to size 10x13, and 14x17. Our 10x12 MOMENTUM-DR is the only capacitor power cell technology available. These Cesium detectors utilizing REALISM™ image processing algorithms, provide the best image quality solutions available in the industry.

The extremely efficient PXS710 high-frequency output x-ray unit with anatomical programming is designed to minimize dose and advance patient care. The x-ray unit, coupled with any of their DR detectors, provide high-definition detail.

20/20 Imaging SymmetrySync™ software offers secure image viewing, storage, manipulation, and EHR integration. They also option a HIPAA-compliant cloud back-up and image data recovery solution.

Our HS2 and MX1P have become the #1 choice for ultrasound in podiatry, featuring exceptional image quality, Simple Needle Visualization

to improve needle visibility, ease of use, and unmatched training with 5-year warranty.

Our mission: To positively change the lives, practices and communities of podiatric physicians through leadership education, practice management education and sharing knowledge.

The American Academy of Podiatric Practice Management (AAPPMM) is podiatry's premier association dedicated exclusively to practice management education. Nearly 2,000 established practitioners, new practitioners, residents, podiatric assistants, executive office managers, staff members and students have learned that joining the Academy family can change their practice and change their lives.

For over 50 years, the American Academy of Podiatric Practice Management has positively impacted the lives of practitioners and their staff by integrating improved patient care with proven practice manage-

Continued on page 3

2024 BUYERS' GUIDE

ment strategies. Whether you are an established practitioner, new practitioner, multi-physician practice, or a doctor looking to retire, the AAPP is here for you.

We invite you to join the AAPP and find out firsthand how the positive sharing attitude of our leadership and members, our unique practice management meetings, mentoring programs and many other educational resources can help you change your practice and change your life.

AMERICAN ASSOCIATION FOR PHYSICIAN LEADERSHIP/ Healthcare Administration Leadership & Management Journal

(800) 562-8088

www.physicianleaders.org

Today's healthcare leaders face a changing economic landscape. Fee schedules, income limitations, value-based reimbursement, escalating overhead, alternative delivery systems, and the federal government's intensifying efforts to curb costs, increase compliance, and promote health IT—all have become evolving demands on administrators of healthcare.

From the editors at the American Association for Physician Leadership, HALM Journal is a guide to sound fiscal practice, physician and non-physician leadership issues, human resources, health IT, patient-centric care, health law and malpractice topics, and secrets of the best-run healthcare practices. It delivers results-oriented guidance for a healthcare industry moving towards inter-professional teams in a way that can create a positive impact on patient care outcomes and population health.

The American Board of Foot and Ankle Surgery (ABFAS) strives to protect and improve the health and welfare of the public by advancing the art and science of foot and ankle surgery. To accomplish this goal, ABFAS grants certification status to candidates who successfully meet the guidelines for demonstrating competency and proficiency in the art and science of foot and ankle surgery. Those certified surgeons, called ABFAS Diplomates, engage in a process of continuous learning to remain certified.

ABFAS is the only foot and ankle surgical certification board recognized by the Council of Podiatric Medical Education through the Specialty Board Recognition Committee.

The American Board of Podiatric Medicine (ABPM) is an organization offering a comprehensive board certification process in podiatric medicine and orthopedics. Increasingly hospitals, surgical centers, managed care organizations and insurance carriers require board certification. ABPM is the only board recognized by the Specialty Board Recognition Committee (SBRC), under the authority of the American Podiatric Medical Association to certify in podiatric orthopedics and primary podiatric medicine. The Board arranges and conducts a comprehensive examination process heading to Board Certification

and issues Diplomate certificates to successful candidates duly licensed to practice podiatric medicine. The Board endeavors to serve hospitals and the health care industry in general, by preparing documentation of podiatric physicians who it has qualified or certified and provides primary source verification of their status in the accreditation process. ABPM's goal is to protect the health and welfare of the public through an ongoing process of evaluation and certification of the competence of podiatrists in the specialty of Podiatric Orthopedics and Primary Podiatric Medicine.

THE AMERICAN SOCIETY OF PODIATRIC MEDICAL ASSISTANTS (ASPMA)

(888) 88 ASPMA (27762)
www.ASPMA.org
Email: aspmalex@aol.com

"Podiatric medical assisting is a small and rapidly-changing professional career. As a result, our role is not understood as well as it should be by other professionals, our peers, educators, and the general public," says Cheryl Bailey, PMAC, Director of Communications for and President of the American Society of Podiatric Medical Assistants (ASPMA). "Obtaining membership in the ASPMA will establish an identity as a podiatric medical assistant, a professional whose support and participation will help the profession develop and gain recognition."

Podiatric assisting mostly involves on-the-job training—learning all aspects of podiatry. "Podiatry is one of the only fields where the medical assistant does a good amount of the patient care," adds Bailey. "This provides the assistant with knowledge and skill along with a study guide to take the exam and become a PMAC (Podiatric Medical Assistant Certified). This, of course, is dependent on the practice and physician."

The exams are offered online and in person at several conferences. You do need to become a member in order to take the exam, but, as Bailey says, "it's well worth it."

The ASPMA currently has over 1400 active members, with more being added weekly.

Belava's Disposable Pedicure Liner acts as a barrier between the client's feet and the foot bath, preventing direct contact with the basin's surfaces. This significantly reduces the risk of cross-contamination and the transmission of infections between patients in pedicure treatments.

Each liner is pre-fitted to the Belava pedicure foot bath, and easy to use, ensuring a quick and seamless setup for every appointment. This not only enhances the overall client experience but also saves valuable time for professionals, allowing them to focus more on providing exceptional foot care services.

Belava's commitment to innovation and hygiene is reflected in this product, ensuring that podiatry professionals can offer their services with the utmost confidence in cleanliness and client satisfaction. The Disposable Pedicure Liners are a must-have for any professional seeking to elevate their practice's hygiene standards.

Email: johnortho@aol.com

Founded in 1939, Bergmann Orthotic Lab is dedicated to manufacturing successful outcomes for your orthotic patients. To accomplish this, we use the most advanced manufacturing techniques, combined with the highest quality orthotic materials and the latest biomechanics concepts. Our guiding concept is to maintain the unique biomechanics,

size, shape, and contour of each foot. Dr. John Bergmann, who is an orthotic consult for many orthotic labs, professional sports teams, and the automated orthotic consultant for Podiatry Management, is always available for orthotic consult. If you are looking for a new direction in your orthotic partnership please give us a call. You can contact Dr. Bergmann via Email: Johnortho@aol.com or call 800-323-8267.

Orthotics types—functional, full contact, and accommodative

Shell Materials—leather, plastazote, Eva, polypropylene, polyethylene, and graphite (very flexible, semi flexible, and rigid)

Casting Equipment—Bergmann Optical Scanner—first optical scanner to replace in office plaster casting for orthotics. The only neutral position scanner that takes the sides as well as the bottom of the foot in neutral suspension, semi-weight bearing and full weight bearing.

The Bintz Company is excited to offer our German made Comfo Zone orthotic. It is constructed with an open-cell polyurethane foam with strategically placed foam cut-out zones for the heel, cuboid, metatarsal and hallux comfort. It also incorporates these important features:

- Polypropylene three-quarter length shell
- Metatarsal pad
- Great hind foot control
- Supportive medial arch

Comfo Zones are unbranded and renamable. There is no suggested retail price and patients won't find them on Amazon. We even have quantity discounts that begin when you buy ten pairs (10 pairs/10% discount, 20+ pairs/20% discount).

Unisex sizing covers W4-12 and M3-16 with a doctor's cost of \$33.90 per pair.

The Comfo Zone is just one of the quality products The Bintz Company has to offer. We also distribute Birkenstock, PowerStep, Pedag, Vasyli Medical and more!

The Verne Bintz Company has been a family business for over forty-five years. We have award-winning customer service and as Verne likes to say, "We do business the old-fashioned way." Your phone calls will be answered by a person, and we try to ship your order the same day you call. Each of our customers become a part of the Bintz family.

www.blainelabs.com

Blaine Labs researches, develops, and manufactures over 30 FDA-approved products for fungal care, wound care, skin care, and pain management. In addition to manufacturing our own products, we have the ability to give your practice the leg up by offering private labeling capabilities. In business for 26 years, our top priority remains effectively resolving your patient's pathology resulting in a pleased patient, increased patient compliance, enhanced practice reputation, increased practice revenue and patient traffic. Let's dispense and prosper.

BLUE ORCHID—MARKETING

(203) 746-5901
www.blueorchidmarketing.com

Blue Orchid Marketing may be the oldest podiatry marketing agency, but we're still focused on new—studying up on Lapiplasty and Swift to help you communicate more effectively, investing in our own infrastructure and technology to market your practice more efficiently, and signing strategic partners to do it all more economically.

Email & Text Marketing: Communicate with active patients and recall former patients to improve your bottom line. Unlike other agencies, we

actually built our own custom email platform to send out hundreds of thousands of email campaigns for our podiatry clients.

Social Media Posts & Blogs: If you're not consistently posting to Facebook, Instagram, and LinkedIn, and adding blogs to your website, you're missing out on an opportunity to establish community and improve your online search ranking.

Google & Facebook Ads: Connect with new patients in your area at the exact moment they're searching for your services online. A real revenue generator!—Websites & SEO: We believe your website should represent the same quality of service and attention to detail that you provide in the office.

Local Listings & Reputation Management: Let's make sure the information about you and your practice is accurate and up to date across the Web, and collect positive reviews for your practice, since 95% of us rely on community input when selecting a new doctor.

ComfortFit Orthotic Labs remains one of America's largest and most trusted labs. We are entering our 25th year serving podiatry and continuing to provide the finest custom orthotics available along with friendly, knowledgeable customer service. We are also an official Richie Brace distributor as well as providing our version of a Balance brace. ComfortFit also provides pre-fabricated orthotics, night splints and cam walkers as well as diabetic Medicare approved inserts and shoes, Torch and Crow Walkers. ComfortFit accepts numerous casting methods; foam, plaster, fiberglass stocking cast and 3D scanning using an iPhone or iPad with structure scanner. And we now offer 3D scanning with the iPad Pro with no scanner attachment needed! This unique and proprietary system includes kinesis monitoring and gait analysis which are provided at no additional cost. We at ComfortFit are committed to continually striving to improve and expand our services to you, our valued customers.

MLS® Laser Therapy, from Cutting Edge Laser Technologies, is an FDA-cleared innovative modality for the treatment of pain and inflammation associated with podiatric conditions such as Achilles tendonitis, planter fasciitis, neuropathies, sprains and strains, and arthritis. Utilizing a patented combination of simultaneously produced wavelengths, MLS® Laser Therapy elicits both an intense anti-inflammatory and rapid analgesic response. Treatments are fast, safe, and painless, with no negative side effects.

Dia-Foot is a diabetic shoe company offering shoes from fourteen manufacturers including New Balance, Dr. Comfort, Brooks, SAS, Orthofeet, and Propet, to name a few. Dia-Foot manufactures both prefab and custom diabetic inserts. We accept either a foam box or a digital scan to manufacture the A5514 diabetic inserts. Dia-Foot offers a Medicare Compliance program to assist podiatrists in obtaining the documentation from the patient's PCP.

In addition, Dia-Foot manufactures the Pure Stride line of professional foot care products including Pure Stride orthotics, therapeutic flip flops and gel foot pads. We just introduced the new Pure Stride Golf orthotics, Pure Stride Bold orthotics, and the Pure Stride Ultra orthotics. Please call 877-405-3668 or visit www.dia-foot.com for additional information.

"We Want You!"—Dr. Jill and Jay at Dr. Jill's Foot Pads:

We would like to thank the more-than-12,000 podiatrists who have made us their full time 1-Stop Foot Pad Supplier over the last 22 years. And for those of you who have not been thinking about us but have not yet been purchasing your padding supplies from us we ask you to give us an opportunity to show you how good we are.

There has never been a better time to start working with us if you are not already. With reimbursements going down we can easily help you put additional dollars in your bank account by dispensing pads to your patients who buy pads anyway!

We will also SAVE you money on all of your BULK padding supplies and pads for your treatment rooms & drawers and keep your money where it belongs: with you!

We specialize in Felts, Foams, Mole-skin, Gels, TubeFoam, Cork, Rubber Cork, PPT, Poron, Pre-Fab Orthotics, Pre-Cut Pads and Rolls and more. No company in the nation has a larger selection of padding supplies. With over 5000 different padding selections we are sure we have what you need and if we don't have it we can make it in the USA!

1) Easy ordering via Toll FREE Phone, Toll FREE Fax, E-Mail, On-Line Medical

Professional Store, Live Chat or just give us a call and we would love to help! Ordering has never been easier 24 hours per day. We can even set up a DROP SHIP program directly to your patients.

2) The largest selection of padding supplies. MADE IN THE USA

3) The lowest guaranteed prices.

4) The highest quality raw materials.

5) No minimums.

6) Free shipping on ONLY \$100.00 orders.

7) The knowledge to get you what you need when you need it!

8) 99% of orders ship same day!

Earthwalk Orthotics has established itself as an industry leader for orthotic quality serving podiatry since 1995. Earthwalk is a long-standing ABC accredited centralized fabrication facility and exclusively serves doctors across the US (products never sold retail).

The lab differentiates itself by consistently providing physicians with exceptional product quality (doctors dispensing Earthwalk's orthotics average < 1% error rate), real-time professional & personalized service from experienced technicians, speedy turnaround times (orders typically ship within 5-7 business days from order receipt), and highly innovative technologies.

With a deep understanding of biomechanics and experience addressing even the most challenging foot pathologies, the Earthwalk Team welcomes the opportunity to provide support to the doctors it serves.

Strongsville, OH 44149
(800) 321-1348
Fax: (800) 432-9445
www.gillpodiatry.com

Gill Podiatry Supply Company is proudly celebrating ninety years of exclusively serving the podiatry profession. In those ninety years Gill Podiatry has represented many different manufacturers carrying thousands of brand name, generic, and even private-labeled products. They have also aided in bringing new products to market, like Pedi-Freeze.

Gill Podiatry is the exclusive distributor for Pedi-Freeze Spray, the most economical and cost-effective cryosurgical method on the market. Throughout the product's life span it has saved DPMs well over 1 million dollars. The 4 oz. canister is convenient, portable and easy to use. Pedi-Freeze Spray will freeze to -65°F/-54°C, which is very comparable to other canister based systems. This allows for a fast, safe and effective way for treating lesions of the skin including warts, skin tags, granulomas and fibromas. To isolate the lesion and protect the surrounding healthy skin from frostbite, always use the companion product Pedi-Shield protective paste. Pedi-Freeze Spray can also be used in conjunction with any cones or buds. This CFC-free, non-flammable, non-hazardous refrigerant gas should only be administered by qualified medical professionals.

Gill Podiatry announces the latest innovation and advancement in autoclaves, the Enbio S.

The Enbio S autoclave is the world's fastest B-class, air-removal (pre-vacuum) autoclave available. With a seven-minute processing time for unwrapped instruments and

fifteen minutes for pouches, it is ideal for the podiatry office. It is truly a tabletop sterilizer. At only 22" deep, 9.8" wide and 6.3" high, it easily fits on any treatment room or lab countertop. This may be the replacement for cold sterile trays that everyone has been looking for.

This Swiss-made autoclave has an incredibly intuitive touch screen and you can record your sterilization cycle data on a USB memory stick. Your patients and staff will hardly notice its ultra-quiet operation. It comes with a one year "door-to-door" warranty. In the unlikely event of a failure, Enbio will ship you a replacement device.

IRIS BIOENGINEERING (ToeTugger)

Toetugger.com
info@irisbioengineering.com

Hallux limitus/rigidus is the second most common condition affecting the first MTP joint. There is evidence that physical therapy is beneficial for this condition specifically, and that joint distraction in general can provide symptomatic improvement and joint preservation in cases of osteoarthritis.

However, few patients will undergo formal physical therapy with a trained provider for this problem. More likely, the podiatrist will recommend self-care at home with toe-pulls and other stretches of the great toe. However, these exercises are fatiguing and boring for patients, decreasing compliance. Until now, there was no assistive device to help patients with these exercises.

The new **ToeTugger™** consists of a cylinder that goes over the great toe and a lasso that is cinched around the base of the toe and then fastened under tension to the cylinder. The system thus provides continuous axial traction to distract the first MTP joint. The device can improve compliance by providing an easier way to do toe-pulls at home, even while engaged in other activities. It can be used anytime, or as a pre-stretch immediately prior to more focused toe manipulation or other athletic activities.

McClain Laboratories, LLC is a nationwide, full-service podiatric pathology and dermatopathology laboratory offering a wide range of diagnostic services including:

- Nails
- Skin
- Cysts
- Bone
- Wounds/Ulcers
- Aspirates (Gout)
- Wound PCR

McClain Laboratories, LLC is physician-owned by Steve A. McClain, MD—board certified in Anatomic & Clinical Pathology and Dermatopathology. Dr. McClain is a nationally recognized dermatopathologist, lecturer and author.

McClain Laboratories Features

- Fungal nail testing identifying species of organisms
 - Skin, soft tissue and bone pathology
 - Nerve fiber density studies from formalin fixative (no mixing)
 - Wound PCR
 - 24 to 48 hour turnaround time and STAT reports
 - Color photographs on every report
 - All insurance plans accepted
 - Easy access to our pathologists by phone and text
 - Superior customer service
- The Right Lab Makes All The Difference.

MEDICOOL

20460 Gramercy Pl.
Torrance, CA 90501
(800) 433-2469
www.medicool.net

Medicool is a leading provider of debriding drills to the podiatry community, with solutions for every practice as well as Hospital Foot Care Centers and VA Facilities.

The hazards of breathing airborne particles generated from the debridement of fungus toenails is something that should not be taken lightly. Many podiatrists and assistants have breathing issues as a result of years of debridement procedures. Many have now alleviated their breathing troubles by using a Medicool vacuum debriding drill.

If you, your staff and your patients are being exposed to potential health issues related to airborne debris during debridement procedures, we have a solution.

The Pro Vac™, The Pro Vac Classic™ and The File Stream™ debriding drills with built in vacuum offer powerful motors and a high suction power to collect all those harmful dust particles.

For those doctors looking for portability, the Pro Power 20K & Pro Power 35K cordless rechargeable drills offer the versatility and freedom to move between patient rooms or to when visiting nursing homes or doing house calls. These are high-torque 30,000 & 35,000 rpm powerful filing systems. The perfect piece of equipment for those with out-patient visits or multiple patient rooms.

Medicool offers the largest selection of carbide & diamond Burrs with over 100 different styles.

The newest Medicool product is their DiaSox diabetic socks—comfort socks that are suitable for diabetics and people with foot or leg swelling. They are seam-free with a unique knit top that helps prevent sagging without binding. Anti-microbial fabric treatment helps protect against fungal growth and bacteria.

RX24 Quadrastep system is an innovative and tailored approach to treating various foot types. The system uses a patented clinical algorithm that identifies and categorizes a patient's feet into one of 24 foot-types. A patient's foot-type will influence not only their gait but also the conditions and pathologies that afflict them throughout their lives.

The RX24 Quadrastep system takes the concept a step further and simplifies the 24 foot-type medical model into six sub-classifications known as quads that groups together four similar foot types. Each quad has its own very specific foot and gait characteristics. These foot types include severe pes cavus, mild pes planus, neutral, moderate pes planus, abductovarus forefoot and severe planovalgus feet. These six quad specific functional orthoses are biomechanically tailored to that of a true custom prescription. To provide superior patient education, a quad-specific in-

Continued on page 15

formation card is included with each pair that features possible clinical symptoms, key foot attributes, gait characteristics and more.

The RX Quadrastep system is easy to learn and can be quickly applied in a clinical setting. It also eliminates the need for costly and messy foot impressions. The devices can be stocked in-house ready for immediate fitting.

Nolaro's newest innovation is littleSTEPS, pre-fabricated foot orthoses specifically designed for kids. They deliver prescription-based correction closely matching the criteria of traditional UCBL devices. littleSTEPS provide an affordable alternative to custom orthoses, enabling early intervention and treatment of many musculoskeletal conditions common to children.

Orthofeet was established in 1984 by two brothers, a biomedical engineer, and a mechanical engineer.

Since 1984, the goal of OrthoFeet has been to use the combined knowledge of foot biomechanics, innovative therapeutic footwear features, and attractive design in order to alleviate symptoms associated with common foot conditions and provide comfortable, protective, and supportive footwear for all.

OrthoFeet shoes are covered by Medicare for people with diabetes and are a favorite of podiatrists and other foot care practitioners because of their unique ways of customizing the fit and improving support of the foot.

In 2008, an exciting new approach to lower extremity therapies began to take shape when storied Langer Biomechanics and Canada's premiere custom foot orthotic brand, The Orthotic Group (TOG), were united in a new venture called Orthotic Holdings, Inc. or OHI. Since then, six additional companies, all leaders in their space, were added to the OHI family of brands: Arizona AFO, SafeStep, Apex Foot Health Industries, PedAlign, MDI and Central Casting. Each of these companies built outstanding reputations by following a simple but essential set of principles including excellence in manufacturing, leadership in innovation and medical education, as well as superior customer, clinical and practice management support. As sister companies under the OHI banner, leveraging and unifying each other's deep experience and expertise, these exceptional brands are more powerful than ever in achieving their shared top priority: delivering products and services that result in optimal patient outcomes.

PEDICIS RESEARCH

(800) 748-6539
www.pedicis.com

Pedicis Research brings unique pharmaceutical products distributed exclusively to the practice of podiatry and dermatology. We specialize in developing novel formulations/solutions uniquely suited for treating the various diseases seen by podiatrists and dermatologists. Pedicis Research is a science-oriented company. We believe the best approach in bringing new products to market is through clinical research demonstrating our products' efficacy.

Our Products:

CIDACIN™ Antifungal Solution—is a unique product that uses dimethyl sulfoxide (DMSO) and other excipients to bring tolnaftate to the site of infection.

VIRGIN™ Advanced Wart Treatment—has been developed to treat resistant warts. Vircin employs an immuno-modulator along with salicylic acid and an antiviral to provide a one-two-three punch to painlessly combat plantar warts.

NEW HEMPCIN™—a unique fast-acting all-natural pain relief cream. Hempcin targeted pain relief contains full spectrum HEMP—including CBD, CBG, and other cannabinoids for strong pain relief and anti-inflammatory action at injured areas. This powerful formulation includes the cooling of menthol, the healing of arnica montana extract, and the movement and immune support of boswellia serrata.

PHYSICIAN CLAIM CORPORATION

4710 Southfield Green
La Crosse, WI 54601
(877) 385-0257
www.physicianclaim.com
Email: pcc@centurytel.net

Physician Claim Corp. (PCC) is a nationwide podiatry-specific billing company. This is their 30th year in business and their staff has over 150 years of podiatry billing experience.

"Our over-200 clients," reports Physician Claim, "have found that they can significantly reduce their staff once they hire us. On average our podiatrists only need 1 part-time person in the back office. Patient eligibility and pre-authorizations are their main duties."

It is key to note that by utilizing PCC, you only pay a per-claim fee that is a variable cost, not a fixed cost like permanent staff. If you see fewer patients, you pay them less. "We also go after every dollar of your insurance accounts receivable," adds Physician Claim, "which can more than pay for our services. We take all of your patient phone calls, which again saves on your staff time."

Because of these benefits, their clients have a better chance of riding out a rough economy or an illness.

"Even if you are not able to see as many patients right now," reports Physician Claim, "we can work on any accounts receivable you may have that could help bring in some income."

Fax: (410) 277-9988
www.pilgrimshoes.com

Pilgrim Shoes, a well-known supplier of diabetic footwear brands "Hoopoe" and "Areni One" over the last quarter-century, has declared its readiness for in-stock timely shipping despite logistics challenges.

The firm has increased its offerings of diabetic footwear, invested in some new styles, and beefed up its current inventory.

Pilgrim Shoes is now offering an expanded styles selection; they've invested in new technology and materials to provide podiatry practices with a one-stop shopping solution for PDAC-reviewed diabetic shoes and A5512 off-the-shelf diabetic inserts. And in addition to their familiar lines of comfort shoes and sandals Pilgrim is adding new styles of winter boots and some slip-resistant footwear along with very stylish and comfortable athletic shoes.

Says Pilgrim, "Challenges of last few years allowed us to review what we do as a company and what we can offer to practitioners to make their lives easier. I want to say to podiatrists: your supply chain at Pilgrim Shoes is ready as never before."

Pilgrim Shoes' brands of diabetic and orthopedic footwear are distinguished by their comfortable fit, the result of using German-engineered lasts with anatomically shaped contoured bottom and heel cup for better accommodation of foot deformities. Pilgrim Shoes offers many fashionable and functional styles in Hoopoe and Areni One brands, some of which are available up to size 15 Men's and 12 Ladies, and up to WWW(6E) width. All styles are PDAC-reviewed as A5500 for diabetic patients. Attractive sample shoe displays are available, and doctors may phone in orders or submit online or by FAX. Same day shipping, free returns, and very competitive pricing, always in stock guaranteed.

email: cs@prolab-usa.com

ProLab Orthotics was founded by podiatrists for podiatrists. Orthotic therapy education has been a cornerstone of ProLab's philosophy and success for thirty-five years. Our Medical Consultants, Dr. Larry Hupp and Dr. Dianne Mitchell-Pray, are available to our clients to discuss challenging cases. Our Biomechanics Director, Dr. Kevin Kirby, writes a monthly Biomechanics & Orthotic Therapy Newsletter highlighting many important topics and reinforcing concepts taught in podiatry school.

Located in Napa, California, we manufacture truly custom foot orthotics by hand to your exact prescription. We strive for the best possible outcomes for you and your patients. In addition to our quality custom products, we also offer a full line of prefabricated foot orthotics. The P3 Adult prefabs are semirigid orthoses with a full-depth heel cup, forefoot valgus correction and medial heel skive. They are available with or without a rearfoot post based on your patient's needs. ProLab's Kiddythotics® are the first children's prefab designed with a deep heel cup, medial flange, medial heel skive, and rearfoot post in a rigid shell, making them an excellent choice to treat pediatric flexible flatfoot.

23230 Red River Dr
Katy, TX 77494
(281) 819-6890
www.provider-link.com

If your phone is not answered every time a patient calls and they are leaving voicemails because your staff is busy, you are losing patients and money. When a patient can't get a live person to schedule an appointment they will just call the next practice on their list. Virtual assistants can make sure your phones are answered every time, all the time!

ProviderLINK can help grow your practice and save money. With over 25 years of podiatry practice-based experience, we specialize in administrative tasks such as appointment scheduling, scribing, patient follow-ups, insurance benefits verification, billing, insurance claims follow-up, and more at over 50% costs savings.

Virtual assistants (VAs) can add value and perform a variety of tasks in a medical practice that can enhance productivity and growth at a fraction of the cost.

- VAs are valuable because they can provide support for several tasks that may be ignored due to on-site staff constraints because they are taking care of patients. VAs can often handle multiple small administrative tasks from your entire team, freeing up more time for direct patient care.

- Solve your staffing issues with experienced virtual assistants. Save over 50% of your employment costs.

Whether you run a busy clinic, manage a group practice, or operate a solo medical office, we know that office staff often find themselves overwhelmed with administrative tasks. Our virtual assistants are equipped with the expertise to seamlessly integrate into your workflow allowing doctors and office staff to focus on delivering exceptional patient care.

Our services allow medical practices to optimize their operational efficiency, improve patient satisfaction, and ultimately grow their bottom line. Experience the difference that our virtual assistant services can make for your medical practice today. Let us help you reclaim valuable time and resources so you can focus on what matters most—de-

livering exceptional healthcare services to your patients.

The Remy Class IV Laser is 510K, FDA-Cleared to treat a myriad of foot/ankle conditions. The technology is changing the way DPMs treat their patients for pain/inflammation, plantar fasciitis, Achilles tendonitis, post-operative healing, neuropathy, wounds, as well as fungal toenail. Additionally The Remy treats plantar warts, mosaic warts and IPKs without the need for a local anesthetic.

The Remy is a 30-watt, dual-wave laser weighing only four pounds. This makes transporting the laser to and from different treatment rooms or office locations quick and easy while offering viable power to treat myriad foot/ankle conditions.

When you choose the Remy you receive unparalleled training and ongoing service from a DPM who knows and understands your needs—Dr. David Zuckerman. Dr. Zuckerman knows that your investment must result in desired patient outcomes, affordability to the patient, and it must result in ROI quickly for the practitioner. Combining power, portability, function and affordability, The Remy checks all the boxes for a DPM looking to implement high-end laser therapy in his/her practice.

Physicians can contact Dr. Zuckerman at 856.229.2939 (call or text) and/or email davidzuckerman@dpm@gmail.com. To see complete specifications of The Remy and to view DPM testimonials, visit www.RemyLaser.com.

By restoring mobility to thousands of patients over the past twenty-five years, the Richie Brace® has become the gold standard for AFO therapy implemented by podiatric physicians. With seven models including the patented Arch Suspender, the Richie Brace® family of products can address all of the common musculoskeletal conditions affecting the foot and ankle. The Richie Brace is supported and provided to health care professionals by a network of authorized distributors who can be accessed at <https://richiebrace.com/physicians/distributors>.

SOLE MARKETING (division of Podiatry Content Connection)

401 Main St., Ste. 100-280
Metuchen, NJ 08840
(917) 572-5088
podiatrycc.com

Podiatry Content Connection has launched a first-of-its-kind program

to help DPMs promote their in-office orthotics sales. PCC's Sole Marketing™ System was developed to add thousands of dollars to your practice revenue.

Program director Randy Rosler breaks down the numbers: "For a pair of custom orthotics, a podiatrist can spend \$100 but sell to a patient for \$500 [much less than the \$1000+ costs at Good Feet]. That's a \$400 profit per pair to you! If a practice sells a doable 2 pairs of orthotics a day for five days—that's ten pairs at \$400 profit each, for a total of \$4000 per week! These numbers are game changers. \$16K per month, \$192K per year..."

What you'll get using the Sole Marketing system:

- Orthotics Featured on Your Website
- Orthotics Landing Page
- Orthotics Emails to Patients
- Designed Orthotics Banner
- Orthotics Appointment Form
- Monthly Orthotics Blogs
- Monthly Orthotics Ads (Spot Campaigns)
- Branded Orthotics eBook For Patients
- Social Media Digital Library (FB & IG)
- Patient Room Poster, Benefits of Orthotics

It's clinically proven that podiatrist-prescribed foot orthotics decrease foot pain and improve function. What if they could be provided with more efficiency, accuracy, and patient buy-in?

SOLO was the first laboratory to offer affordable foot scanning technology to the podiatry community and now is proud to offer an adjunct to their custom orthotics solutions with Digitsole® Pro, which captures objective data of the patient's biomechanical movements while the patient is IN MOTION.

Using patented AI-powered algo-

Continued on page 20

This Buyers' Guide is also available at
podiatry.com/Buyers_guide.cfm

rhythms and sensors, this innovative technology allows practitioners to assess movement objectively, not subjectively or while using the older, static method. It is an affordable tool for walking and running gait analyses compared to high-cost laboratory-based equipment. The results of the dynamic assessments are used to support the orthotic build and streamline clinical decisions.

In less than 3 minutes, this easy-to-use and easy-to-implement app and sensor technology provides:

- Visual confirmation of the assessment.
- A report to show patients their unique need for orthotics.
- Precise and supplemental data for insurers and referrers.

Order custom orthotics digitally or traditionally and experience quality orthotics from SOLO. The lab also offers a full line of Richie braces.

SOLO has been making patients' lives better since 1983. They pride themselves on their 98% satisfac-

tion rate and their experienced Customer Care team.

Superfeet.com/medical
customercare@superfeet.com

Superfeet Rx, the medical division of Superfeet Worldwide, is proud to announce the launch of SAM (Scanning App by Materialise), an innovative new app that integrates seamlessly with Materialise Footscan assessment technology. SAM is a powerful 3D scanning tool for iOS devices, allowing healthcare practitioners to capture precise 3D scans of their patients' feet without the need for any additional hardware.

The integration with Materialise Phits Suite creates an easy-to-use digital workflow that incorporates software AI to support practitioners in analyzing and designing custom 3D-printed orthotics. The visualization technology provides an in-depth pressure and volumetric overview of the entire foot, while delivering clear insights to patients.

The addition of SAM further elevates Superfeet Rx's existing suite of digital, end-to-end orthotic solutions, including pressure plate scanning, assessment technology, 3D printed custom orthotics and time-tested over-the-counter solutions. Combining pressure gait analysis and 3D volumetric scans, the precision data capture offered by Materialise and Superfeet Rx is truly unmatched.

SAM eliminates the need for traditional casting methods such as foam boxes or plaster casting and expensive bulky 3D scanning equipment, as the user-friendly app harnesses the 3D-scanning technology built into iPhones and iPads. SAM captures highly precise 3D scans of the patient's feet, providing practitioners with a wealth of data to use for diagnosis and treatment planning.

Fax (517) 663-8380

www.thetetracorp.com

For three decades, The Tetra Corporation has stood at the forefront of tolnaftate technology, consistently setting the standard for innovation. In a pivotal moment in 2021, we secured a groundbreaking patent for Formula 7[®], the world's first tolnaftate micro-emulsion. Our journey began in 1989 with the development and patenting of Soluble Tolnaftate, a testament to our enduring commitment to pioneering advancements.

At Tetra, we go beyond the ordinary, delivering a comprehensive range of doctor-dispensed topical treatments, skin conditioners, and dietary supplements. Our unwavering dedication to the practice of podiatric medicine is underscored by our products' innovation and clinical validation. Step confidently into the future with Tetra's renowned brands, including Formula 7[®], Formula 3[®], FungiFoam[®], CleanSweep[®], Kamea[®] 20, Kamea[®] G, and CoLig-10[™].

Breaking new ground in patient care, Tetra proudly presents Alaplex[®], a revolutionary approach to the management of peripheral neuropathy symptoms. In the fall of 2022, we unveiled GlyCylic[®] Wart Remover, a paradigm-shifting, painless, and non-scarring home treatment. Harnessing an anti-viral formula, GlyCylic[®] not only eradicates HPV but also incorporates an immunomodulator to thwart recurrence. March of 2024 saw the introduction of Joba Silk[®], a moisture marvel designed to restore and maintain optimal moisture levels for your patients' feet, hands, body, and face.

Celebrating the four-year milestone of our One-Ship Program in March, Tetra continues to redefine convenience in healthcare. This program ensures direct-to-door shipments of prescribed treatments, offering unparalleled ease for both medical practitioners and their patients. Enroll today to experience the seamless efficiency of One-Ship.

When you reach out to Tetra, a real person is ready to provide unparalleled service, adhering to our "one-call resolution" policy. Our commitment to excellence extends to Formula 7[®] Solution and Rapid MicroGel[®], the sole paraben-free Soluble Tolnaftate antifungal microemulsions fortified with cosmetic ingredients and bactericidal agents. Jojoba oil, Soluble Tolnaftate, and tea tree oil combine to

create an oil phase with potent antifungal, antiseptic, germicidal, and antibacterial properties. The water phase, enriched with N-acetyl-L-cysteine (NAC) and urea, hydrates, softens, and opens keratin for enhanced drug penetration, while NAC increases tolnaftate flux to the site of involvement, providing bactericidal properties.

As an avid supporter of podiatric medicine, Tetra is a fixture at conferences nationwide, contributing to the advancement of the field. Connect with Tetra today at 800-826-0479 and witness firsthand the excellence that defines our commitment to transformative healthcare solutions.

sessions will showcase esteemed instructors who will present cutting-edge and relevant scientific and patient care lectures, including biomechanics and sports medicine topics unique to the conference. This year a new billing and coding session will be added for doctors to get much-needed information to help them with this stringent task. Doctors of podiatric medicine requiring radiology contact hours will be able to earn all they need to renew their licenses by attending general sessions and taking the on-demand fluoroscopy course offered free of charge to all DPM registrants. To meet the demands of out of state licensees, The 2024 Western will provide the opportunity to earn 3 hours of opioid-related pain management CECH.

Podiatric Medical Assistants can enjoy 2 days of combined administrative and clinical training for all office team members on Friday and Saturday of the event. Friday will offer ad-

ministrative best practices and billing & coding hot topics; then on Saturday, assistants will be able to practice and brush up on back-office clinical skills.

Attendees will be invited to participate in games to spice up the long days of learning. Vendors will be able to meet the needs of every podiatric surgeon, practice, and team with their diverse products and services showcased in the exhibit hall.

California Podiatric Medical Association and American Podiatric Medical Association members will receive reduced registration rates, and PICA policyholders can earn a 15% premium discount by attending the PICA risk management presentation to be held on Friday morning of the conference.

Attendee and exhibitor registration is now open for The 2024 Western. For more information, visit www.TheWestern.org.
