

2019 BUYERS' GUIDE

If knowledge is power, then time is surely money. That's the idea behind the *Podiatry Management* Annual Buyers' Guide: to save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

PART I

This year's guide is divided into two parts. Part I lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special online edition. Click anywhere on the shaded area for each advertiser and you'll go directly to their website.

PART II

Part II, which starts on page 31, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and product name; thus, if you're looking for Amlactin under "Pharmaceuticals: Moisturizers," you can find this brand name even if you don't know that Sandoz is the manufacturer. Click on the boldface companies and organizations and you'll go directly to their website.

HOW TO USE THIS GUIDE

Another cross-referencing feature makes it easier for you to find related products. For example, if you're looking in the "Orthotics, Prefabricated" category, you will also find the cross-reference "See also: Insoles, Heel Supports, and Pads."

If you have an office manual, we recommend that you photocopy these pages and add them to your source lists. That way, the next time you run short of x-rays, for example, you can quickly locate a supplier. Incidentally, we encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support magazines such as this; and many, as well, contribute to podiatric student scholarships and research.

20/20 Imaging, a division of Konica Minolta, a leading provider of digital imaging solutions for podiatry for over 17 years. 20/20's portfolio of DR panels and digital x-ray systems, along with our ultrasound solutions, use the latest technology for the best image quality. The new MOMENTUM-DR and iRAY 1012V Cesium panels provide the best 1-2 punch available.

Our extremely efficient high-frequency output x-ray unit with anatomical programming is designed to minimize dose and advance patient care. The x-ray unit, coupled with either DR detector, provides outstanding image quality.

20/20 Imaging Opal-Pod software offers secure image viewing, storage, manipulation, and EHR integration.

Additionally, 20/20 Imaging offers cutting edge ultrasound. Featuring exceptional image quality, ease of use, and unmatched training, the HS1 and MX1 have become the #1 choice for ultrasound in podiatry.

Learn about our advanced digital technology and reimbursement incentives with our experienced specialists today!

A STEP ABOVE HEALTH MANAGEMENT SYSTEMS

Rt 72
Barnegat, NJ 08005
(877) 448-6233
www.astepabovehealth.com

A Step Above Health Management Systems is a podiatry-specialized medical billing company for out-source solutions. They offer comprehensive, personalized revenue cycle management solutions to maximize your practice's financial health, allowing you to focus on clinical care and managing your business. A Step Above provides medical billing management, including claims scrubbing, electronic and paper claim submission, payment posting, denial management, appeals, patient payment collections, and more. They also work the old accounts receivable that they inherit with a new client.

Nicole Arnold of A Step Above cites an example of their success as demonstrated by an Annapolis, Maryland client: "The client's former billing company was destroying the practice financially. Claims were not getting paid, there was no follow-up, and everyone pointed fingers at everyone else. Thousands of hard-earned dollars weren't being collected."

"Our company took over within a couple days of the initial phone call. Without any training on the client's practice management software, we learned the software quickly. We not only got the current claims paid, but we recovered close to \$200,000.00 of old accounts receivable. We take great pride in providing each client with the personal service and dedication they deserve. We fight for every dollar and don't give up. Let us partner with your practice. We can reduce your overhead costs, increase your

revenue, and lower your accounts receivable. Most importantly, we will save you time!"

Email: theacademy@aafas.org

The mission of the Academy of Minimally Invasive Foot and Ankle Surgery (AMIFAS) is the promotion and education of minimally invasive foot and ankle surgery. AMIFAS is an international association of multi-disciplined surgeons, including podiatrists, orthopedic surgeons and allopathic physicians, who are dedicated to the correction of foot and ankle pathology using minimally invasive procedures. The mission is to improve public health through education, ambulation, rehabilitation and research. Membership includes physicians in North America, Central America, South America, Europe, Asia and the Middle East. AMIFAS also has a mechanism in place to help physicians become MIS Board Certified.

THE ACADEMY OF PHYSICIANS IN WOUND HEALING (APWH)

2806 Reynolda Rd., Ste. 194,
Winston Salem, NC 27106
(336) 923-5604
www.APWH.org
Email: info@APWH.org

APWH, the Academy of Physicians in Wound Healing, is the fastest growing physician-oriented organization in wound care. APWH was initially formed in 2011 to help provide physician-directed education and advocacy. APWH emphasizes the diagnosis and management of diseases as they affect wound healing as well as proper treatment of wounds, differentiating it from other organizations in the medical field.

The mission of the APWH is to enhance the treatment and decrease the pain, suffering and dysfunction of patients with complex wounds. Our purpose is to increase the quality of life for these patients both domestically and worldwide through physician and patient education and advocacy, as well as engaging in legislative initiatives involved with the delivery of healthcare.

Our mission: To positively change the lives, practices and communities of podiatric physicians through leadership education, practice management education and sharing knowledge.

The American Academy of Podiatric Practice Management (AAPPM) is podiatry's premier association dedicated exclusively to practice management education. Nearly 2,000 established practitioners, new practitioners, residents, podiatric assistants, executive office managers, staff members and students have learned that joining the Academy family can change their practice and change their lives.

For over 50 years, the American Academy of Podiatric Practice Management has positively impacted the lives of practitioners and their staff by integrating improved patient care with proven practice management strategies. Whether you are an established practitioner, new practitioner, multi-physician practice, or a doctor looking to retire, the AAPPM is here for you.

We invite you to join the AAPPM and find out firsthand how the positive sharing attitude of our leadership and members, our unique practice management meetings, mentoring programs and many other educational resources can help you change your practice and change your life.

(248) 855-7740
Fax: (248) 855-7743
www.ables.org
Email: info@ables.me

Because board certification is widely accepted as the touchstone of physician quality, and is coveted by physicians for the professional esteem derived from this rigorous, intellectually invasive peer review process, it must never be gratuitously granted.

ABLES has established a fair and reliable process by which the sum of one's academic knowledge and that special wisdom borne of experience may be evaluated to show that he merits certification by this board via either of its two methods. ABLES has also implemented an unmatched, mandatory, periodic, performance-based recertification process by which those who are certified by this board may demonstrate continued merit.

ABLES has set for itself the task of creating an interprofessional membership. ABLES already has MDs and DOs among its members. This will foster the exchange of information on scientific advances and evolving professional philosophies. It will facilitate the creation of a uniform standard of care for all professionals treating the lower extremity. It will help to obliterate senseless discrimination among academic degrees and organizational affiliations in the matter of professional privileging in hospitals and MCOs.

Since 1993, physicians have chosen top-rated products from AMERX Health Care to increase patient compliance, boost positive outcomes, and grow practice profits. Long-known for the top-rated AMERIGEL® line of topical wound and skin care products featuring Dakin® (oak extract), AMERX Health Care has expanded their offerings throughout the years. A comprehensive suite of wound care products including HELIX3® Bioactive Collagen, AMERX® Wound Care Kits & Dressings, and the EXTREMIT-EASE® Compression Garment is also available to help you address today's wound and skin care challenges, enabling your patients to live a healthier life.

New programs are now in place to help you unlock your practice's hidden potential. AMERX Health Care's Turn-Key DME® Program provides the support needed to: streamline protocols, navigate Medicare DME requirements, properly bill for DME Wound Care supplies, and more efficiently dispense DME Wound Care supplies. Mix-and-match **Turn-Key DME® Patient Direct (Zero-Inventory Dispensing)** and/or **Doctor Direct (In-Office Dispensing)** to create the personalized DME dispensing program that best fits the needs of YOUR practice!

Contact your AMERX Health Care Account Manager at 800-448-9599 today to request your personal practice analysis and ask about available options to boost your practice growth.

(844) 637-4637
www.anodyneshoes.com

At Anodyne, we've avoided the commercial vision of quick and easy comfort. Instead, we've returned to the fundamental roots of footwear—meticulous design, quality craftsmanship, and rigorous attention to detail. From a product and service standpoint, we're the absolute best at what we do.

Our shoes are the lightest diabetic shoes in the industry, and feature all of the standard features of A5500 footwear (extra depth, protective toe box, stiff shank, strong heel counter). Additionally, all styles

have soft microfiber linings that are treated with a proprietary antimicrobial spray before shipping.

We have a full-service lab hand-crafting A5514 custom accommodative inserts, L5000 toe fillers, and any kind of shoe modification requested. Turnaround times on custom inserts and toe fillers is 24 to 48 hours. We've also created and released the first fully functional and portable iPad scanner app for accommodative inserts, eliminating the cost, shipping time, and headaches associated with impression foam.

You deserve the best partner for your shoe program.

Continued on page 6

2019 BUYERS' GUIDE

for podiatrists and their patients with diabetes. Our mission is to show improvement in the incidence of ulcers and amputations and to prepare podiatrists for value-based reimbursement. To accomplish this, Arche Healthcare is building an exclusive network of podiatrists called the Arche LEAP Alliance (ALA) and equipping members with Arche OPTYX, a proprietary tablet-based software platform. The ALA protocols and tools enable the DPM to identify, stratify and appropriately intervene in the care of their diabetes patients using evidence-based guidelines to drive evidence-based practice.

Arche OPTYX provides practices with data that allows them to manage their diabetes population more effectively and efficiently, and shows them how they are performing against standards and each other. Near real-time analytics allow measurement of outcomes and hold each practice accountable for their results.

The Arche LEAP Alliance protocol also includes home monitoring which extends the reach of the practice outside of the walls of the office. Leveraging technology in the patient's home allows the opportunity for early intervention when a patient experiences a problem by driving them back to their doctor for evaluation and intervention.

COUNCIL FOR MEDICAL EDUCATION AND TESTING (CMET)

(336) 923-5064
www.COUNCILmet.org
Email: info@

COUNCILmet.org
The Council for Medical Education and Testing (CMET) is the only organization of its type in the United States that is physician-specific in membership and

was developed for the sole purpose of providing certification for physicians in wound healing. CMET certifies all prescribing physicians, MD, DO and DPM.

The CMET certification is recognized by organizations such as the Academy of Physicians on Wound Healing (APWH), the American College of Lower Extremity Surgeons (ACLES), the Israeli and Taiwan wound healing associations and many others. Thought leaders such as Allen Jacobs and Dan Davis (past president of APMA) have recognized CMET as the first and only organization in the United States that provides true parity with the same certification for MD as it does for podiatrists—an equal playing field for all physicians, and a model for future organizations.

www.curamedix.com

CuraMedix is the leading US distributor of STORZ Medical EPAT devices. Extracorporeal Pulse Activation Technology (EPAT), sometimes referred to as ESWT or Shock Wave, is an evidence-based, non-invasive approach to treating acute and chronic musculoskeletal pain.

This proprietary technology is based on a unique set of pressure waves that stimulate the metabolism, enhance blood circulation and accelerate the healing process.

Healthcare professionals who integrate EPAT earlier in their continuum of care find that they are able to get their patients better faster, reports Curamedix.

Benefits of this non-surgical treatment include no scarring, no risk of infection, no anesthesia required, no downtime and faster, easier healing.

CuraMedix products for podiatrists include the OrthoPulse Ultra (radial) and the DuoLith SD1 TT (focused shock wave).

The OrthoPulse Ultra acoustic pressure wave device combines Extracorporeal Pulse Activation Technology (EPAT), innovation and

performance with unmatched clinical and economic value for treating acute and musculoskeletal pain.

The FDA-approved DuoLith SD1 TT is the next generation of Extracorporeal Shock Wave Therapy (ESWT), with focused Cylindrical-Source technology, as a nonsurgical treatment for pain associated with chronic proximal plantar fasciitis.

DIA-FOOT

3400 Fairlane Farms Rd., Ste. 7
Wellington, FL 33414
(877) 405-3668
www.dia-foot.com

Dia-Foot is much more than a diabetic shoe company. We offer podiatrists multiple ways to bring potential revenue streams to their practice.

Dia-Foot offer diabetic shoes from 14 manufacturers for those customers who participate in the Medicare diabetic shoe program. We offer shoes from New Balance, Dr. Comfort, and SAS, just to name a few. Dia-foot manufactures the A5514 diabetic inserts.

Dia-Foot is a diabetic shoe vendor for many insurance companies in Florida and around the country, including Humana. Your office has the opportunity to join our growing insurance network. By joining our network your office can get paid on diabetic shoe referrals we send to your office from Dia-Foot. Please email veronica@dia-foot.com for further details.

Dia-Foot is also the manufacturer of the Pure Stride line of professional foot products, including the new Pure Stride Flip Flops. The flip flops feature a deep heel cup, enhanced arch support and a declinated forefoot, helping to relieve heel and arch pain. Also available is the new Pure Stride RX full-length orthotic with memory foam.

www.dpm-aire.com

DPM-Aire offers the New-Aire line of air purifiers direct to podiatrists. These air purifiers are designed to remove the most dangerous health-threatening sub-micron-size nail dust particles and bio-aerosols from the treatment room and podiatric office environment.

These air purifiers take over where point-source nail dust vacuums and dust masks fail. Published studies show that these vacuums still allow from 8 to 75% of nail dust to escape into the treatment room air for doctors, staff and patients to breathe. These studies also show that podiatrists suffer significantly higher rates of respiratory diseases. The most recent studies have linked the smallest of these particles to sudden MI's. Podiatrists who care about themselves, their families and staff place New-Aire units in all treatment rooms.

GO4-D

www.go4-d.com
(888) 353-4643

HP and Go 4-D Inc. announced they will use biometric scanning and 3D printing to modernize the process used to create custom orthotics. The alliance includes the distribution by Go 4-D of FitStation powered by HP throughout the North American medical market.

FitStation combines 3D foot scanning with dynamic gait analysis to enable both orthotic recommendations and 3D printed custom orthotics, prescribed from each person's unique biomechanics. Using FitStation, GO 4-D will deliver comfortable, precise and cost-effective custom orthotics.

"Our goal is to provide practitioners with the ability to precisely prescribe, a true custom 3D printed product for optimal biomechanical function and comfort," said Paul Linton, CEO, Go 4-D. "FitStation is a disruptive enabler by solving a crying need for modernizing a new era for customer orthotics."

The new 3D printed custom orthotics are based on the thousands of data points that precisely capture the shape and movement of each foot. The unique biomechanical lattice-design of the Go 4-D 3D printed custom orthotic allows the doctor to design with a precision that had not been achieved until now.

FitStation is a truly transformative platform that is improving people's lives and changing the way people purchase custom orthotics," said Edward Ponomarev, general manager, FitStation powered by HP. "Go 4-D is perfectly positioned to pioneer the digital transformation of custom 3D printed orthotics."

Sammy Systems (also known as ICS Software, Ltd.) has been serving the podiatry community for over 30 years.

Their software and services allow podiatrists to successfully run their practices. The robust and comprehensive product suite includes a full-featured practice management and electronic health record system that makes it easy for podiatrists to schedule, manage, and bill patients. Their comprehensive billing service, introduced in 2018, is fully integrated with the EHR and leverages their unique knowledge of podiatry to help doctors submit and collect payments quickly and efficiently.

SammyEHR has built-in MIPS tracking and support to allow doctors to follow their normal care while the software takes care of all the MIPS administrative work. More than 800 of their providers received a 100 MIPS score for 2017 reporting. Sammy Systems allows podiatrists to focus on their patients and not worry about the regulatory burdens. ICS's reputation and customer retention are the result of the firm's constant enhancements and the best customer support in the industry.

Sammy cloud allows customers to use the SammyEHR in a cloud environment, improving the security while

allowing access from any browser. The cloud solutions reduce customers' hardware needs and improve monitoring and service to their customers.

Sammy Systems' suite of services include Sammybilling, www.Checkmedicare.com, www.CheckEligibilityNow.com (eligibility verification for 500+ insurance companies), www.MedXpressclaims.com (claims processor and network service vendor for Medicare and other carriers throughout the country) and www.mipsregistry.net (MIPS registry guidance and upload to CMS).

Exciting news: IOL3D Scanner app paired with the Structure Sensor scanner and your iPad have the ability to scan patients for the Arizona Brace. With one of the largest footwear selections, highest quality orthotics and value added solutions—IOL Lab is the clear choice for today's practitioner.

Each custom orthotic is hand-made in the USA and inspected during every stage of the manufacturing process. It's not just the IOL Lab technologies that make a superior product; it's the commitment each team member puts into the final product. That's what sets Integrated Orthotic Lab apart.

The IOL3DScanner app is now available on iTunes. The app was developed with a number of enhancements to improve turnaround times and provide accurate, true 3D data. Practitioners save 100% of the costs associated with time, casting supplies and shipping costs.

Our app's benefits:

- Portable
- No Mess
- Easy-to-use solution: scan the patients feet, complete order form and send.

A quality vendor relationship is only

possible through unparalleled service. Think of IOL Lab as an extension of your business. We are your outside orthotic specialists. This means that alongside our commitment to delivering a quality product, you're also getting the kind of service you'd expect from one of your own employees.

JM ORTHOTICS

615 N. 3050 E., Ste. A6
St. George, UT 84790
(800) 804-3910
Fax: (435) 251-8505
www.jmorthotics.com
Email: info@jmorthotics.com

JM Orthotics was founded by John & Mike [hence the JM] back in 2002. It is a small family business [they are brothers-in-law] that focuses on providing quality, unique products primarily for the podiatry profession.

When designing the first style, the goal was to create a thin, strong device that would fit in any shoe and be heat-moldable to fit exactly to the patient's foot. The challenge was material. Everything they tried was either too weak or would not mold at a low enough temperature.

After some initial testing and several failures, they came up with something new. It worked—in fact, it worked so well that John had to quit his job to run the company. In the beginning they started in the basement of John's house working 14-hour days to fill orders. Today with several thousand customers they are growing and developing new products that are among the best in the market for medical profession-

als. We hope you enjoy our orthotic devices.

KLM Laboratories manufactures foot orthotics and ankle foot orthotics with an emphasis on quality and service. We fabricate custom orthotics and produce prefabricated products that are used in medical and retail locations worldwide. KLM is leading the way adopting the newest technological advances in orthotic manufacturing by applying the use of 3D Laser Imaging and routers. Our lab experts demonstrate exceptional skill

in processing scanned images as well as traditional plaster casts utilized by foot care professionals. We continue to establish new standards in the foot orthotic industry by offering to place private labels on custom or over the counter devices. KLM demonstrates how applying innovation and creativity to orthotic technology can stimulate the foot orthotic industry. Join the experts at KLM and we could be the secret to your success.

A member of OHI's growing family of companies focused on treating conditions and diseases of the lower extremities, Langer Biomechanics has been a leading provider of lower extremity care solutions to health-care professionals for more than forty years. Founded in 1969, Langer is the preeminent fabricator of superior-quality, custom foot orthotics. The company also distributes PPT, a proprietary, soft-tissue supplement for cushioning, durability and shock absorption; and other DME products.

Langer is renowned for its focus on product and technological innovation. The company's ScanCast 3D represents the leading edge in foot scanning technologies.

Langer's first priority is in partnering with its healthcare providers around the common goal of achieving optimal patient outcomes. The company's corporate philosophy is

deeply rooted in perpetual innovation, industry-leading product quality as well as its highly-regarded and progressive educational support.

The company's enduring success and industry leadership is rooted in the recognition that the practitioner/laboratory relationship is a true partnership. Practitioners invite Langer to engage in the treatment of their patients. That uncommon trust and confidence is deeply valued by every Langer employee and the constant reinforcement of that relationship is the company's highest priority.

"We Find Fungus"

McClain Laboratories is a physician-owned and operated podiatric pathology and anatomic laboratory serving the USA from Smithtown, NY. Our full-service laboratory provides 24 to 48-hour turnaround on studies of all types of pathology, including dermatopathology, nail fungus, wounds, ulcers, cancers, warts, digital mucous cysts, bunions, hammertoes, small nerve fibers, and gout.

McClain Laboratories uses proprietary methods to identify fungal infections, making false negatives a thing of the past.

McClain Laboratories specializes in histopathologic evaluation of tissue biopsies, with an expertise in skin, nail, and foot pathology. From specimen pickup to diagnosis, McClain clients are served by our friendly and professional staff dedicated to superior customer care.

McClain Laboratories' Medical Director, Dr. Steve A. McClain—a nationally recognized dermatopathologist and lecturer—supports the profession of podiatry by sponsoring educational programs and donations to the colleges of podiatry and local podiatry society chapters.

McClain Laboratories Features

- Same-Day and STAT Courier Service
- FedEx Express Pickup
- 24 to 48 Hour Turnaround
- Reports with color images, diagnosis, and ICD-10 coding

McClain Laboratories Services

- Dermatopathology of the foot and leg
- Dermoscopic evaluation of specimens

- Fungal nail evaluation
- 2nd Opinions to R/O False Negatives
- One Step ENDTM nerve fiber density test (formalin only—no mixing)
- Foreign body identification
- Accurate detection and identification of microorganisms
- Analysis of delayed wound healing
- Direct immunofluorescence testing
- A wide array of immunohistochemistry techniques

MD BUYING GROUP

(888) 863-5303
https://mdbuyinggroup.com

MD Buying Group is a medical purchasing group started by physicians to increase the buying power for all physicians. Founded in 2005 by Joel Lerner, DPM, who understood that the savings advantage of buying medical supplies as a group resulted in great purchasing power. MD Buying Group allows physicians to purchase all medical and non-medical supplies at a price far less than any single office is able, in an easy-to-use and secure online shopping experience. Since 2005 MD Buying Group has grown to nearly 4000 members and has introduced their own brand to bring costs even lower for their members. The group has exclusive partnerships with multiple companies, including PAL orthotics, allowing members to buy any product for as much as 50% less than typical catalog pricing. Members also enjoy additional savings on overstock items and weekly specials. There are no membership fees, so join over 3800 doctors for amazing savings

MEDICOOL

20460 Gramercy Pl.
Torrance, CA 90501
(800) 433-2469
www.medicool.net

Medicool, a leading manufacturer of debriding drills to the podiatry community, offers solutions for every type of practice.

Medicool believes that the hazard of breathing airborne particles generated from the debridement of fungus toenails is something that should not be taken lightly. Many DPMs and their assistants have breathing issues as a result of years of debridement procedures. Many have now alleviated their breathing troubles by using a Medicool Vacuum Drill.

If you, your staff and your patients are being exposed to potential health issues related to airborne debris during debridement procedures, Medicool offers a solution.

The Pro Vac™ and The File Stream™ Debriding Drills with built-in vacuum offer powerful motors and a high suction power to collect all those harmful dust particles.

For those doctors looking for portability, the Pro Power 20K cordless rechargeable drill offers the versatility and freedom to move between patient rooms or to travel to nursing homes. It is a high-torque 30,000 rpm powerful machine and is indicated particularly for those with outpatient visits or multiple patient rooms.

Medicool also offers a large selection of carbide & diamond burrs in over 20 different styles.

Massena, NY 13662
(800) 874-4295

*Website under construction

Nature-Fit orthotics mimic the ideal profile of the foot (unlike custom orthotics) both at rest and in motion. Our proprietary, injection-molded, polymer design allows our orthotics to change shape the way the foot changes shape, allowing the arch to move downward appropriately (unlike rigid insoles) while preventing flattening (unlike soft insoles).

A naturally optimal fit for your patients...and you! Benefits to the patient include: a thin design allows them to fit in existing shoes, strong material prevents throwing away an orthotic that does not last or does not work, and Nature-Fits are odor-free, anti-slip, easy-to-clean and durable. Benefits to YOU include: No need to create custom orthotics, two types with seven sizes each to fit your patient base, allows you to offer your patients the most effective orthotic solution available.

www.whatsmyfoottype.com

RX24 Quadrastep system is an innovative and tailored approach to treating various foot types. The system uses a patented clinical algorithm that identifies and categorizes a patient's feet into one of 24 foot-types. A patient's foot-type will influence not only their gait but also the conditions and pathologies that afflict them throughout their lives.

The RX24 Quadrastep system takes the concept a step further and simplifies the 24 foot-type medical model into six sub-classifications known as quads that groups together four similar foot types. Each quad has its own very specific foot and gait characteristics. These foot types include severe pes cavus, mild pes planus, neutral, moderate pes planus, abductorvarus forefoot and severe planovalgus feet. These six quad specific functional orthoses are biomechanically tailored to that of a true custom prescription. To provide superior patient education, a quad-specific information card is included with each pair that features possible clinical symptoms, key foot attributes, gait characteristics and more.

The RX Quadrastep system is easy to learn and can be quickly

Continued on page 21

applied in a clinical setting. It also eliminates the need for costly and messy foot impressions. The devices can be stocked in-house ready for immediate fitting.

Nolaro's newest innovation is littleSTEPS, pre-fabricated foot orthoses specifically designed for kids. They deliver prescription-based correction closely matching the criteria of traditional UCBL devices. littleSTEPS provide an affordable alternative to custom orthoses, enabling early intervention and treatment of many musculoskeletal conditions common to children.

2019 BUYERS' GUIDE

Fax: (800) 431-7801
www.pedifix.com
Email: info@pedifix.com

Supporting your profession for 4 family generations, PediFix is respected for its unique assortment of professional-quality medical foot treatment products that doctors and patients both love. The firm's extensive conservative care range—including industry-leading Visco-Gel® devices—post-op splints, dermatology solutions, compression therapies, foot orthotics, PediPlast®, ShoeZap® and other options will help you relieve dozens of conditions effectively, efficiently and economically.

Dispense, Prescribe or Patient Direct Order—whatever your practice setting, PediFix makes it easy to get your patients the products you recommend. For patient convenience and best outcomes, dispense your favorite PediFix products from your practice. Choose traditional medical multi-packs, or newer, single-patient OTC packs and in-office displays. For next-best compliance, and specialty items, refer patients to locally-owned retailers (independent pharmacies, DMEs & pedorthists—not chain stores) for product purchase immediately after their appointments. Or, enable patient direct-ordering via our Patient Brochures, 1-800-PEDIFIX and newly re-launched www.pedifix.com (not Amazon, too many counterfeits). Many foot & ankle specialists utilize all 3 methods.

To receive a copy of the 2019 PediFix Medical catalog (21 new products!), a Free Sample request card, Patient Brochures, the locations of stocking retailers near your practice or more information, call 1-800-424-5561, Fax: 1-800-431-7801, or email info@pedifix.com today.

PHYSICIAN CLAIM CORPORATION

4710 Southfield Green
La Crosse, WI 54601
(877) 385-0257

www.physicianclaim.com

Email: pcc@centurytel.net

Physician Claim Corp. (PCC) is celebrating their 25th anniversary in 2019.

No matter what state you practice in, Physician Claim Corp. (PCC) can bill for your podiatry practice. PCC's highly-qualified podiatry billing specialists know Medicare podiatry policies for all carriers, which translates into fewer denials on your insurance claims. Whether your practice focuses on nail care, surgery, wound care or all three, PCC knows the procedure and diagnosis codes that will get you paid.

Pilgrim Shoes are distinguished by their comfortable fit, the result of using German engineered lasts with anatomically shaped contoured bottom and heel cup for better accommodation of foot deformities. In order to provide

more elasticity in the forefoot area Pilgrim Shoes has implemented genuine stretchable leather inserts in some styles; the leather's breathability helps to maintain a healthy in-shoe climate.

Pilgrim Shoes offers a huge variety of fashionable and functional styles (100-plus), some of which are available up to size 15 Men's and 12 Ladies, and up to www and 6E. The Areni One line by Pilgrim is made via environmentally friendly manufacturing methods in Baltimore by American craftsmen. All styles are PDAC-reviewed as A5500. Attractive sample shoe displays are available, and doctors may phone in orders or submit online or by FAX. Same day shipping, free returns, and very competitive pricing.

New from Pilgrim Shoes is their line of custom-made diabetic insoles—the DPM can now use Pilgrim's 3D scanner attached to his/her iPad to scan the patient's feet. Pilgrim will create the insole via fast turnaround.

PODIATRY CONTENT CONNECTION

(718) 475-9449
www.podiatrycontent
connection.com

Podiatry Content Connection offers a powerful program, designed specifically for podiatrists, to attract new patients, remain viable in a competitive field, and do it all in a time-and-cost-effective manner.

From designing a mobile-responsive website, to getting on the first page of Google, boosting your reputation, being in 70+ directories, to social media, PCC experts can do it all for you. At the very heart of our PCC strategy is Quality Online Content—a fresh and useful blog, and a companion article, every week (twice as much content as other companies). Properly curated online content is the best way to reach and serve patients who are searching online for answers to their foot and ankle problems.

PCC is a “Podiatry Only” company, offers buyer protection in writing, and sustains an amazing 96% client retention rate as average ROI rates are 8-10x investment. PCC donates a percentage of its revenue each month to various colleges (TUSPM, KSUCPM, etc.) to support industry alumni and scholarships.

For a Free **2019 Practice Acceleration Session**, call or text Randy Rosler at 917-572-5088 to set up an appointment. PCC is the complete online marketing solution. Attracting a steady flow of new patients is vital to the future health of every podiatry practice.

Quick Notes is a leader in Note Systems and EMR for Podiatry.

PDQ Touch is designed to work anytime and anywhere. PDQ works on iPads or Samsung Galaxy tablets, as well as laptops, desktops or touchscreens. PDQ is fully customizable, so it can easily be tailored to your specific practice. Use PDQ in your office, at nursing homes, or even at home! Set up your favorite note profiles; use your previous visit to create today's note; and you can use voice dictation to edit your notes right away.

QNotes Office EMR links seamlessly with PDQ Touch. Notes are transcribed in seconds! Plus you can scan forms, reports and cards into the EMR. Add Smart Backup Kit with external drives and free offsite data storage, so your patient data is fully protected.

Now's the time to start doing your notes in a real, portable and fully compliant note system! If you are ready to switch from your current EHR or Cloud System to a better note taking solution, please give us a call.

QUICK TAPE by Support the Foot

(253) 981-4849
Fax: (253) 322-5497
www.SupportTheFoot.com

Email: info@SupportTheFoot.com
Tape Feet in Seconds! Get all the advantages of Low Dye without the disadvantages. Wearable in the shower, lasts up to 7 days, enhances patient compliance, fast application, hypoallergenic, latex-free, supports and stabilizes the arch, aligns the foot, no scissors or adhesive spray necessary, instant pain relief, billable with strapping code 29540.

Once you try Quick Tape™, you won't go back to the old way! Not only does it save a huge amount of your taping time, it saves time gathering all the supplies that you won't need anymore. There will no longer be adhesive spray all over your clothes and exam room. Quick Tape simulates and exceeds the traditional Low Dye taping. It can literally be applied in seconds!

The patient will be more compliant since they can wear Quick Tape for up to a week, depending on body type, and wear it through several showers—just pat dry. Your patients will love you for it!

The only 1-piece water-resistant foot support strap for multiple foot conditions.

www.richiebrace.com

Celebrating its 23rd year of success in the podiatric community, the Richie Brace® and its family of products continue to be the premium brand in lower extremity bracing. Often imitated but never duplicated, the original Richie Brace® is the preferred intervention for posterior tibial tendon dysfunction (PTTD) allowing full ankle range of motion with minimal disruption of shoe fit. Other Richie Brace® products provide effective treatment of dropfoot, tendinopathy and arthritic conditions. All of these products are delivered to the podiatric physician by a team of lab distributors who can provide unmatched clinical consultation and technical services for both AFO and custom foot orthotic therapy.

The new Richie AeroSpring Brace Systems offers an attractive alternative to cumbersome walking boots, which are commonly prescribed for lower extremity injuries.

The Richie Brace® is the first podiatric AFO which can be fabricated from a digital scan using an iPad Structure Scanner. Turnaround time is now cut in half compared to traditional casting techniques.

The Richie Brace® is available from the following authorized distributors who can provide instructions for scanning, casting, coding, and reimbursement guidelines:

A member of OHI's growing family of companies focused on treating conditions and diseases of the lower extremities, SafeStep was co-founded in 2000 by Josh White, DPM, and provides diabetic footwear and DME solutions to over 3,000 medical practices.

Dr. White, a member of the APMA's DME sub-committee and a Codingline Expert Panelist, personally shepherded the integration of podiatry into Medicare's DME system. In SafeStep's formative years, he assisted over 1000 practitioners in navigating the complex DME supplier application process. That core value of aiding podiatrists with Medicare's burdensome administrative requirements remains front and center today. SafeStep's "Worry Free DME" program utilizes a proprietary technology that ensures Medicare compliance while streamlining the billing and procurement process.

SafeStep offers over 500 shoe styles from manufacturers including Apex, Brooks, DryDock, Hush Puppies, New Balance and Orthofeet. An industry leader in reducing fall risk, SafeStep has developed fall prevention protocols used by hundreds of podiatry practices

nationwide and was integral in the introduction of the custom-made Moore Balance Brace (MBB). SafeStep is the exclusive distributor of Arizona AFO's full line of custom-fabricated AFO's and makes available a wide variety of DME distributed products.

SMART ABI

(877) 275-8760
www.smartABI.com

The Smart-ABI with wireless Bluetooth technology is a one-minute test and is not operator-dependent. The firm recommends that podiatrists follow AHA recommendation to screen all patients at risk for PAD, as it has been reported that 75% of all patients are asymptomatic for PAD, and bill only the patients for whom you can demonstrate medical necessity.

The Smart-ABI testing can be performed by anyone in your office—it does not require reading any wave forms. Rather, it provides quantitative scores that indicate Non-Compressible, Normal, Acceptable, Borderline or Severe. Depending on these outcomes you decide whether to send them to the vascular surgeon or manage these patients' disease progress over time. The test includes blood pressure and body mass Index calculations qualifying for MIPS.

Smart-ABI Features

• **Measurements based on the Pulse Volume Plethysmography:** the most advanced smart sensors

allow Smart-ABI sensing to 4.6 micrometers of mercury.

• **Improved user error detection system:** will alert the operator of any irregularities during the measurement process.

• **Objective measurement:** the specially-designed algorithm is based on the Plethysmographic techniques, which are independent of the operator.

• **Repeatable measurement:** Regardless of who performs the measurement, regardless of noise or office interference, the measurement result will always be consistent.

The Smart-ABI allows you to manage your patients' PAD rather than wait until it is too late. The direct result will reduce future surgeries and hospitalizations.

"The smart ABI has seamlessly added another dimension to my practice by improving medical diagnosis and care," said Bruce Miller, DPM. "Patients are very impressed and appreciative."

While Spenco's core business revolves around producing high quality insole and foot care products, Spenco also provides the most advanced sports medicine and first aid products. Above all else, quality products and customer service are Spenco's focus. We are 100% committed to exceed-

ing your expectations in products and service as you find solutions for your health and footcare needs. Spenco is part of Implus LLC, a dynamic company that focuses on active lifestyle accessories for both footcare and fitness. Spenco is currently sold in over 84 countries around the world. "When you feel better, your life is better. Life in your shoes is certainly better!"

STRAIGHT ARROW PRODUCTS

P.O. Box 20350
Lehigh Valley, PA 18002-0350
(800) 827-9815
www.straightarrowinc.com

Straight Arrow Products, Inc., continues to provide quality therapeutic products to podiatrists and their patients at an affordable price.

The current line of products includes Foot Miracle and Urea Care, both specially formulated to meet the needs of the podiatric patients and their doctors.

Foot Miracle has been a mainstay for the podiatrist for over 25 years and Straight Arrow reports that the success

Continued on page 29

of Foot Miracle is due to the formulation, performance and overall value that it provides to the podiatrist, staff and most importantly the patient.

This success led to Urea Care, which is a 10% urea-based therapeutic crème designed for patients with severe dry, cracked skin, providing the same results as seen with daily application of Foot Miracle.

Therapeutic shoes, inserts, braces and vascular testing are just a few of the products conveniently at your reach when you partner with SureFit®.

We stock our own brand of shoes as well as 6 other popular brands. You'll have the option to utilize our 3-D scanning technology for faster turn times and shipping cost reductions.

Customers dispense with confidence and efficiency when using our online document management portal. The system allows customers to

collect, track and store Medicare-required documents.

We offer the largest selection of OTS and custom bracing; our 5 warehouses and 6 manufacturing sites allow for timely distribution to our customers.

If you are looking to enhance patient care and practice offerings and revenue, contact SureFit about PADnet®, a system used to conduct PAD and CVI testing for vascular health screening.

Fax (517) 663-8380
www.thetetracorp.com

The Tetra Corporation has been and remains the leader in tolnaftate technology for 30 years. Tetra developed and patented Soluble Tolnaftate in 1989. Today Tetra provides innovative and clinically proven doctor dispensed topical treatments, skin conditioners and dietary supplements with a guarantee that supports the practice of podiatric medicine. Tetra's brands include Formula 7®, Formula 3®, FungiFoam®, CleanSweep®, Kamea® 20, Kamea G®, and CoLig-10™. When you call Tetra a real person answers to give the medical practitioner the best service possible with a "one call resolution" policy.

Formula 7®, our most recent innovation, is the only paraben-free Soluble Tolnaftate antifungal microemulsion fortified with cosmetic ingredients and bactericidal agents. The oil phase is comprised of jojoba oil with Soluble Tolnaftate and tea tree oil to fortify the microemulsion with antifungal, anti-septic, germicidal and anti-bacterial properties. The water phase contains N-acetyl-L-cysteine (NAC) and urea: urea to hydrate, soften, and open keratin for better drug penetration; NAC to increase the flux of tolnaftate through the keratin to the site of involvement and provide bactericidal properties.

Tetra is a proud supporter of podiatric medicine and is a frequent exhibitor at conferences nation-wide. Call Tetra today at 800-826-0479 and you will be impressed.

The 2019 Western Foot and Ankle Conference, aka *The Western*, has long been an ideal place for podiatric physicians and staff from all areas of expertise to earn their continuing education contact hours, including radiology with fluoroscopy credits, for their medical license renewals—with a side of tradition for annual attendees to meet with their colleagues and celebrate the profession in an uplifting setting. Hosted by the Disneyland® Hotel and Convention Center in Anaheim, California June 20-23, 2019, the destination seminar is a stellar meeting for Doctors of Podiatric Medicine and Podiatric Medical Assistants to engage and learn.

Esteemed instructors will present cutting-edge and relevant scientific and patient care lectures, with diverse hands-on workshops and instructional courses to enhance the educational opportunities during the one-stop shopping meeting, which boasts a full exhibition with vendors to meet the needs of every podiatric practice and team.

California Podiatric Medical Association and American Podiatric Medical Association members receive reduced registration rates, and PICA policyholders can earn a 15% premium discount by attending the PICA risk management presentation.

The new and improved two-day program for podiatric medical assistants will continue to educate front and back office staff but will also offer certification on in-office procedures important to running a successful practice. Once again x-ray technicians will be able to earn radiology units by completing an additional take-home course.

Email: samples@wisecpc.com

Frankincense & Myrrh Neuropathy delivers fast temporary topical pain relief from burning, shooting, prickling, tingling pain and numbness caused by neuropathy, guaranteed. In fact, it has helped so many that Wise Consumer Products guarantees pain relief or they'll issue a refund, no questions asked.

Frankincense & Myrrh Neuropathy is a non-prescription, no-side-effects option for neuropathy pain relief. Without the side effects that accompany many pain relief solutions, patients can return to a more active life.

The safe, non-drowsy plant extract formula blends homeopathic ingredients in a base of sunflower oil and 10 essential oils. The rubbing oil formula provides optimal transdermal delivery, allowing quick penetration to calm throbbing nerve endings and ease pain.

Find Frankincense & Myrrh Neuropathy in the diabetic care aisle at Walgreens, CVS, Walmart, Meijer, Sprouts and online at Amazon.com. Visit frankincensemryrh.com to download a \$3.00 off product coupon and to learn more about Wise CPC.

FREE Box of Product Samples.

Give your patients Frankincense & Myrrh Neuropathy samples. Email samples@wisecpc.com for a box of samples—be sure to include name and shipping address.

X-CEL X-RAY INC.

4220 Waller Dr.
Crystal Lake, IL 60012
(800) 441-2470
Fax: (815) 455-4732
www.xcelxray.com

X-Cel X-Ray Corporation has expanded their line of easy-to-use podiatry x-ray machines. Models are available for film, CR and DR.

The newest easy-to-use feature is the patented Tilt-Head which eliminates the need to rotate the patient for the DP/AP view. This is cleverly accomplished by simply tilting the x-ray source.

No need to turn the patient or rotate the arm for AP views, and no need to readjust the collimator for lateral views (Model: FB-715 NT).

Wheelchair patients are accommodated easily without having to leave the wheelchair. This feature addresses the spirit of the ADA Tax Credit Form #8826, which must be approved by an accountant.

All x-ray units are made in Crystal Lake, Illinois with dedication to maintaining the X-Cel X-Ray performance standard, starting with the first units in 1950 for the Illinois College of Podiatric Medicine.
