

2025 BUYERS' GUIDE

If knowledge is power, then time is surely money. That's the idea behind the *Podiatry Management* Annual Buyers' Guide: to save you time by providing you an easy and convenient source of all the major podiatric products and services you use in the everyday course of running your practice.

PART I: WHO'S WHO

This year's guide is divided into two parts. Part I lists company names alphabetically and provides pertinent address and phone/fax/website information, with additional product and/or service data for advertisers in this special edition.

PART II: PRODUCTS & SERVICES

Part II, which starts on page 48, lists companies or organizations according to the type of product or service they provide. Listings in many cases feature both company/organization and product name; thus, if you're looking for Amlactin under "Pharmaceuticals: Moisturizers," you can find this brand name even if you don't know that Sandoz is the manufacturer.

HOW TO USE THIS GUIDE

Another cross-referencing feature makes it easier for you to find related products. For example, if you're looking in the "Orthotics, Prefabricated" category, you will also find the cross-reference "See also: Insoles, Heel Supports, and Pads."

If you have an office manual, we recommend that you photocopy these pages and add them to your source lists. That way, the next time you run short of x-rays, for example, you can quickly locate a supplier. Incidentally, we encourage you to support these suppliers. Collectively, they provide the advertising dollars necessary to support magazines such as this; and many, as well, contribute to podiatric student scholarships and research.

20/20 Imaging, a division of Konica Minolta, is a recognized leader in providing digital imaging solutions to podiatry healthcare providers for over 20 years. 20/20's portfolio of DR panels and digital x-ray systems, along with their ultrasound solutions, use the latest technology to achieve the best image quality. We offer both wireless and tethered DR Cesium detectors in three sizes including 10x12, a true to size 10x13, and 14x17. Our 10x12 MOMENTUM-DR is the only capacitor power cell technology available. These Cesium detectors utilizing REALISM™ image processing algorithms, provide the best image quality solutions available in the industry.

The extremely efficient PXS710 high-frequency output x-ray unit with anatomical programming is designed to minimize dose and advance patient care. The x-ray unit, coupled with any of their DR detectors, provide high-definition detail.

20/20 Imaging SymmetrySync™ software offers secure image viewing, storage, manipulation, and EHR integration. They also option a HIPAA-compliant cloud back-up and image data recovery solution.

Our HS2 and MX1P have become the #1 choice for ultrasound in podiatry, featuring exceptional image quality, Simple Needle Visualization

to improve needle visibility, ease of use, and unmatched training with 5-year warranty.

Our mission: To positively change the lives, practices and communities of podiatric physicians through leadership education, practice management education and sharing knowledge.

The American Academy of Podiatric Practice Management (AAPPMP) is podiatry's premier association dedicated exclusively to practice management education. Nearly 2,000 established practitioners, new practitioners, residents, podiatric assistants, executive office managers, staff members and students have learned that joining the Academy family can change their practice and change their lives.

For over 50 years, the American Academy of Podiatric Practice Management has positively impacted the lives of practitioners and their staff by integrating improved patient care with proven practice management strategies. Whether you are an

Continued on page 3

established practitioner, new practitioner, multi-physician practice, or a doctor looking to retire, the AAPPMP is here for you.

We invite you to join the AAPPMP and find out firsthand how the positive sharing attitude of our leadership and members, our unique practice management meetings, mentoring programs and many other educational resources can help you change your practice and change your life.

AMERICAN ASSOCIATION FOR PHYSICIAN LEADERSHIP/ Healthcare Administration Leadership & Management Journal

(800) 562-8088

www.physicianleaders.org

Today's healthcare leaders face a changing economic landscape. Fee schedules, income limitations, value-based reimbursement, escalating overhead, alternative delivery systems, and the federal government's intensifying efforts to curb costs, increase compliance, and promote health IT—all have become evolving demands on administrators of healthcare.

From the editors at the American Association for Physician Leadership, HALM Journal is a guide to sound fiscal practice, physician and non-physician leadership issues, human resources, health IT, patient-centric care, health law and malpractice topics, and secrets of the best-run healthcare practices. It delivers results-oriented guidance for a healthcare industry moving towards inter-professional teams in a way that can create a positive impact on patient care outcomes and population health.

(415) 553-7800
www.abfas.org
Email: info@abfas.org

The American Board of Foot and Ankle Surgery (ABFAS) safeguards public health and well-being by certifying and continuously assessing the knowledge, skills, and abilities of podiatric surgeons to ensure excellence in surgical care.

As the *only* foot and ankle surgery certification board recognized by the Council on Podiatric Medical Education (CPME), ABFAS continually adapts the board certification process to make it the best it can be, protecting patients and increasing relevance for candidates and Diplomates—and 87% of podiatrists who attempt ABFAS Board Certification in Foot Surgery succeed.

ABFAS grants certification status to candidates who successfully meet the guidelines for demonstrating competency and proficiency in the art and science of foot and ankle surgery through a comprehensive two-part process, which includes a case review component. Once certified, ABFAS Diplomates engage in a process of continuous learning to maintain their certification.

THE AMERICAN SOCIETY OF PODIATRIC MEDICAL ASSISTANTS (ASPMA)

(888) 88 ASPMA (27762)
www.ASPMA.org
Email: aspmaex@aol.com

"Podiatric medical assisting is a small and rapidly-changing professional career. As a result, our role is not understood as well as it should be by other professionals, our peers, educators, and the general public," says Cheryl Bailey, PMAC, Director of Communications for and President of the American Society of Podiatric Medical Assistants (ASPMA). "Obtaining membership in the ASPMA will establish an identity as a podiatric medical assistant, a professional whose support and participation will help the profession develop and gain recognition."

Podiatric assisting mostly involves on-the-job training—learning all aspects of podiatry. "Podiatry is one of the only fields where the medical assistant does a good amount of the patient care," adds Bailey. "This provides the assistant with knowledge and skill along with a study guide to take the exam and become a PMAC (Podiatric Medical Assistant Certified). This, of course, is dependent on the practice and physician."

The exams are offered online and in person at several conferences. You do need to become a member in order to take the exam, but, as Bailey says, "it's well worth it."

Founded in 1939, Bergmann Orthotic Lab is dedicated to manufacturing successful outcomes for your orthotic patients. To accomplish this, we use the most advanced manufacturing techniques, combined with the highest quality orthotic materials and the latest biomechanics concepts. Our guiding concept is to maintain the unique biomechanics, size, shape, and contour of each foot. Dr. John Bergmann, who is an orthotic consult for many orthotic labs, professional sports teams, and the automated orthotic consultant for Podiatry Management, is always available for orthotic consult. If you are looking for a new direction in your orthotic partnership please give us a call. You can contact Dr. Bergmann via Email: Johnortho@aol.com or call 800-323-8267.

Orthotics types—functional, full contact, and accommodative

Shell Materials—leather, plastazote, Eva, polypropylene, polyethylene, and graphite (very flexible, semi flexible, and rigid)

Casting Equipment—Bergmann Optical Scanner—first optical scanner to replace in office plaster casting for orthotics. The only neutral position scanner that takes the sides as well as the bottom of the foot in neutral suspension, semi-weight bearing and full weight bearing.

www.blueorchidmarketing.com

Blue Orchid Marketing may be the oldest podiatry marketing agency, but we're still focused on new—studying up on Lapiplasty and Swift to help you communicate more effectively, investing in our own infrastructure and technology to market your practice more efficiently, and signing strategic partners to do it all more economically.

Email & Text Marketing: Communicate with active patients and recall former patients to improve your bottom line. Unlike other agencies, we actually built our own custom email platform to send out hundreds of thousands of email campaigns for our podiatry clients.

Social Media Posts & Blogs: If you're not consistently posting to Facebook, Instagram, and LinkedIn, and adding blogs to your website, you're missing out on an opportunity to establish community and improve your online search ranking.

Google & Facebook Ads: Connect with new patients in your area at the exact moment they're searching for your services online. A real revenue generator!—Websites & SEO: We believe your website should represent the same quality of service and attention to detail that you provide in the office.

Local Listings & Reputation Management: Let's make sure the information about you and your practice is accurate and up to date across the Web, and collect positive reviews for your practice, since 95% of us rely on community input when selecting a new doctor.

ComfortFit Orthotic Labs remains one of America's largest and most trusted labs. We are entering our 25th year serving podiatry and continuing to provide the finest custom orthotics available along with friendly, knowledgeable customer service. We are also an official Richie Brace distributor as well as providing our version of a Balance brace. ComfortFit also provides pre-fabricated orthotics, night splints and cam walkers as well as diabetic Medicare approved inserts and shoes, Torch and Crow Walkers. ComfortFit accepts numerous casting methods; foam, plaster, fiberglass stocking cast and 3D scanning using an iP-hone or iPad with structure scanner. And we now offer 3D scanning with

MLS® Laser Therapy, from Cutting Edge Laser Technologies, is an FDA-cleared innovative modality for the treatment of pain and inflammation associated with podiatric conditions such as Achilles tendonitis, plantar fasciitis, neuropathies, sprains and strains, and arthritis. Utilizing a patented combination of simultaneously produced wavelengths, MLS® Laser Therapy elicits both an intense anti-inflammatory and rapid analgesic response. Treatments are fast, safe, and painless, with no negative side effects.

At DARCO International, we pride ourselves on being global pioneers in the foot and ankle care space. As we enter our 40th year in 2025, our focus remains on innovation, uncompromising quality, and customer service.

We believe in taking a holistic approach to the development of our products and services by managing every aspect of the product lifecycle from design to distribution. Our global teams of in-house engineers, regulatory professionals, and customer care specialists have allowed DARCO to remain uniquely positioned to anticipate and respond to the evolving demands of the foot and ankle community for nearly 40 years.

Our vast line of products includes:

- Diabetic Foot + Wound Care: pressure reduction, stabilization, and off-loading solutions

- Trauma and Surgical Recovery: post-operative shoes, CAM Walkers and more

- Physical Therapy: plantar fasciitis solutions such as insoles and compression sleeves

Dia-Foot is a diabetic shoe company offering shoes from eleven manufacturers including New Balance, Dr. Comfort, Brooks, SAS, Orthofeet, and Gravity Defyer, to name a few. Dia-Foot manufactures both prefabricated and custom diabetic inserts. We accept either a foam box or a digital scan to manufacture the A5514 diabetic inserts. Dia-Foot offers a Medicare Compliance program to assist podiatrists in obtaining the documentation from the patient's PCP.

In addition, Dia-Foot manufactures the Pure Stride line of professional foot care products including Pure Stride orthotics, therapeutic flip flops and gel foot pads. We just introduced the new Pure Stride Court orthotics, Pure Stride Bold orthotics, and the Pure Stride Ultra orthotics. Please call 877-405-3668 or visit www.dia-foot.com for additional information.

"We Want You!!"—Dr. Jill and Jay at Dr. Jill's Foot Pads:

We would like to thank the more-than-12,000 podiatrists, hospitals and other medical professionals who have made us their full time 1-Stop Foot Pad Supplier over the last 23 years. And for those of you who have been thinking about us but have not yet been purchasing your padding supplies from us we ask you to give us an opportunity to show you how good we are.

There has never been a better time to start working with us if you are not already. With reimbursements going down we can easily help you put ad-

ditional dollars in your bank account by dispensing pads to your patients who buy pads anyway!

We will also SAVE you money on all of your BULK padding supplies and pads for your treatment rooms & drawers and keep your money where it belongs: with you!

We specialize in Felts, Foams, Moleskin, Gels, Tubefoam, Cork, Rubber Cork, PPT, Poron, Pre-Fab Orthotics, Pre-Cut Pads and Rolls and more. No company in the nation has a larger selection of padding supplies. With over 5000 different padding selections we are sure we have what you need and if we don't have it we can make it in the USA!

1) Easy ordering via Toll FREE Phone, Toll FREE Fax, E-Mail, On-Line Medical Professional Store, Live Chat or just give us a call and we would love to help! Ordering has never been easier 24 hours per day. We can even set up a DROP SHIP program directly to your patients.

2) The largest selection of padding supplies. MADE IN THE USA

3) The lowest guaranteed prices.

4) The highest quality raw materials.

5) No minimums.

6) Free shipping on ONLY \$100.00 orders.

7) The knowledge to get you what you need when you need it!

8) 99% of orders ship same day!

Get started with our new affiliate program where we ship directly to your patients who will save money as they purchase what you want them to have—and you receive a quarterly reimbursement!

www.gillpodiatry.com

Gill Podiatry Supply Company is proudly celebrating ninety years of exclusively serving the podiatry profession. In those ninety years Gill Podiatry has represented many different manufacturers, carrying thousands of brand name, generic, and even private-labeled products. They have also aided in bringing new products to market, like Pedi-Freeze.

Gill Podiatry is the exclusive distributor for Pedi-Freeze Spray, the most economical and cost-effective cryosurgical method on the market. Throughout the product's life span it has saved DPMs well over 1 million dollars. The 4 oz. canister is convenient, portable and easy to use. Pedi-Freeze Spray will freeze to -65°F/-54°C, which is very comparable to other canister-based systems. This allows for a fast, safe and effective way for treating lesions of the skin including warts, skin tags, granulomas and fibromas. To isolate the lesion and protect the surrounding healthy skin from frostbite, always use the companion product Pedi-Shield protective paste. Pedi-Freeze Spray can also be used in conjunction with any cones or buds. This CFC-free,

non-flammable, non-hazardous refrigerant gas should only be administered by qualified medical professionals.

Gill Podiatry announces the latest innovation and advancement in autoclaves, the Enbio S.

The Enbio S autoclave is the world's fastest B-class, air-removal (pre-vacuum) autoclave available. With a seven-minute processing time for unwrapped instruments and fifteen minutes for pouches, it is ideal for the podiatry office. It is truly a tabletop sterilizer. At only 22" deep, 9.8" wide and 6.3" high, it easily fits on any treatment room or lab countertop. This may be the replacement for cold sterile trays that everyone has been looking for.

This Swiss-made autoclave has an incredibly intuitive touch screen and you can record your sterilization cycle data on a USB memory stick. Your patients and staff will hardly notice its ultra-quiet operation. It comes with a one year "door-to-door" warranty. In the unlikely event of a failure, Enbio will ship you a replacement device.

Hyperion Medical has been a leader in medical technology since 2010, proudly serving over 3,000 customers nationwide. Our commitment to excellence is reflected in our long-term relationships and dedication to providing high-quality products with superior customer service.

We specialize in advanced medical devices, with our Hyperblue Laser recognized for groundbreaking onychomycosis treatment and our Smart-ABI series widely used for early detection of peripheral arterial disease and autonomic peripheral neuropathy. Our Smart-RST system utilizes radial shockwave therapy for non-invasive musculoskeletal treatment, accelerating healing and pain relief. Additionally,

the STX4 is an advanced sensory neuropathy assessment tool designed for early detection and monitoring of nerve function, aiding in the management of conditions like diabetic neuropathy.

At Hyperion Medical, we prioritize quality, precision, and customer satisfaction by developing innovative technologies that enhance diagnostics, streamline workflows, and improve patient outcomes.

With a foundation built on integrity, innovation, and unwavering customer support, we continue to push the boundaries of medical technology. As we grow, our mission remains clear: to deliver cutting-edge solutions that make a meaningful difference in the healthcare industry

A Distinct Advantage

Compare...

- Large tube: 15g or 1/2 oz.
- Tiered pricing: \$18.00 - \$21.00 per tube
- Urea softens the nail plate, increasing its permeability for medicating the nail bed
- Ingredients that rehydrate and restore the natural appearance of skin and nails
- No skin irritation... never causes dry brittle nails
- This oil-in-water microemulsion, patented in 2021, makes use of jojoba oil to distribute soluble tolnaftate quickly and effectively
- NDC number indicates FDA registration as a medication
- Formulated with strict compliance to cGMP
- N-acetyl-L-cysteine enhances penetration allowing increased tolnaftate flux through keratin and providing a bactericidal boost to break down the biofilms of prominent pathogens
- Antibacterial and antifungal ingredients are safe and effective, indicated for both treatment and prophylaxis

The Value and Results are Incomparable Evaluate for Yourself

www.marlinzpharma.com
info@marlinzpharma.com
Marlinz Pharma developed the Tolcylen® professional product line through extensive research and development utilizing the most experienced scientist, formulators and other industry experts available. All Marlinz Pharma drugs and cosmetics are exclusively physician-dispensed and no online sales or price publishing is allowed. Our market-leading products have become known for their innovative delivery vehicles, patented combinations of unique chemical compounds, high clinical success rates, patient loyalties and for creating unapparelled profit centers for our dispensing partners. The Tolcylen products typically combine different compounds which can be utilized for multiple conditions, eliminating the need for carrying competitive drugs

and cosmetics typically indicated for each single condition. More importantly, Marlinz Pharma is able to provide patients with cost effective, direct solutions to their common conditions. Due to the high patient demand for innovative, clinically effective, direct access products, Marlinz Pharma has now dispensed well over 2,000,000 units of our Tolcylen products through our healthcare partners. We have also referred thousands of patients to those same accounts and have sponsored multiple clinical trials/studies illustrating the effectiveness of our products.

Our current product portfolio features the Tolcylen Antifungal Nail Renewal Solution, Antifungal Skin Renewal Cream, Keratolytic/AF Moisturizing Cream, Therapeutic and Micro-cleansing Foot Soaks, Topical Transdermal CBD/CBG Cream, Fungal Eradication Kits and Anti-microbial Shoe Sprays. We offer complimentary profit analysis and comparisons for our current and potential accounts and our sales team can schedule virtual or face to face in-services showcasing our product lines and how they compare to competitive options. Visit us at one of our trade show exhibits or reach out to us at 844-398-5656/www.marlinzpharma.com.

MEDICOOL
20460 Gramercy Pl.
Torrance, CA 90501
(800) 433-2469
www.medicool.net
Medicool is a leading provider of debridement drills to the podiatry community, with solutions for every practice as well as Hospital Foot Care Centers and VA Facilities.

The hazards of breathing airborne particles generated from the debridement of fungus toenails is something that should not be taken lightly. Many podiatrists and assistants have breathing issues as a result of years of debridement procedures. Many have now alleviated their breathing troubles by using a Medicool vacuum debridement drill.

If you, your staff and your patients are being exposed to potential health issues related to airborne debris during debridement procedures, we have a solution.

The Pro Vac™, The Pro Vac Classic™ and The File Stream™ debridement drills with built in vacuum offer powerful motors and a high suction power to collect all those harmful dust particles.

For those doctors looking for portability, the Pro Power 20K & Pro Power 35K cordless rechargeable drills offer the versatility and freedom to move between patient rooms or to when visiting nursing homes or doing house calls. These are high-torque 30,000 & 35,000 rpm powerful filing systems. The perfect piece of equipment for those with outpatient visits or multiple patient rooms.

Medicool offers the largest selection of carbide & diamond Burrs with over 100 different styles.

The newest Medicool product is their DiaSox diabetic socks—comfort socks that are suitable for diabetics and people with foot or leg swelling. They are seam-free with a unique knit top that helps prevent sagging without binding. An-

ti-microbial fabric treatment helps protect against fungal growth and bacteria.

Orthofeet was established in 1984 by two brothers, a biomedical engineer, and a mechanical engineer.

Since 1984, the goal of Orthofeet has been to use the combined knowledge of foot biomechanics, innovative therapeutic footwear features, and attractive design in order to alleviate symptoms associated with common foot conditions and provide comfortable, protective, and supportive footwear for all.

Orthofeet shoes are covered by Medicare for people with diabetes and are a favorite of podiatrists and other foot care practitioners because of their unique ways of customizing the fit and improving support of the foot.

www.OHI.net

In 2008, an exciting new approach to lower extremity therapies began to take shape when storied Langer Biomechanics and Canada's premiere custom foot orthotic brand, The Orthotic Group (TOG), were united in a new venture called Orthotic Holdings, Inc., or OHI. Since then, six additional companies, all leaders in their space, were added to the OHI family of brands: Arizona AFO, SafeStep, Apex Foot Health Industries, PedAlign, MDI and Central Casting. Each of these companies built outstanding reputations by following a simple but essential set of principles including excellence in manufacturing, leadership in innovation and medical education, as well as superior customer, clinical and practice management support. As sister companies under the OHI banner, leveraging and unifying each other's deep experience and expertise, these exceptional brands are more powerful than ever in achieving their shared top priority: delivering products and services that result in optimal patient outcomes.

ARIZONA BALANCE BRACE GROUND BREAKING INNOVATION

Arizona Balance Brace: Often imitated but never duplicated

The groundbreaking Arizona Balance Brace (ABB) introduced a new category of devices for Podiatric professionals, enabling better treatment for patients with balance deficits and reducing fall risks. Consequently, the market is now flooded with generic balance braces.

With over a decade of successful patient outcomes, the ABB is still the **only** balance brace clinically shown to improve balance* and a **proven track record of impacting tens of thousands of patients' lives.**

ABB: The only balance brace with a white paper

PEDICIS RESEARCH

(800) 748-6539
www.pedicis.com

Pedicis Research brings unique pharmaceutical products distributed exclusively to the practice of podiatry and dermatology. We specialize in developing novel formulations/solutions uniquely suited for treating the various diseases seen by podiatrists and dermatologists. Pedicis Research is a science-oriented company. We believe the best approach in bringing new products to market is through clinical research demonstrating our products' efficacy.

Our Products:

CIDACIN™ Antifungal Solution—is a unique product that uses dimethyl sulfoxide (DMSO) and other excipients to bring tolnaftate to the site of infection.

VIRCIN™ Advanced Wart Treatment—has been developed to treat resistant warts. Vircin employs an immuno-modulator along with salicylic acid and an antiviral to provide a one-two-three punch to painlessly combat plantar warts.

NEW HEMPCIN™—a unique fast-acting all-natural pain relief cream.

Hempcin targeted pain relief contains full spectrum HEMP—including CBD, CBG, and other cannabinoids for strong pain relief and anti-inflammatory action at injured areas. This powerful formulation includes the cooling of menthol, the healing of arnica montana extract, and the movement and immune support of boswellia serrata.

PHYSICIAN CLAIM CORPORATION

P.O. Box 279
Onalaska, WI 54650
(877) 385-0257
www.physicianclaim.com
Email: pcc@centurytel.net
Physician Claim Corp. (PCC) is a nationwide podiatry-specific billing company. This is their 30th year in business and their staff has over 150 years of podiatry billing experience.

"Our over-200 clients," reports Physician Claim, "have found that they can significantly reduce their staff once they hire us. On average our podiatrists only need 1 part-time person in the back office. Patient eligibility and pre-authorizations are their main duties."

It is key to note that by utilizing

PCC, you only pay a per-claim fee that is a variable cost, not a fixed cost like permanent staff. If you see fewer patients, you pay them less. "We also go after every dollar of your insurance accounts receivable," adds Physician Claim, "which can more than pay for our services. We take all of your patient phone calls, which again saves on your staff time."

Because of these benefits, their clients have a better chance of riding out a rough economy or an illness.

"Even if you are not able to see as many patients right now," reports Physician Claim, "we can work on any accounts receivable you may have that could help bring in some income."

Fax: (410) 277-9988
www.pilgrimshoes.com

Pilgrim Shoes, a well-known supplier of diabetic footwear brands "Hoopoe" and "Areni One" over the last quarter-century, has declared its readiness for in-stock timely shipping despite logistics challenges.

The firm has increased its offerings of diabetic footwear, invested in some new styles, and beefed up its current inventory.

Pilgrim Shoes is now offering an expanded styles selection; they've invested in new technology and materials to provide podiatry practices with a one-stop shopping solution for PDAC-reviewed diabetic shoes and A5512 off-the-shelf diabetic inserts. And in addition to their familiar lines of comfort shoes and sandals Pilgrim is adding new styles of winter boots and some slip-resistant footwear along with very stylish

and comfortable athletic shoes.

Says Pilgrim, "Challenges of last few years allowed us to review what we do as a company and what we can offer to practitioners to make their lives easier. I want to say to podiatrists: your supply chain at Pilgrim Shoes is ready as never before."

Pilgrim Shoes' brands of diabetic and orthopedic footwear are distinguished by their comfortable fit, the result of using German-engineered lasts with anatomically shaped contoured bottom and heel cup for better accommodation of foot deformities. Pilgrim Shoes offers many fashionable and functional styles in Hoopoe and Areni One brands, some of which are available up to size 15 Men's and 12 Ladies, and up to WWW[6E] width. All styles are PDAC-reviewed as A5500 for diabetic patients. Attractive sample shoe displays are available, and doctors may phone in orders or submit online or by FAX. Same day shipping, free returns, and very competitive pricing, always in stock guaranteed.

Podiatech's Premium Station is delivering top quality orthotics dispensed same day to satisfied customers, allowing maximum profits and control of the process to practices large and small. The Premium Station can be a profit center in its own space or can sit with a lot of attraction in a waiting room. This compact package

delivers on performance, speed, and comfort. The Premium station has an oven, two high-definition vacuum molding pillows, a podoscope as a step and adjustable seat all elevated at a comfortable work height for the fitter, all packed into a sleek 39 X 38-inch footprint. The premium station's ability to easily create 20 pairs of orthotics a day for immediate dispensing keeps the patient happy, and the practice is able to avoid obstacles seen with their current lab solutions. With many orthotic styles and models to choose from this machine will deliver in patient satisfaction and profitability for the practice. Orthotic costs to the practices are as low as \$37 a pair! Podiatech offers enough free product to offset your initial investment, insuring an immediate ROI. Reach out to Nolan for a quote and to discuss how they can tailor a solution for your practice.

ProLab Orthotics was founded by podiatrists for podiatrists. Orthotic therapy education has been a cornerstone of ProLab's philosophy and success for thirty-five years. Our Medical Consultants, Dr. Larry Huppin and Dr. Dianne Mitchell-Pray, are available to our clients to discuss challenging cases. Our Biomechanics Director, Dr. Kevin Kirby, writes a monthly Biomechanics & Orthotic Therapy Newsletter highlighting many important topics and reinforcing concepts taught in podiatry school.

Located in Napa, California, we manufacture truly custom foot orthotics by hand to your exact prescription. We strive for the best possible outcomes for you and your patients. In addition to our quality custom products, we also offer a full line of prefabricated foot orthotics. The P3 Adult prefabs are semi-rigid orthoses with a full-depth heel cup, forefoot valgus correction and medial heel skive. They are available with or without a rearfoot post based on your patient's needs. ProLab's Kiddythotics® are the first children's prefab designed with a deep heel cup, medial flange, medial heel skive, and rearfoot post in a rigid shell, making them an excellent choice to treat pediatric flexible flatfoot.

SOLE MARKETING (division of Podiatry Content Connection)

401 Main St., Ste. 100-280
Metuchen, NJ 08840
(917) 572-5088
podiatrycc.com

Podiatry Content Connection has launched a first-of-its-kind program to help DPMs promote their in-office orthotics sales. PCC's Sole Marketing™ System was developed to add thousands of dollars to your practice revenue.

Program director Randy Rosler breaks down the numbers: "For a pair of custom orthotics, a podiatrist can spend \$100 but sell to a patient for \$500 (much less than the \$1000+ costs at Good Feet). That's a \$400 profit per pair to you! If a practice sells a do-able 2 pairs of orthotics a day for five days—that's ten pairs at \$400 profit each, for a total of \$4000 per week! These numbers are game changers. \$16K per month, \$192K per year..."

What you'll get using the Sole Marketing system:

- Orthotics Featured on Your Website
- Orthotics Landing Page
- Orthotics Emails to Patients
- Designed Orthotics Banner

- Orthotics Appointment Form
- Monthly Orthotics Blogs
- Monthly Orthotics Ads (Spot Campaigns)
- Branded Orthotics eBook For Patients
- Social Media Digital Library (FB & IG)
- Patient Room Poster, Benefits of Orthotics

SOLO Labs has been crafting high-quality custom orthotics and bracing solutions since 1983. Every device is proudly manufactured in Kutztown, PA, where we maintain strict quality control to ensure superior products. By keeping production local, we support American jobs and uphold the highest standards in craftsmanship and reliability.

Innovation is at the heart of what we do. In 2006, we introduced the first affordable scanning solution for podiatrists. Nearly two decades later, viSo 3 with viSo ID3 embodies years of expertise, customer feedback, and technological advancements to provide precise, efficient scanning solutions.

At SOLO, customer service is more than just a department—it's our foundation. Guided by our philosophy, expert guidance, ensuring every customer feels confident and valued. *Serve Others, Love Others*, we are dedicated to providing ex-

www.thetetracorp.com

For three decades, The Tetra Corporation has stood at the forefront of tolinaftate technology, consistently setting the standard for innovation. In a pivotal moment in 2021, we secured a groundbreaking patent for Formula 7[®], the world's first tolinaftate micro-emulsion. Our journey began in 1989 with the development and patenting of Soluble Tolinaftate, a testament to our enduring commitment to pioneering advancements.

At Tetra, we go beyond the ordinary, delivering a comprehensive range of doctor-dispensed topical treatments, skin conditioners, and

dietary supplements. Our unwavering dedication to the practice of podiatric medicine is underscored by our products' innovation and clinical validation. Step confidently into the future with Tetra's renowned brands, including Formula 7[®], Formula 3[®], FungiFoam[®], CleanSweep[®], Kamea[®] 20, Kamea[®] G, CoLig-10[™], and Triova[™].

Breaking new ground in patient care, Tetra proudly presents Alaplex[®], a revolutionary approach to the management of peripheral neuropathy symptoms. In the fall of 2022, we unveiled GlyCylic[®] Wart Remover, a paradigm-shifting, painless, and non-scarring home treatment. Harnessing an anti-viral formula, GlyCylic[®] not only eradicates HPV but also incorporates an immunomodulator to thwart recurrence. March of 2024 saw the introduction of Joba Silk[®], a moisture marvel designed to restore and maintain optimal moisture levels for your patients' feet, hands, body, and face.

Celebrating the four-year milestone of our One-Ship Program in March, Tetra continues to redefine convenience in healthcare. This program ensures direct-to-door shipments of prescribed treatments, offering unparalleled ease for both medical practitioners and their patients. Enroll today to experience the seamless efficiency of One-Ship.

When you reach out to Tetra, a real person is ready to provide unparalleled service, adhering to our "one-call resolution" policy. Our commitment to excellence extends to Formula 7[®] Solution and Rapid MicroGel[®], the sole paraben-free Soluble Tolinaftate antifungal micro-emulsions fortified with cosmetic ingredients and bactericidal agents. Jojoba oil, Soluble Tolinaftate, and tea tree oil combine to create an oil phase with potent antifungal, antiseptic, germicidal, and antibacterial properties. The water phase, enriched with N-acetyl-L-cysteine (NAC) and urea, hydrates, softens, and opens keratin for enhanced drug penetration, while NAC increases tolinaftate flux to the site of involvement, providing bactericidal properties.

As an avid supporter of podiatric medicine, Tetra is a fixture at conferences nationwide, contributing to the advancement of the field. Connect with Tetra today at 800-826-0479 and witness firsthand the excellence

The 2025 Western Foot and Ankle Conference, affectionately known as *The Western*, returns to its enchanting home at *The Disneyland®* Hotel and Convention Center in Anaheim, California, from June 19 to 22, 2025. Organized by the California Podiatric Medical Association, this premier event offers podiatric physicians and medical professionals a unique blend of top-tier education, networking, and a touch of magic.

Renowned as a leading continuing education (CE) event, *The Western* provides a one-of-a-kind opportunity for podiatric specialists to earn crucial CE contact hours, including radiology and fluoroscopy credits, in an uplifting and inspiring environment. Attendees can reconnect with colleagues, celebrate their profession, and enhance their skills through engaging sessions and activities.

This year's conference will feature esteemed instructors delivering impactful lectures on biomechanics, sports medicine, pediatrics, dermatol-

PRESENT AAPSM Sports Medicine Wisdom and Pearls Virtual Conference

Saturday & Sunday, May 17-18, 2025 - 9AM EDT

PRESENT e-Learning Systems and the American Academy of Podiatric Sport Medicine (AAPSM) are teaming up to bring you a 2-day virtual conference the weekend of May 17-18, 2025, featuring the best education in podiatric sports medicine available today. Using the widely acclaimed PRESENT virtual conference platform, members of the AAPSM will present a program of their best, most practical lectures containing wisdom and pearls that you can employ for your patient athletes in your practice on Monday morning. Complete an attendance verification in the AM and PM Saturday and Sunday and a CME survey Monday at 5PM EDT to earn 15 CME Credits.

Jay Spector, DPM, FAAPSM
Conference Chairman

Invited Faculty:

Douglas S Robinson DPM
Annemarie Fullem PT
Missy Journot, DPM
Nancy Clark MS, RD, CSSD
Howard Liebeskind, DPM
Elizabeth Bondi, DPM
Michael Donato, DPM
Daniel Donato

Daniel Stewart, DPM
Adam Tenforde, MD
Maggie Fournier, DPM
Jim Whelan, ATC
Clint Laird, DPM

ogy, and other cutting-edge topics tailored to podiatric medicine. Attendees can meet licensure renewal requirements, including earning essential radiology CE hours through general sessions and a complimentary on-demand fluoroscopy course available to all DPM registrants. Additionally, *The 2025 Western* will offer three opioid-related CECH hours, catering to out-of-state licensees.

The *Western* is excited to add a surgery masters session to this year's program, featuring Drs. Byron Hutchinson, Jeffrey Christensen, and Jack Schuberth. These legends in the field will engage in a collegiate debate on current surgical modalities. It's an incredible opportunity to witness cutting-edge discussions by the best in the industry.

The conference also caters to podiatric medical assistants with two days of focused training. Friday sessions cover administrative best practices and billing and coding insights, while

Saturday emphasizes hands-on clinical skill-building for back-office staff.

An expansive exhibit hall, open June 19–21, will showcase an array of vendors offering products and services designed to meet the diverse needs of podiatric surgeons and practices. Attendees can also engage in games and interactive activities, adding excitement to the learning experience.

California and American Podiatric Medical Association members can enjoy reduced registration rates. PICA policyholders can earn a 15% premium discount by attending the in-person risk management program on Friday morning and completing an on-demand segment within 60 days.

Don't miss the opportunity to advance your practice and celebrate the profession at *The Western*. Attendee and exhibitor registration is open online. For more information, visit www.thewestern.org.

Microemulsion Delivers Remarkable Results...

Microemulsion Technology provides Podiatrists with better penetration and better results. With small particle size Formula 7's antibacterial and antifungal properties deliver the benefit of multiple products in a single tube or jar.

Formula 7® is the First Tolnaftate Microemulsion Utilizing Soluble Tolnaftate, the Technology Developed by The Tetra Corporation

Cosmetic Ingredients (C12-15 Alkyl Benzoate, Jojoba Seed Oil, Glycerin, PEG-20 Hydrogenated Lanolin, Urea, Vitamin E Acetate, and Caprylyl Glycol) Rehydrate and Restore the Natural Physical Properties and Appearance of the Skin and Nail

N-acetyl-L-cysteine (NAC) is a Penetration Enhancer Incorporated to Increase Tolnaftate Flux through Keratin and Break Down Bacterial Biofilms of Clinically Relevant Pathogens (*Pseudomonas Aeruginosa*, *Staphylococcus Aureus*, *Enterococcus Faecalis*, *Enterobacter Cloacae*, *Staphylococcus Epidermidis*, and *Klebsiella Pneumoniae*)

Urea Increases the Water Content and Gently Dissolves the Intercellular Matrix loosening the Horny Layer of Skin and Shedding Scaly Skin there by Softening Hyperkeratotic Areas

Urea also Hydrates and Gently Dissolves the Intercellular Matrix of the Nail Plate, which can Result in the Softening and Increasing Permeability of the Nail Plate for Cosmetic Debridement

Tea Tree Oil adds Benefits of Antifungal, Antiseptic, Germicidal and Anti-Bacterial Properties

Provided in a Convenient Tube with an Integrated Brush Applicator for Ease of Use or a Jar for More Broad Application

Doctor Video

**The Leader in Tolnaftate
Technology Since 1986**

Glycolic Debridement Cream Resolves Cracked Hyperkeratotic Skin

(Doctor Provided Photo with Actual Patient Improvement)

Patients see great results with Kamea® G. These photos show the improvement after just 28 days of treatment.

Kamea® G

Formulated to Exfoliate, Condition, Moisturize, and Improve the Appearance of Dry, Cracked, Calloused Skin

Glycolic Acid is the Smallest Molecule of the Alpha Hydroxy Acid Family which Enables it to Quickly Penetrate Thick Scale and Plaque

Enriched with Jojoba Oil and Vitamin E acetate that Moisturize and Condition the New Emerging Skin

Fragrance and Dye Free / Not Tested on Animals
Does not Leave Any Residue on the Skin

Leaves the Skin Feeling Softer and Suppler

The Next Generation of Midmark® Steam Sterilizers

Midmark Steam Sterilizers are designed inside and out to help make instrument processing as easy and as automated as possible.

- 01** Navigate cycle setup and other processes with a clear, fingerprint-resistant 5-inch touchscreen you can utilize while wearing gloves.
- 02** Determine cycle status—cycle in progress, cycle complete and cycle error—from a distance with a progressing color-coded LED light bar, large cycle countdown clock and audible cues.
- 03** Stay audit-ready with device reminders, user authentication, unlimited storage of routine care events for the life of the sterilizer, and automated cycle recordkeeping.

See what makes them different at:

midmark.com/nextgensterilizer

Register your Next Generation Midmark Steam Sterilizer to protect your investment and receive a free sterilizer maintenance kit.

CHANGE YOUR PRACTICE. CHANGE YOUR LIFE.

When you join AAPP, you'll find out firsthand how the positive sharing attitude of our leadership and members, unique practice management meetings, weekly **Tuesday Tips** e-newsletter, and extensive sample forms and protocols in our Resource Center can help you change your practice and change your life. Here's a peek at some of the benefits you'll enjoy:

- ACCESS TO ONLINE RESOURCE CENTER
- WEEKLY **TUESDAY TIPS** eNEWSLETTER
- DISCOUNTS WITH CORPORATE PARTNERS AND SPONSORS
- DISCOUNTS FOR AAPP CONFERENCES
- FELLOWSHIP OPPORTUNITIES
- DISCOUNTS ON MEMBERSHIP SERVICES
- FREE CONSULTATIONS AT CONFERENCES

To learn more, visit aappm.org/membership or call 517.484.1930. We're here to help!

PHYSICIAN CLAIM corporation

The Podiatry Billing Specialists

PCC
31st
ANNIVERSARY
1994-2025

PCC Specializes in Podiatry

- PCC specializes in podiatry, so clients see fewer denials and lower accounts receivable
- PCC has a proven system that results in faster pay and higher profitability
- PCC staff performs extensive insurance follow-up that can make or break a practice
- High success rate on appeals with United Healthcare, Aetna, Humana and other insurance companies

Our staff has over 175 years total of podiatry-only billing experience

PCC Allows You to Focus on Your Practice

- No start-up costs
- No long-term contracts
- PCC's per-claim fee and A/R follow-up are far more economical than either billing in-house or using other billing agencies
- Our clients have found that they can significantly reduce their staff once they hire us

31 years in business

Partnering With Podiatry

Founded by Podiatrists for Podiatrists

ProLab has a long tradition of supporting the Podiatry Profession through grants, donations, education, and quality products

Partner with ProLab for the best patient outcomes:

- Truly custom orthoses made to your exact prescription
- Consultations with DPM Medical Consultants
- Biomechanics & Orthotic Therapy Newsletter by Dr. Kirby
- Extensive custom and prefabricated offerings
- 3D Foot Scanning
- Online video lectures and articles

Our On-Staff Podiatrists

Are Your Assistants Certified? The ASPMA Exam Options!

Joining the ASPMA (The American Society of Podiatric Medical Assistants) can boost your career and confidence. Podiatric medical assisting is a small and rapidly changing professional career. As a result, our role is sometimes not understood as well as it should be by other professionals, our peers, educators, and the general public. Obtaining membership in the ASPMA will establish your identity as a **podiatric medical assistant**. Podiatric assisting is mostly on-the-job training, learning all aspects of Podiatry, one of the only fields in which the medical assistant does a lot of patient care.

The ASPMA can provide you with the knowledge and skills you need along with a study guide to take the exam(s) to become...

1. PMAC (Podiatric Medical Assistant-Certified)
2. PRAC (Podiatric Radiology Assistant-Certified)
3. PMAC & PRAC—Are you certified? (requires two separate exams)

Our examinations are offered online and in-person at several conferences. We offer three different exams. Visit www.aspma.org/certification.

1. NEW Administration Exam
2. Clinical Exam without Radiology
3. Radiology Exam

Visit www.aspma.org for more information about the ASPMA and Certification.

Carbon Footplate

Protect your forefoot, enhance stability, and support recovery with our high-performance Carbon Footplate.

Comfortable Fit Reduced Pain

- Restricts the ROM to alleviate discomfort.
- Contours align with the shape of the shoe for a comfortable fit.
- Accommodates shoes with a 5-10mm heel pitch.

The Carbon Footplate should be placed under the shoe insole.

News!

Now available in a Rigid version for additional Support and Stability
