

## Nolaro24 & Amerx Biomechanics, Equinus & Wound Care Conference 2019

By Louis J. DeCaro, DPM

Dr. Louis DeCaro, Roberta Nole, MA, PT, CPED of Nolaro24, LLC, Dr. Jon Moore, Dr. Jeff Lehrman, Holly Burkman, MBA of Amerx, and Dr. Patrick Deheer of IQMed are proud to offer a convenient 2-day course

on both the science and practice management of biomechanics, orthotics, equinus, and wound care for all ages. The course will be held at the Hyatt Regency Orlando International Airport, April 26-27, 2019, Orlando, Fl.

Over the past 15 years of lecturing our speakers have been asked hundreds of times “Why don’t you put together a course where we can learn everything from the science to the practice management of treating all ages and all feet?” Off the heels of 4 successful masters classes in 2017 and 2018, we have decided to improve our biomechanics program and add Amerx and their expertise on wound care and compression for successful patient outcomes.

Whether you use the Quadrasteps, Littlesteps, or the Equinus brace already, or you dispense custom foot orthotics and use night splints, or already do wound care, this is the perfect seminar for you. We will invigorate and educate you on every aspect of biomechanics, orthotics, wound care, and equinus treatments.

The content of this seminar will include both lectures and hands-on workshops that will cover the A-to-Z’s of running a *successful* practice of orthotics, equinus, and wound care management, including, but not limited to:

- How to easily assess foot types
- How to prescribe and troubleshoot foot orthotics (both prefabs and custom)
- How to properly examine and treat equinus both conservatively and surgically

- How to properly document, educate, and bill for equinus bracing
- Hands-on debridement wound workshop with protocol sessions
- How to properly assess and treat compression
- How to implement our

proven practice management techniques to market and expand your cash-based orthotic and wound care programs

This seminar is both inexpensive and accessible for practitioners and staff and offers 13+ hours of content.

**This seminar is both inexpensive and accessible for practitioners and staff and offers 13+ hours of content.**

---

Registration is only \$154 per practitioner, and additional associates will be \$104 each. Also, bring your medical assistants for only \$80 each.

The Hyatt Regency Orlando International Airport is right at the airport, so no shuttles or taxis—just get off the plane and walk right in! Course hours were selected to least interfere with your practice schedule and get you home in time to enjoy the remainder of the weekend (Fly in Friday before 12pm and fly out Saturday after 5pm). A limited block of discounted rooms has been reserved at the Hyatt for \$199 per night.

To register, go to <http://nolaro24.com/classregmc.html> or click here; for more information, email [education@thequadrastepssystem.com](mailto:education@thequadrastepssystem.com).
