

Feature daniPro in Your Office Today... Your Patients Will Thank You

By Gary Evans, DPM

“No one understands your patients’ toenail concerns better than you and I, podiatrists. That’s why I developed daniPro, a toxin-free nail polish collection that can help nails look healthier with the use of safe ingredients that you know and trust.”

—Dr. Gary Evans, Board Certified podiatrist and surgeon, founder of daniPro Doctor-Formulated Nail Color

At **daniPro**, we take nail health and your patient’s health seriously so all of our products are free from toxic

What’s new? This year we will expand our existing range of shades with new seasonal collections. And our revolutionary new Nail Recovery Treatment is your solution to stronger, silkier nails... in only 3 weeks! It’s the hottest breakthrough in treatment of damaged nails.

daniPro Nail Polish REMOVER is here! Acetone Free! Toxin Free! Infused with Undecylenic Acid to protect cuticles and skin from fungus. Special stain-fighting formula!!

In addition to the daniPro color collection, we offer a Clear Base Coat that is also infused with Undecylenic Acid* and can be worn alone or under a favorite daniPro color. It fills ridges creating a smooth surface for the polish. Nothing is better than nourishing nails where it

chemicals. We use only ingredients that can provide optimal nail health.

daniPro products are TOXIN-FREE, and safe for everyone, including diabetics, pregnant women and those undergoing various medical treatments. We don’t use Formaldehyde, Formaldehyde resin, Toluene, DBT (Dibutyl Phthalate), TPHP, Xylene, Ethyl Tosylamide or Parabens. And our products have never been tested on animals.

Why should you sell daniPro? daniPro Doctor Formulated Nail Color is the *first* 8-Free line of nail polish infused with Undecylenic Acid* to be recognized by APMA to promote good foot health. No other brand uses this ingredient and that makes all the difference in nail care. We are constantly working to innovate with new formulas containing Biotin—part of the Vitamin B complex—a group of nutrients known to help reduce brittle nails and promote nail growth. We’ve also applied antioxidants, Vitamins E and A, into the formula, which can enhance nail strength. Now your patients can get multiple benefits from a single product. Since daniPro is sold at podiatrists’ offices worldwide, these products are an extraordinary offer to your patients.

counts. And to ensure a high shine and durable wear for any manicure, our super-fast drying Top Coat is a must. Both go on smooth and dry quickly, offering long-lasting protection for nails.

Don’t Wait Any Longer. In-Office Dispensing.

You can dispense this unique product directly to your patients and boost the bottom line of your practice. daniPro provides the tools you need to easily market and sell this innovative product including publicity coverage in national magazines and a lightweight acrylic counter display that neatly organizes the entire color collection.

Feature daniPro in your office today... Your patients will thank you!
